## Introduction

The EITI requires effective multi-stakeholder oversight, including a functioning multi-stakeholder group that involves the government, companies, and the full, independent, active and effective participation of civil society.

The key requirements related to multi-stakeholder oversight include: (1.1) government engagement; (1.2) industry engagement; (1.3) civil society engagement, including [EITI Protocol: Participation of civil society](#), and (1.4) the establishment and functioning of a multi-stakeholder group.

The purpose of this template is to collect information from MSG members about the implementation of these provisions. Parts I to IV of this template should be completed and submitted to the International Secretariat by the commencement of Validation.

Part I: MSG oversight addresses Requirement 1.4.b and should be approved by the MSG before submission to the International Secretariat.

Parts II to IV should be completed by each constituency and submitted to the International Secretariat. These should be shared with the MSG for information.

The Validation team will undertake virtual or in-person consultations to gather additional information. Ahead of the Validation, a public call for stakeholder views will be launched by the International Secretariat.
