Mr. Haruna Y. SA’EED, NEITI, Nigeria
Welcome and Introductions

The Chair opened the meeting by welcoming new members of the Board. He briefly outlined the role of the EITI Board. He explained that the Board was very active with a continuous stream of communications through Board Circulars (once every two weeks on average). The Board itself met 3 times a year on average. The Board papers were to be considered confidential, though they could be shared with trusted partners. Board Minutes were public and published on the website once agreed. Information to wider stakeholders and further information was available through the website, newsletters and policy notes.

Board Members introduced themselves and were asked to provide short biographies for shared information.

Jonas Moberg asked that Board Members respond to invites to attend Board meetings and to contribute to the agenda. He recommended that members read the Articles of Association and the Guide to Governance. In response to a request, he offered previous Board papers to be sent out on request. The Secretariat committed to create a password-protected intranet, at which circulars and other Board-related materials would be made available.

The Board discussed issues of name attribution, paper circulation, allowing observers, and recusal of individual board members from discussions of issues where they have a conflict of interest. Recognising the sensitivities, the Board agreed to allow the Secretariat to make judgements about what to include in draft board minutes but advising that it should seek maximum transparency. It was noted that these issues had thus far not created any significant tensions within the EITI.

Action

The Secretariat to invite Board Members to send in short biographies for public information.

The Secretariat to create a password protected intranet and make circulars and other materials available on this site.

Conference Reflections

In discussion, Board Members described the Conference as a milestone with the establishment of EITI Association, the first Compliant Country, more countries committed to implementation, the first OECD country to implement, and the commitment of the Government of Japan to support the initiative. The Chair and Secretariat were widely praised for having organised a successful Conference, especially with such few resources. Board members also expressed considerable gratitude for the generosity of the Government of Qatar for hosting the event.
However, some concerns were expressed:

- The misbalance of contributors to the Stakeholder Forum, especially that it was regrettable that some civil society was unable to speak due to time constraints;
- The need to encourage more supporters to become implementers to address some credibility issues of the EITI as a global initiative;
- The need to focus on supporting those countries facing difficulties in meeting Validation.

Anthony Richter noted the difficulty of interpreting indicators 12 and 13 on ensuring that company and government reports are based on accounts audited to international standards, since no such international accounting standards existed for government accounts. Anthony noted that this concern came out of the Azerbaijan Validator’s recommendations and noted that the IMF and other experts have already been exchanging ideas on how to clarify these indicators.

The Validation Committee was asked to consider this issue and provide a draft policy note.

There was also some discussion about other areas in which the EITI methodology might be applied. The Revenue Watch Institute circulated a proposal on the coverage of transit payments under EITI. It was agreed to discuss this at a future meeting.

**Action**

The **Validation Committee** to develop a draft Policy Note on indicator 13 on ensuring that government reports are based on government accounts audited to international standards.

**Board Priorities**

Jonas Moberg asked the Board to reaffirm the Board priorities established by the previous Board, and as set out in the EITI Secretariat Workplan and other Board papers, noting that the Board and Secretariat were in the middle of a planning cycle. Specifically, this meant an unparalleled priority on Validation.

The **Board agreed to the existing priorities** but noted that efforts to outreach to new countries should not entirely fall away.

**Appointment of Board Committees**

A list of the Board Committees and nominations so far received was displayed and further volunteers were invited.

**Action**

The **Chairman to appeal to Board members** through the next Board Circular to volunteer to the various Committees in the next few weeks.

**Meetings Diary**

Board Members were reminded of the dates of the next Board meetings:

- 14-15 May – Washington
- 17-18 September - Baku

Shahmar Movsumov encouraged Board Members to inform him as soon as possible if they are planning any outreach activities around the Baku Board.
