Multi-Stakeholder Working Group of the
Mongolia Extractive Industries Transparency Initiative
c/o Mongolia EITI Secretariat
Tuushin Building
Room 512
Ulaanbaatar 210620a
Mongolia

29 April 2011

Hart Nurse Limited and Ulaanbaatar Audit Corporation have been appointed by the Mongolia Extractive Industries Transparency Initiative Secretariat to undertake the 4th EITI Reconciliation for Mongolia for 2009 and to prepare a Report on this Reconciliation ("Engagement") and conducted the contract.

The Engagement was undertaken in accordance with the International Standard on Related Services applicable to agreed-upon procedures engagements. The procedures performed were those set out in the Terms of Reference appended to this report, except where stated otherwise in this report including its appendices.

We report our findings in the accompanying report including its appendices. Because the procedures were not designed to constitute an audit or review made in accordance with International Standards on Auditing or International Standards on Review Engagements, we do not express any assurance on the transactions beyond the explicit statements set out in this report. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Our report is for the purpose of informing the Multi-Stakeholder Working Group and National Council on the matters set out in the terms of reference and it is also purposed to those who are interested in extractive industries.

This report relates only to the subject matter specifically set out herein and does not extend to any financial statements of any entity taken as a whole.

1. INTRODUCTION

This is the report under the Mongolia 4th EITI Reconciliation for the year 2009.

Mongolia was designated as an EITI compliant country by the EITI Board on 19th October 2010, so this is the first report produced for Mongolia in its status as a compliant country.

Our report is for the purpose of informing the Multi-Stakeholder Working Group and National Council on the matters set out in the terms of reference and it is also purposed to those who are interested in extractive industries.

The report comprises: Volume I - Report
 Volume II – Appendices

1.1. Objective

The objective of the Engagement is to ensure, in compliance with the procedures set out by the international EITI Secretariat, the transparency and credibility of the payments and receipts between government and companies in the mining and oil sectors in Mongolia. To this end, the Engagement entails an analysis and reconciliation of material payments and receipts made in the fiscal year 2009 in the mining and oil sectors.

1.2. Participants in the EITI Reconciliation

Templates for information from central government departments were provided by the Ministry of Finance. The central government departments participating in the 2009 EITI reconciliation are:-

- Ministry of Finance
- Tax Authority
- Ministry of Environment and Tourism
- Mineral Resources Authority
- Petroleum Authority
- Customs Office
- Labour and Social Welfare Service Agency and
- State Property Committee.

In addition, governors of capital, aimags, districts and soums have provided information. A full list of the Covered Entities is included at Appendix N.

101 companies making covered payments in excess of MNT 50 million have been included in the exercise.

A full list of the Covered Companies is included at Appendix B.

1.3. Structure of the report

The report contains:-

- a. An Executive Summary
- b. A brief overview of the extractive sector in Mongolia
- c. Our approach to undertaking the Engagement
- d. An aggregation of the flows (payments and receipts) reported
 - i. Initially to the MEITIS
 - ii. After excluding items not included in the scope of the exercise
 - iii. After reconciliation of the initial differences, to the extent this was possible based upon the information and explanations provided by Covered Entities
- e. Unresolved differences, with information about the type of receipt/payment involved and the Covered Entities whose reported figures remain unreconciled.
- f. A summary of issues arising during the Engagement
- g. Recommendations for improvements in transparency and EITI processes

Full details of initial differences, adjustments made and unresolved differences, analysed by company and by type of financial flow, are contained in Appendices, together with other supporting information.

1.4. Acknowledgement

The Consultants would like to express our sincere thanks to team of the MEITIS, Mr. Tsolmon Sh, and Mrs. Delgermaa.B., for supporting and assisting us with organisation of meetings with major officials from the government and its various organizations and agencies, as well as with mining companies; and for sending and receiving official confirmation letters to/from these parties.

Also to Mrs. Dolgor B., Head of Working Group and Senior Adviser of Prime Minister, and Mr. Sumya E., Secretary of Working Group and Principal Officer of the Government of Mongolia for assisting in receiving replies timely and efficiently from the administrations of locals and government entities.

In particular, who have been instrumental assisting us in receiving timely replies from the government and local governments.

2. EXECUTIVE SUMMARY

In this section, we summarise the main findings from the exercise to reconcile the receipts declared by the government from extractive companies included in the 2009 EITI reconciliation with the payments to government reported by those companies.

2.1. Overall summary

The receipts reported by government for the financial flows, after adjustments made during the course of the reconciliation, included in the 2009 Reconciliation are shown in the table below.

	<u>Mining</u> MNT 000	<u>Oil</u> MNT 000	<u>Total</u> MNT 000
Taxes	299,058,951	1,589,071	300,648,022
Fees	137,643,949	624,051	138,268,000
Charges and Service Charges	11,234,176	10,469	11,244,645
Dividends on state and local property	104,095,313	-	104,095,313
Other payments to recipient government	144,200,000	25,328,159	169,528,159
Donations to governmental organisations	6,670,862	131,725	6,802,587
Costs disbursed for the protection of the environment	6,839,741	98,437	6,938,178
Total	709,742,992	27,781,911	737,524,903

Certain flows were paid and reported in US dollars. They have been included in the table above at the average exchange rate for 2009 as reported by Central Bank of Mongolia.

The number of companies for which figures were reported by government and by companies in 2009 is shown in the table which follows. Comparative figures for 2008 are also shown.

	<u>Mining</u>	<u>Oil</u>	<u>Total</u>
As reported by			
2009			
Government	<u>95</u>	<u>2</u>	<u>97</u>
Companies	<u>74</u>	<u>2</u>	<u>76</u>
2008			
Government	<u>45</u>	<u>1</u>	<u>46</u>
Companies	<u>35</u>	<u>1</u>	<u>36</u>

2.2. Summary of financial flows

The table below shows:

- i. The aggregate flows reported by Reporting Entities initially, and the differences between receipts reported by government and payments reported by companies
- ii. Adjustments made as a result of our reconciliation work
- iii. The adjusted aggregate flows and the differences which could not be resolved:

All companies								
Taxes, fees, charges paid from companies to local government	Initial		Initial differences MNT 000*	Adjustment		Adjusted		Unresolved differences MNT 000
	Government	Company		Government	Company	Government	Company	
	Taxes	299,868,830		299,176,914	691,916	779,192	1,471,108	
Fees	137,864,995	137,842,368	22,627	403,004	427,611	138,267,999	138,269,979	(1,980)
Charges and Service Charges	10,015,277	9,608,983	406,294	1,229,368	1,637,783	11,244,645	11,246,766	(2,121)
Dividends on state and local property	9,035,833	104,217,578	(95,181,745)	95,059,481	(122,264)	104,095,313	104,095,313	-
Other payments to recipient government	-	171,024,055	(171,024,055)	169,528,159	(1,495,896)	169,528,159	169,528,159	-
Donations to governmental organisations	3,852,268	5,616,326	(1,764,058)	2,950,319	1,208,020	6,802,587	6,824,346	(21,759)
Costs disbursed for the protection of the environment	7,577,228	6,235,945	1,341,284	(639,051)	734,534	6,938,178	6,970,478	(32,301)
Total	468,214,430	733,722,168	(265,507,738)	269,310,472	3,860,895	737,524,903	737,583,063	(58,161)

*Receipts reported by Government entities exceed (under) the corresponding payments reported by companies.

Below shows, in Schedule 1 and 2, separately as per mining and oil companies. As follows:

Schedule 1

Mining companies								
Taxes, fees, charges paid from companies to local government	Initial		Initial differences MNT 000	Adjustment		Adjusted		Unresolved differences MNT 000
	Government	Company		Government	Company	Government	Company	
	Taxes	298,279,759		298,665,967	(385,736)	779,192	392,984	
Fees	137,820,551	132,916,486	4,904,065	(176,602)	4,730,113	137,643,949	137,646,599	(2,650)
Charges and Service Charges	10,004,808	9,376,584	628,224	1,229,368	1,859,713	11,234,176	11,236,297	(2,121)
Dividends on state and local property	9,035,833	104,217,578	(95,181,745)	95,059,481	(122,264)	104,095,313	104,095,313	-
Other payments to recipient government	-	143,422,000	(143,422,000)	144,200,000	778,000	144,200,000	144,200,000	-
Donations to governmental organisations	3,842,268	5,456,879	(1,614,612)	2,828,595	1,235,742	6,670,862	6,692,621	(21,759)
Costs disbursed for the protection of the environment	7,362,281	6,074,147	1,288,134	(522,541)	797,894	6,839,741	6,872,041	(32,301)
Total	466,345,499	700,129,640	(233,783,669)	243,397,492	9,672,182	709,742,992	709,801,822	(58,831)

Schedule 2

Oil companies								
Taxes, fees, charges paid from companies to local government	Initial		Initial differences MNT 000	Adjustment		Adjusted		Unresolved differences MNT 000
	Government	Company		Government	Company	Government	Company	
Taxes	1,589,071	510,947	11,045,357	-	1,078,124	1,589,071	1,589,071	-
Fees	44,445	4,925,883	(4,881,438)	579,606	(4,302,502)	624,051	623,381	670
Charges and Service Charges	10,469	232,400	(221,931)	-	(221,931)	10,469	10,469	-
Dividends on state and local property	-	-	-	-	-	-	-	-
Other payments to recipient government	-	27,602,055	(27,602,055)	25,328,159	(2,273,896)	25,328,159	25,328,159	-
Donations to governmental organisations	10,000	159,447	(149,447)	121,725	(27,722)	131,725	131,725	-
Costs disbursed for the protection of the environment	214,947	161,797	53,150	(116,510)	(63,360)	98,437	98,437	-
Total	1,868,931	33,592,528	(21,756,364)	25,912,980	(5,811,287)	27,781,911	27,781,241	670

2.3. Receipts

The Working Group has determined which government receipts are material for the 2009 reconciliation and included them in the templates circulated to Reporting Entities for completion. Our work has been carried out within this approved definition.

The Information about government receipts provided by the Ministry of Finance omitted substantial payments from oil companies, which resulted in six companies being incorrectly omitted from the 2009 Reconciliation.

In addition, the overall scope of the reconciliation requires review for the future because certain receipts which might be considered material have been omitted, and more generally the flows which are to be captured under EITI reporting in Mongolia need to be further considered.

2.4. Oil sector

2.4.1 Receipts / payments omitted

Information provided by PAM revealed that signature bonuses, training bonuses and deposits for field exploration amounting to more than MNT 50 million per company had been paid in 2009 by companies which signed Production Sharing Contracts (PSCs) in 2009, as follows:

Company	Signature bonus	Training Bonus	Pledge for field licence	Signature bonus	Training Bonus	Pledge for field licence
	US \$	US \$	US \$	MNT 000	MNT 000	MNT 000
Petrochina		220,445	256,090		315,666	366,708
Dong Sheng		60,000	53,210		85,917	76,194
Zhong Chen Utian*	120,000	70,000		171,834	100,237	
Central Asian Petroleum*	140,000	150,000	71,041	200,473	214,793	101,727
Petro Matad*		25,000	28,500		35,799	40,811
				372,307	350,828	142,538
DWM Petroleum AG*	200,000	120,000	20,321	286,390	171,834	29,099
NPI*	150,000	75,000	9,861	214,793	107,396	14,120
MCS*	100,000	75,000	31,430	143,195	107,396	45,006
Total	710,000	795,445	470,453	1,016,685	1,139,037	673,665
Converted at US\$1 = MNT	1,432					

Six of these companies (marked * above) were not included on the EITI template #4. As a result, the companies had not been asked to confirm these payments. Receipts by government on template #4 for Petro china and Dong Sheng Petroleum (Mongolia) LLC did not include these payments shown above.

The payments are made in US dollars and are shown above both in the currency of payment and expressed as MNT.

2.4.2 Reasons given for omissions

PAM informed us that information on the taxes, other payments, fees and charges, paid in accordance of the Product Sharing Agreement, received from Petro china and Dongsheng was sent to MTA.

Information on other companies making signature bonuses, training incentives and area payments was not sent because the companies were in exploration not production and because there is no legal requirement for the oil companies to comply with EITI.

In clarification of this condition, we were explained that PAM did not submit the report on time, another word, after reconciliation of MOF. There was no enough time to include the PAM information.

2.4.3 Commentary

In previous years, there have only been two oil companies in production, and they were included in the EITI reconciliations for those years.

These two companies were again reported in the government figures for 2009, although the signature bonuses and other payments which become due following conclusion of a production sharing contract were reported late by PAM, and then only in respect of the two companies included in previous reconciliations. They were not included in the government figures for 2009.

Other oil companies making such payments were not reported by PAM, even though the payments were above the materiality limit set by the EITI National Council. There appears to have been no process at MOF to ensure that appropriate government receipts were included in the government templates, in that the omission of these payments due under PSCs (a line on the EITI template) was not identified.

The process of collection of government data, and of appropriate checking for completeness of data, requires review in the light of the omission of material payments for these oil companies.

2.5. Mining sector

2.5.1 Receipts / payments omitted

- i. Erdenet reported a dividend paid to government of MNT 95 million; however the government figures did not include receipt of this dividend. Government subsequently confirmed that the dividend had been received. Our commentary in section 2.4.3 above applies in this area.
- ii. "Oyu Tolgoi" LLC reported a payment of MNT 143 million and/or equal to USD100 million made to the government, but no corresponding amount was reported on the government template. The company explained that the payment related to the purchase of a government bond and it had reported the payment as being material. MOF confirmed that the payment had been received but stated that it had not been reported under EITI because it was not government revenue. There has been no agreement with MOF that it should be reported and it therefore remains as an unresolved discrepancy.

The payment is material in that it exceeds the MNT 50 million threshold set by the National Council and has not been excluded from disclosure on the template line "Other payments to recipient government – other" under the instructions issued with the templates.

It is also material in our view under the EITI definition of a material payment, issued from 7th NC Meeting, which states “A revenue stream is material if its omission or misstatement could materially affect the final EITI Report”. Since government accounts on a cash basis, it seems that cash receipts from the extractive industry, including the payment from Oyu Tolgoi, should be treated as government revenue and that omission of this receipt, which has been widely discussed in public media, would affect the final EITI report.

Eventually, the discrepancy was resolved after our raising to the Working Group Meeting of 29 April 2011.

- iii. *Subcontractors* - A number of mining companies use contractors to carry out parts of their operations, both at the exploration stage and also during exploitation of deposits. In Mongolia, examples of such contractors include Leighton Mining and Infrastructure Mongolia, a wholly owned subsidiary of the Australian company Leighton Holdings, which has contracts at Khushuut Coal Mine of “MONENCO” LLC, Ulaan Ovoo Coal Mine of “Redhill Mongolia” LLC and Ukhaakhudag (UHG) Coal Mine of “Energy Resource” LLC. Another example is underground contractor Redpath from Canada, which is undertaking work for “Oyu Tolgoi” LLC and as well as its project “Oyu Tolgoi” LLC.

Such contractors carry out operations which, if they were carried out by the mining company holding the licence, would result in payments of taxes and charges to the government reported by the mining company itself under EITI. However, the mining contractors are not included in the EITI reconciliation and any payments they make for taxes, etc are not reported in the EITI reconciliation.

This appears to understate receipts by government from the mining sector and requires review by the Working Group and National Council to determine whether there are material receipts by government from the mining sector which are not being included in EITI reporting.

2.5.2 Payments

During the course of examining differences between reported government and company receipts, we have observed some areas where there are weaknesses in the operation of the systems surrounding these flows. These are described in our report and we make recommendations in a number of cases. There are two areas in particular which require attention.

2.5.3 Costs disbursed for the protection of the environment

Each year, companies are required by law to pay into special bank accounts held by government (state and aimag) amounts relating to expenditure which they are budgeting to incur in respect of costs for protection of the environment. The companies are entitled to reclaim this money from government subsequently upon production of evidence that they have actually incurred expenditure relating to environmental protection.

Many companies have not reclaimed amounts paid in and as a result, the balance on the state government bank account amounted to MNT1,438.6 million.

Communication between government departments needs improvement, because companies report information on environmental expenditure to different government agencies, but the figures reported by those agencies do not agree.

It is recommended that the reporting of expenditure by companies to government, and within government, is examined and that the utilisation of the funds in the designated bank account is examined.

2.5.4 Donations

The donations reported by companies did not represent, in many cases, payments to government; rather, they were costs which the company incurred voluntarily and has designated as being for the benefit of the community (e.g. construction of a road).

We recommend that costs not paid to government should be excluded from the EITI template and reconciliation and shown under Section 2 of the EITI template. We further recommend that in kind donations should be identified separately on the reporting templates

2.6. Participation by government and companies

We sent official letters to total of 290 organisations and received replies to clarify the information in relation to Report EITI 2009.

Ministries and Agencies	23
Budget Organisations	26
Aimags	20
Soums	120
Companies	102
Total	290

The TOR details required references of all participating companies and Government entities, how they were transparent, how communication was run, and attach summary of openness of all participants to this Report. Therefore, we evaluated the 101 companies and Government institutions using above criteria.

Companies' participation was as follows:

- Very satisfactory – 12 , Satisfactory– 35, Average – 38, Inadequate – 8 and Very inadequate- 8.

The summary of openness of the companies is shown on Appendix L., and activeness of the accompanies is mentioned in Section 7.14 of this report.

Government entities' participation was evaluated as follows:

- Satisfactory – 4, Average – 2, and Inadequate – 2.

The government entities like MOF, SPC and others were evaluated "Average" due to the following reasons:

- As per Ordinance #80 of government of year 2007, SPC should have issue reconciliation report yearly basis, however, it does not till today.
- MOF is approaches sluggish to review the reconciliation and reply to clarification during the reconciliation.

The government entities like Environmental Reserve Agency of MMRE, MRAM and others were evaluated "Inadequate" due to the followings reasons:

- Environmental Reserve Agency of MMRE replied to our official letter on 8 April 2011 while it was send on 17 February 2011,
- Discrepancies relating to environmental protection occurs from year to year, Environmental Reserve Agency of MMRE does not take any action not to cause the discrepancies by innovating possible ways or receiving correct amounts from the companies in relation to the prepared financial statements,
- One reason of yearly discrepancies is expressing the license fee for use of mining and exploration special licenses USD, since there is row in the template which is not appropriate. MRAM does not comply with law "Transacting all payments in national currency" approved in year 2009, and indication of "Law on Minerals of Mongolia" that stipulates that fee for use of minerals resource is received in USD, however, should be converted using Bank of Mongolia rates of the date and
- Incomplete registrar of sale, purchase and transfer of license cause discrepancies too.

Covered entities openness is shown in Appendix M.

2.7. Auditing and Financial Standards

- i. EITI requires that information submitted to the Reconciler should be based on accounts audited to international standards.

As part of a survey about company accounting, we asked companies to confirm that their accounts contained an audit report which stated that the audit was carried out using international standards on auditing. We have received reply only from 31 companies, shown on Appendix J.

We also requested each company to confirm in a letter from its Board of Directors that the data submitted for the EITI reconciliation was drawn from accounts audited to international standards.

- ii. We conducted a survey of the use of IFRS in company accounts. The results of this survey are set out below.

IAS 12 Income Taxes. Deferred taxes are not applied in preparation of financial statements.

23 of the 31 companies which replied said that they do not reflect deferred tax in their accounting records. Deferred taxes are a new concept for Mongolia. Deferred taxes are not understood by many and are thus not applied in preparation of financial statements.

However, the Companies should follow up “Rules for regulating differences between items at Financial and Corporate income tax statement and its reporting template” which is confirmed on Resolution #121 issued by Ministry of Finance dated on May 25, 2010. It is aimed at to implement the standard, to provide guidance on recording temporary and permanent differences arisen between income before tax reported at financial statement and tax profit reported at Corporate Income Tax Statement and to satisfy relationship between the statements, and to assist for determining the deferred tax amount for the reporting period. Also MTA changed corporate income tax statement template which shall be submitted starting from 1st quarter of 2011, and the differences will be reported more detail on it.

IAS 37, Provisions and Contingent liabilities and Contingent assets

The survey showed that all companies are not making provision for restoration. The “Rules for accounting records of Mineral Resources’ exploration and exploiting expenses” contained in Resolution #12 issued by the Ministry of Finance (Jan 26th, 2011) in relation to implementation of IAS 37 Provisions and Contingent liabilities and Contingent assets require that a provision for restoration and should be established in order to restore the site to its original condition.

IAS 16, Property, Plant and Equipment – Fair Value.

Companies that choose to revalue their fixed assets are governed by IAS 16, paragraph 34, which states that fixed assets should be revalued every three to five years. Companies tend not to revalue their assets even though impairment may seem likely due to the condition of the fixed asset.

IAS 24, Related Party Transactions.

Companies do not track or disclose related party transactions sufficiently.

3. OVERVIEW OF EXTRACTIVE SECTOR IN MONGOLIA

Mongolia has rich natural resources, principally gold, copper, coal, and rare earth minerals. The country’s gold and copper reserves are believed to be among the largest in the world.

Today the mining sector of Mongolia generates s of the total export income of Mongolia and provides almost 42 thousand people (4% of the total working capital) with working places.

The contribution of the extractive industries sector to the economy is as follows:

	Year 2004	Year 2005	Year 2006	Year 2007	Year 2008	Year 2009
Gross domestic production /GDP/	17.3%	18,0%	30.0%	27,5 %	28.2%	22.5%
Industrial production	64.7%	65,5%	68,4%	67.8%	64.3%	65.9
Export production	70.80%	75.8%	76,0%	68,8%	80.7%	84.6%

Source: Mongolian Statistical Office

In addition to mining, oil exploration activities are also being undertaken, with some production now starting (see below).

A. Minerals

Mongolia produces gold, copper, coal, fluorspar, zinc, iron ore, tungsten, and exports nearly all its produced copper concentrate, molybdenum, coal and zinc to China, fluorspar to Russia, the United States, Ukraine, gold to Canada, the United States, United Kingdom, and China.

The Ministry Resources Authority of Mongolia (MRAM) publishes the following summaries of resource availability and exploitation:

Natural Resources of Mongolia

Natural resources	Number of deposits
Gold	511
Copper	6
Molybdenum	3
Lead	4
Zinc	4
Tin	12
Tungsten	17
Iron	29
Coal	85
Fluorite	83
Limestone	48
Clay	81
Sand and gravel	84
Sand for construction materials	53

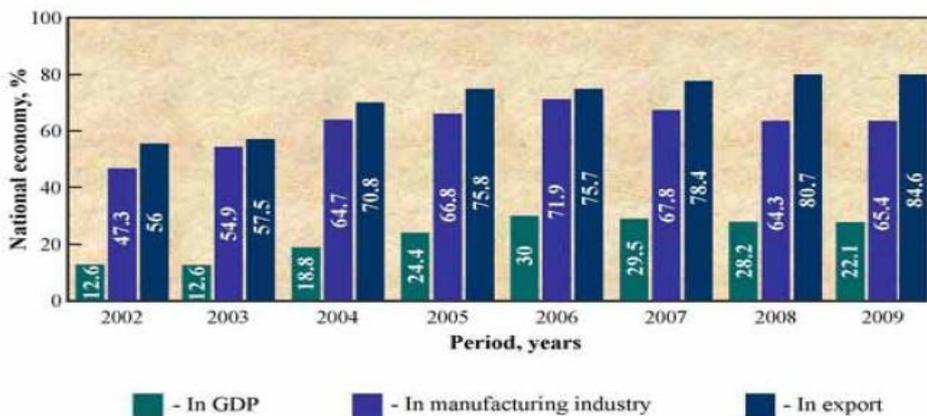

The Mining Production by Commodity

Commodity	[thousand tons]					
	2004	2005	2006	2007	2008	2009
Fluorite	206.7	233.4	239.4	245	219.1	344.2
Fluorite concentrate	102.7	93.7	108.3	109.9	115.7	115.3
Copper in concentrate	130	126.3	129.7	130.2	126.8	129.8
Molybdenum in concentrate	1.14	1.15	1.41	1.98	1.78	2.41
Tin concentrate /50 %/	0.022	0.047		0.03	0.09	0.015
Tungsten concentrate /68 %/	0.077	0.078	0.182	0.244	0.142	0.039
Coal	6665	7517.1	8074.1	9237.6	9691.6	13164
Gold	0.019	0.022	0.021	0.018	0.015	0.001
Cathode copper	2.38	2.48	2.62	3.01	2.59	2.47
Iron ore	33.5	167.7	180	265.1	1387.4	1379.0
Zinc concentrate /wet/		22.8	109.9	154.7	143.6	156.5
Cast copper		0.20	0.22			
Molybdenum oxide			0.16	2.66	2.11	0.157

In 2008, about 75% of Mongolia’s total export revenue was derived from mineral commodities. Of that percentage, copper accounted for 33%; gold, 24%; coal, 7%; petroleum, 4%; and zinc, 6%. Mongolia received 66% of its total export revenue from China, followed by Europe, 17%; the United States and Canada, 11%; Russia, 3%; and the remainder, from other countries (Mineral Resources Authority of Mongolia, 2009; World Bank, 2009b).

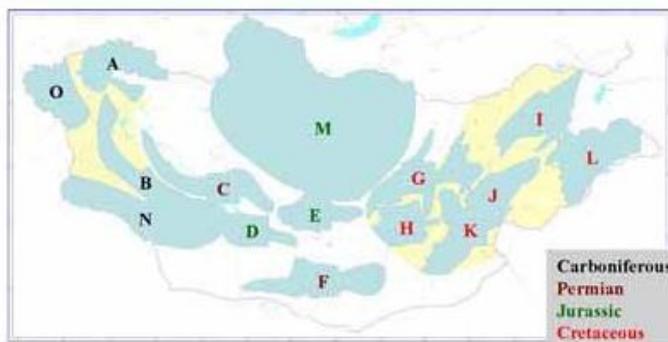

MRAM also summarises the financial contribution of the sector to the national economy:

The Role of Mining Sector in the National Economy

B. Coal

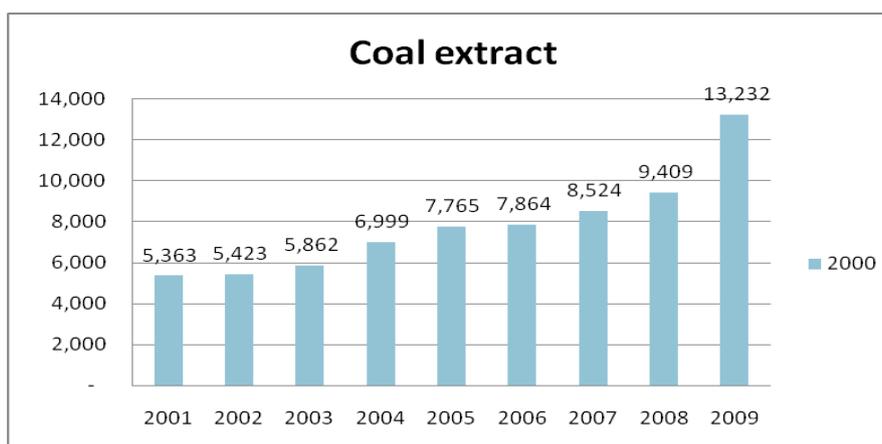

Coal deposits are largest in the east but are spread throughout the country:-

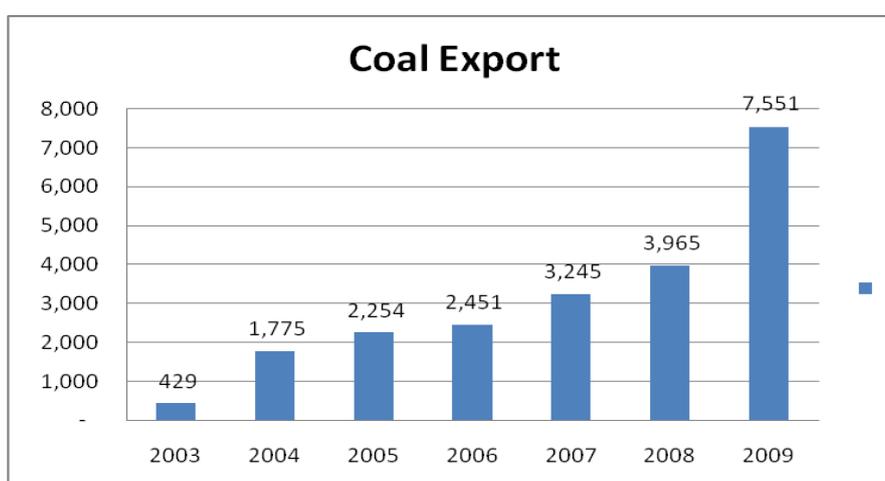

- | | | | | |
|------------------|---------------|-----------------|----------------|--------------------|
| A: Kharkhira | D: Ikh Bogd | G: Choir-Nyalga | J: Sukhe-Bator | M: Orkhon-Selenge |
| B: Mongol Altay | E: Ongiyngol | H: Middle Govi | K: East Govi | N: Altay-Chandmani |
| C: South Khangay | F: South Govi | I: Choybalsan | L: Tamsag | O: Bayan-Ulgii |

Mongolia is one of the prominent countries having large resources of coal in the world and the geological reserves reach about 162.3 billion tons in various coal quality ranks from lignite to anthracite. Approximately 300 coal deposits and occurrences are known.

Production has increased over recent years, and with domestic consumption remaining relatively static, exports – primarily to China – have increased significantly.

(information from MRAM website)

C. Oil

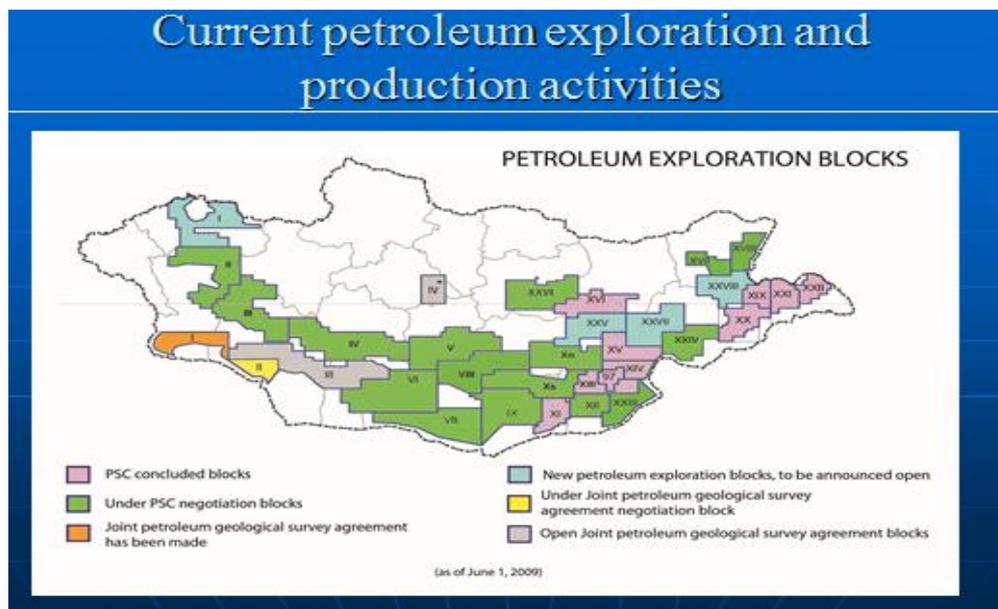

Mongolia’s sedimentary basins were divided into 25 exploration blocks for international bidding, and the Petroleum Authority of Mongolia was working to add four more. Exploration blocks were located mostly in the southern half of the country in central, eastern, and western Mongolia. The East Gobi sedimentary basin encompassed four petroleum sub-basins in east-central Mongolia.

The Zuun Bayan basin was discovered in 1941 when there was intensive exploration and extraction. The Tamsag basin was discovered in eastern Mongolia in the 1990s and a 2001 Chinese National Oil Corp. survey of the basin estimated its reserves to be 1.5 billion bbl. In recent years, other fields have been explored and exploited, including the Tsagaan Els basin and some basins in western Mongolia. Exploration activities from 1994 to 2008 included 17,600 km of two-dimensional seismic work, 6,000 km of three-dimensional seismic work, the drilling of 448 wells, and foreign direct investment of \$952 million¹.

In 2008, petroleum exploration and production activities were being conducted by one Canadian company (Shaman Resources, LLC); three Chinese companies (Petro China Daching Tamsag-Mongolia LLC, Dong Sheng Petroleum LLC, and China Golden Sea, LLC); and one Mongolian company (Petro Matad LLC).

¹ Prost, 2004; Amarsaihan, 2009; Petroleum Authority of Mongolia, 2009

The Toson-Uul and PSC-97 Blocks were production blocks with 50 and 31 producing wells, respectively. The Toson-Uul Block produced 3,800 bbl/day and the PSC-97 Block produced 1,800 bbl/day, and together, the blocks have produced, cumulatively, about 3.4 Mbbbl (of which 3.1 Mbbbl was exported because the country does not have a refinery to process the petroleum). The country reported that, by 2010, Petro China Daching Tamsag-Mongolia would produce about 3 million barrels per year (Mbbbl/yr) and that, by 2015, that number would reach 11.3 Mbbbl/yr².

4. APPROACH

4.1. Scope of the reconciliation

Hart Group LTD and Ulaanbaatar Audit Corporation LLC (“the Consultants”) were required to undertake the work set out in the Terms of Reference for the Engagement.

4.2. Restrictions/Concept of the work

Unless noted in our report, the reconciliation has been carried out on a cash accounting basis, with both cash and in-kind payments taken into account. If there are material receipts or payments omitted from the reporting templates, our work would not be sufficient to detect them. Any such receipts or payments which were omitted would not therefore be included in our report.

In conducting our work, we have relied upon the information and explanations obtained from Covered Entities. No representation is made as to the accuracy or completeness of such information.

This report is prepared both in English and Mongolian language. If there should be any differences or contradictions between the English version and the Mongolian version, the English version will prevail.

² Amarsaihan, 2009; Petroleum Authority of Mongolia, 2009

Our report incorporates information received up to 8th June 2011, which is the deadline set by the MTA following a review of our initial draft report by the Multi-Stakeholder Working Group of MEITI. Any information received after this date is not, therefore, included in our report.

4.3. Significant Basis and materiality

The MOF issued a report for 2009 covering 363 companies operating in the extractive industries sector, showing receipts by the government from these companies under the headings used in the templates approved by the MSWG for use in the 2009 EITI reconciliation. The Government Departments, aimags, soums and other government agencies/organisations included in this exercise are the “Government Entities”.

In year 2009, 129 companies submitted EITI reports, and the government has issued numbers for covering companies summarizing with the above information.

As per resolution of 7th National Council Meeting of MEITI of 24th June 2010, 101 companies were selected to be covered under the reconciliation of year 2009. These companies’s payments to the government reported in excess of MNT50 million for 2009 and these are the “Covered Companies”. They are listed in Appendix B.

The MSWG has issued no guidance on materiality in respect of discrepancies between reported payments and receipts.

Also, as per resolution of 7th National Council Meeting of MEITI of 24th June 2010, it is required to cover all taxes, payments, fees, charges and other payments which are more than MNT10 thousand, a minimum amount of material for reporting purpose, however, this resolution is not applicable for year 2009 reconciliation since it was issued after submission of EITI report of the year. And as per Article 5.8 and 13.1 of “Mongolian law on stamp fee”, a fee for registration and issuance of certificate is MNT10 thousand.

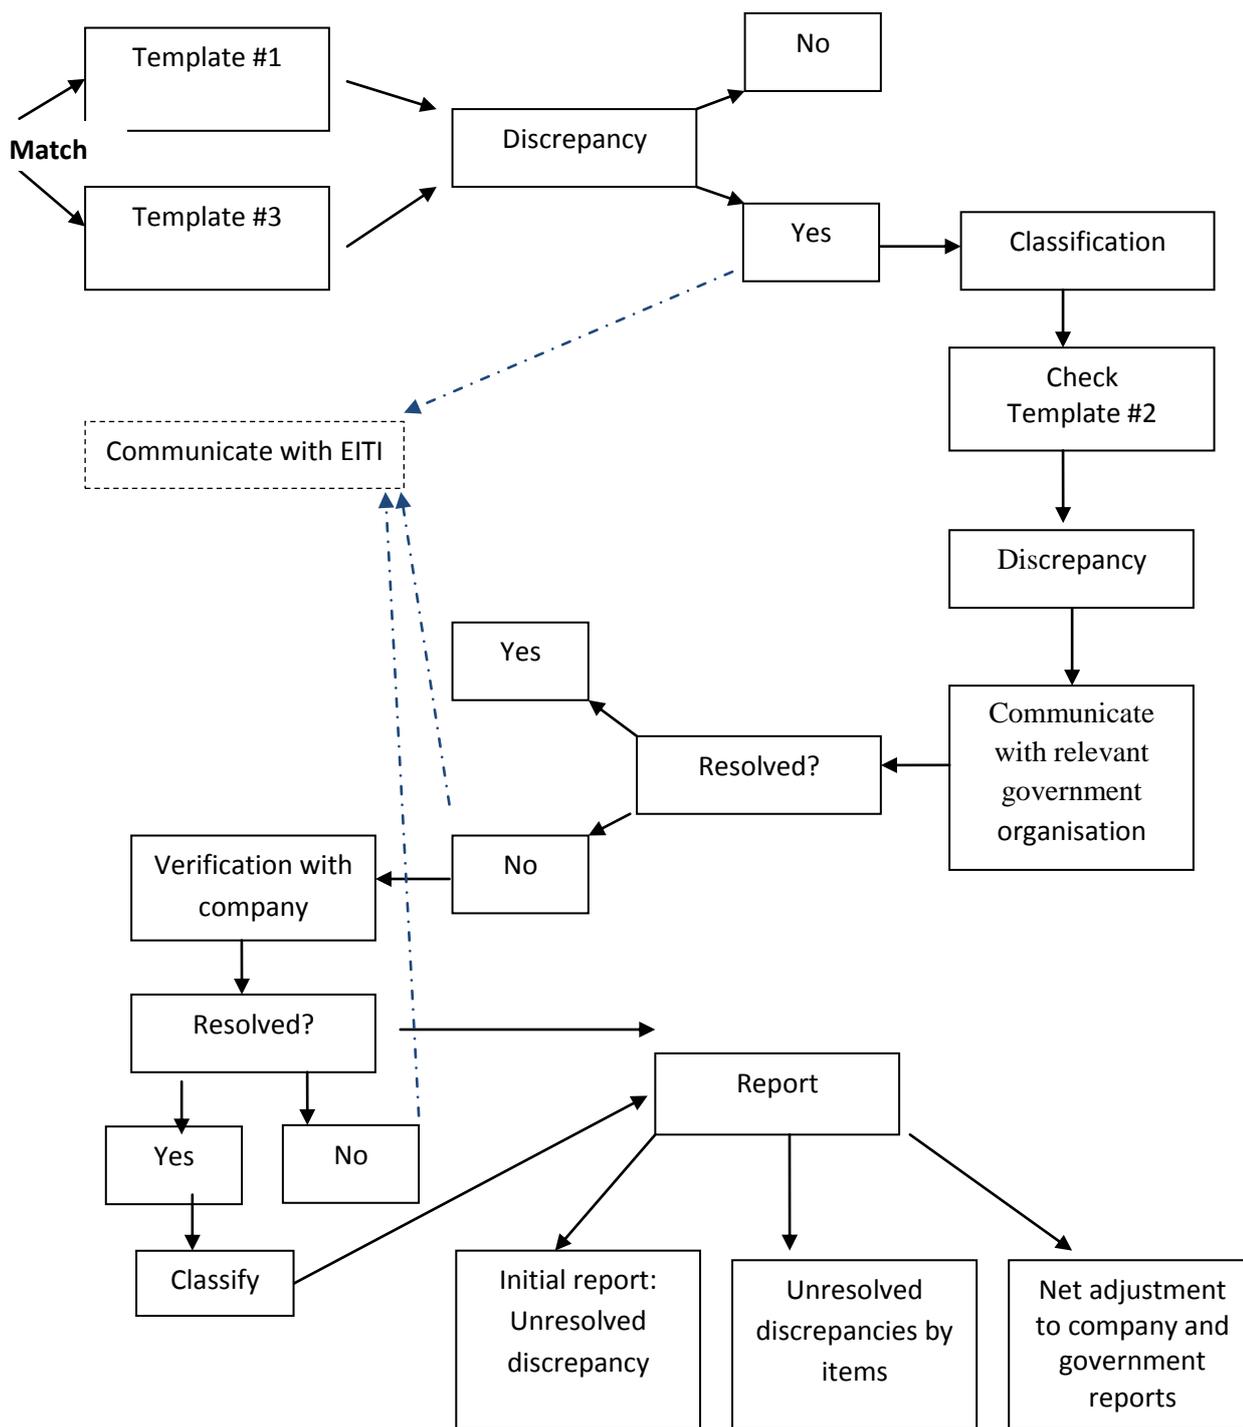

During year 2009 reconciliation, a basis for adjusting the discrepancies which are less than this material amount directly from the report is occurred. Nevertheless, this materiality amount needs to be discussed again for clear segregation and determination of is it for one time payment or for each type of total payment.

4.4. Audit approach and methodology

The approach we have adopted is summarised below:

- Gained a thorough understanding of the EITI procedures established for Mongolia through discussions with the EITI Mongolia Secretariat and review of relevant documents, including in particular the accounting principles and treatments established for the reporting templates and the margin of error that has been established.
- Prepared schedules incorporating the information reported by Covered Entities and adjusted these returns to remove items which were incorrectly included (e.g. tax penalties and fines) or miss-stated (e.g. reported in MNT rather than MNT000 as required) Carried out reconciliation procedures with a view to resolving reported discrepancies.
- Liaised with both Company and Government Departments to resolve discrepancies.
- Explained all the adjustments made during the reconciliation.
- Provided EITI Mongolia with copies of detailed work sheets for each company supporting aggregated figures in report.

4.5. Interrelations of the work flow

4.6. Methodology

Data has been reported by companies on EITI Mongolia Template 1. Upon enquiring, we found that this Template (#1) had not been checked by the Company's auditors. Accordingly, we asked each company to confirm the status of the information by means of a letter addressed to us from its Board of Directors.

Template 1 is divided into 2 sections namely:

Scope 1: Scope 1 consists of 2 main parts and the first part was stated cost of goods and sales amounts both in unit and currency monetary unit of mining companies. The Second part included taxes, fees, Dividends on state and local property, other payments to recipient Government, Donation to Governmental organisations, Costs disbursed for environment protection, paid by foreign and domestic companies to state and local budget, and

Scope 2: Revenues and profit flow (voluntary basis)

Excel spreadsheets were used to match taxes and fees paid by companies to government and local budget recorded for each Indicator on the template supplied by each company (EITI Template 1) with those recorded on each company's consolidated report prepared by government organisations (EITI Templates 2&3).

All discrepancies arising were tabulated and classified as significant and nonsignificant.

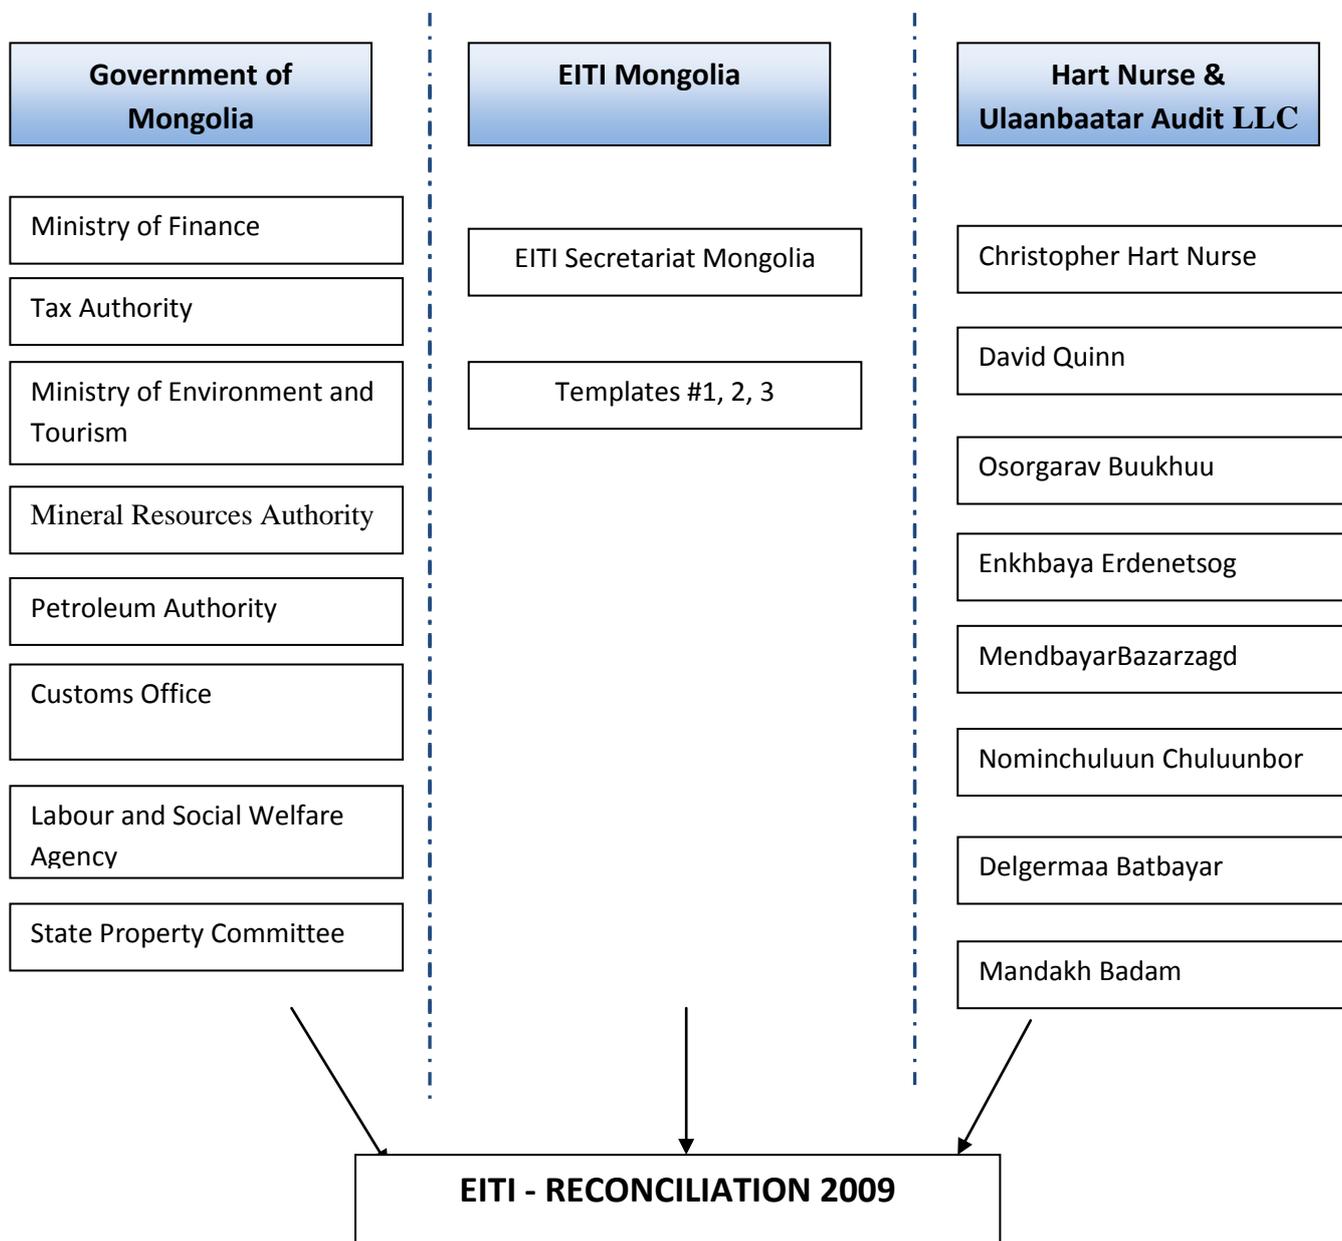

The compilation of the consolidated figure(s) on EITI Template #3 was checked from information provided on EITI Templates #2 by each Government organisation and Taxation authority.

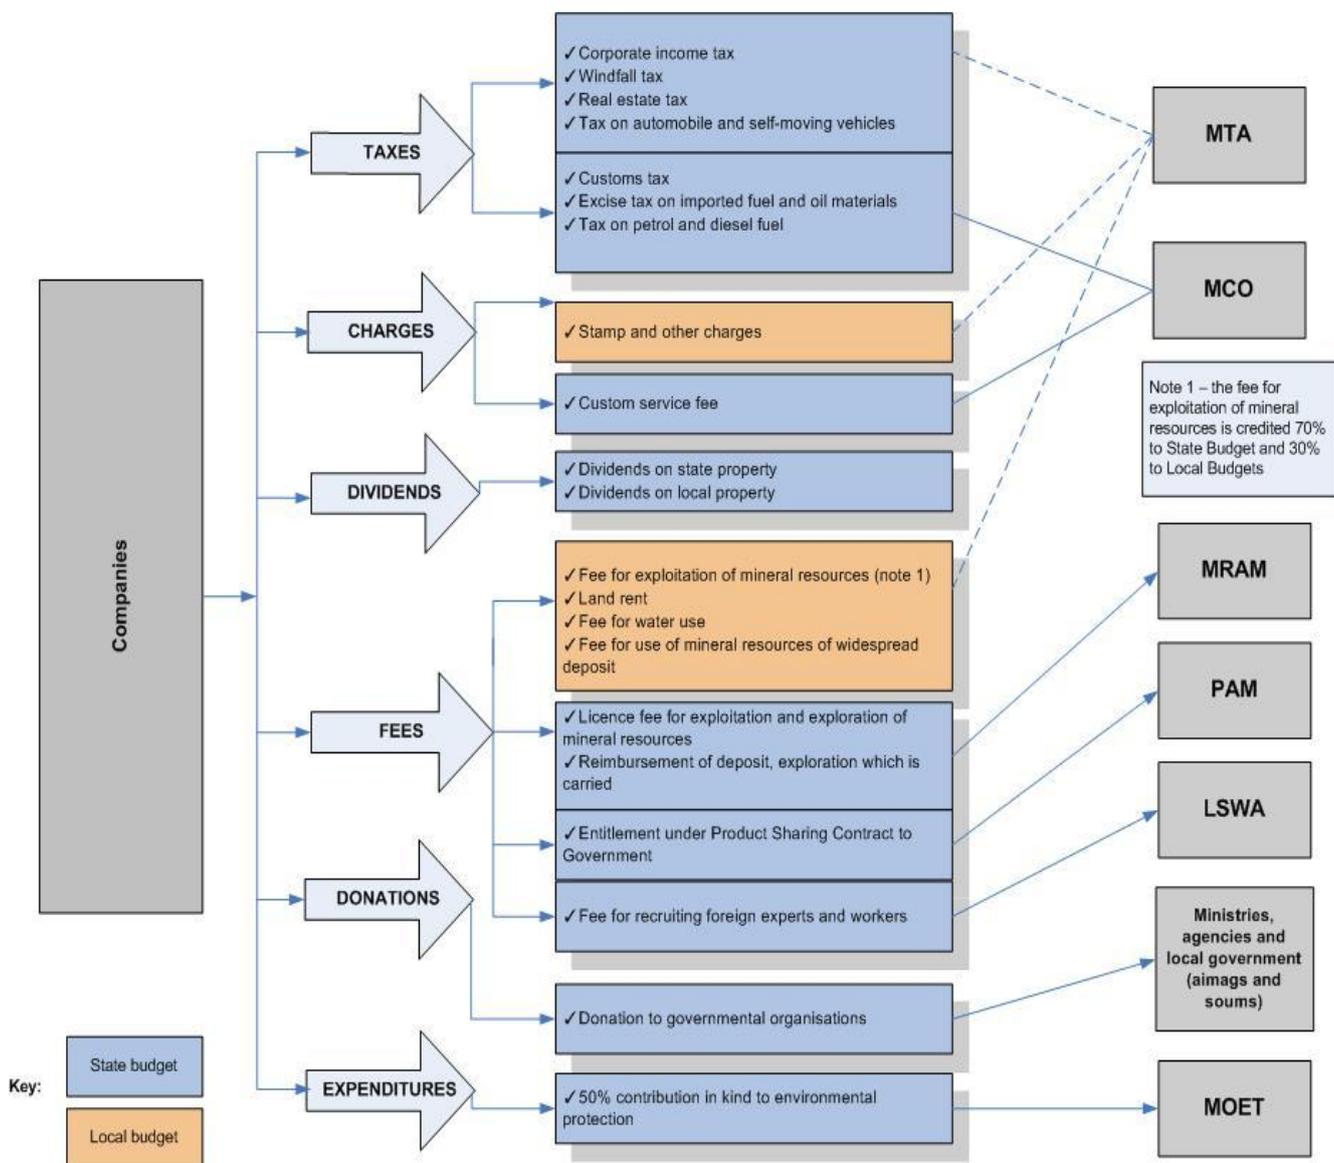

The followings are performed as per each significant discrepancy:

- Detailed reconciliations were requested as necessary from relevant Government Organisations and Taxation Authorities (detailing the dates and amounts of receipts making up the amount disclosed on Template 2) and used to match with reconciliations of payments made by companies in order to identify the details of, and where possible explain, the discrepancy as detailed below,
- After considering the number, size and type (indicator) of the discrepancies that have occurred for a particular company, we:-
 - Reviewed the validity of data contained in MEITIS Template #1. Depending on the nature of the item, this involved checking from source documents, analytical review or independent confirmation.
 - Requested the relevant Company to provide a copy of their reconciliation (workings detailing the payment dates and amounts) supporting the calculation of the payment figures they have included on EITI Template #1.
 - Where this procedure has not satisfactorily explained a discrepancy, we reverted to the review process outlined above.
- Where the process did not resolve the manner in which the discrepancy(s) should be corrected, joint meetings have been held with the company and relevant government organisation to agree a solution.

- Discrepancies identified by the matching process have been classified by type / nature once the reasons for the discrepancy(s) have been identified (or if necessary as unresolved) in order to highlight any common issues which occurred in the preparation of the Templates and the EITI process.

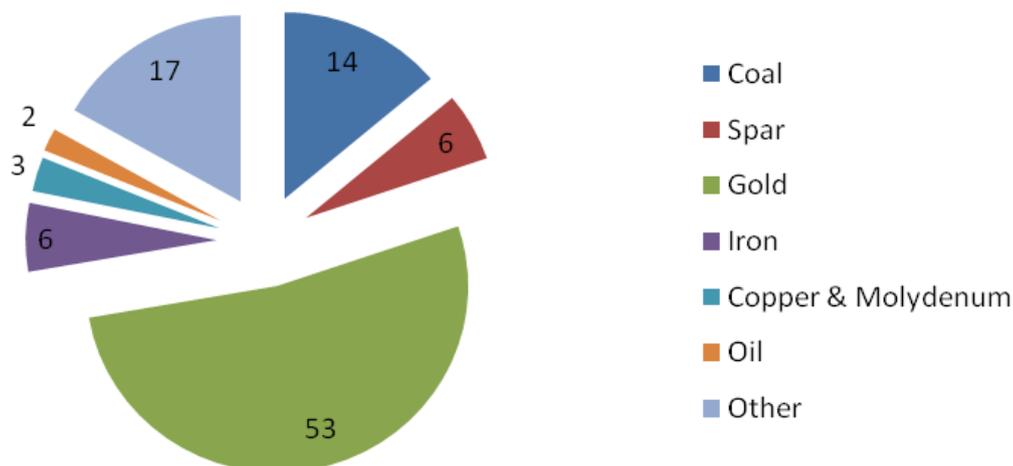

4.7. Stakeholders' participation chart

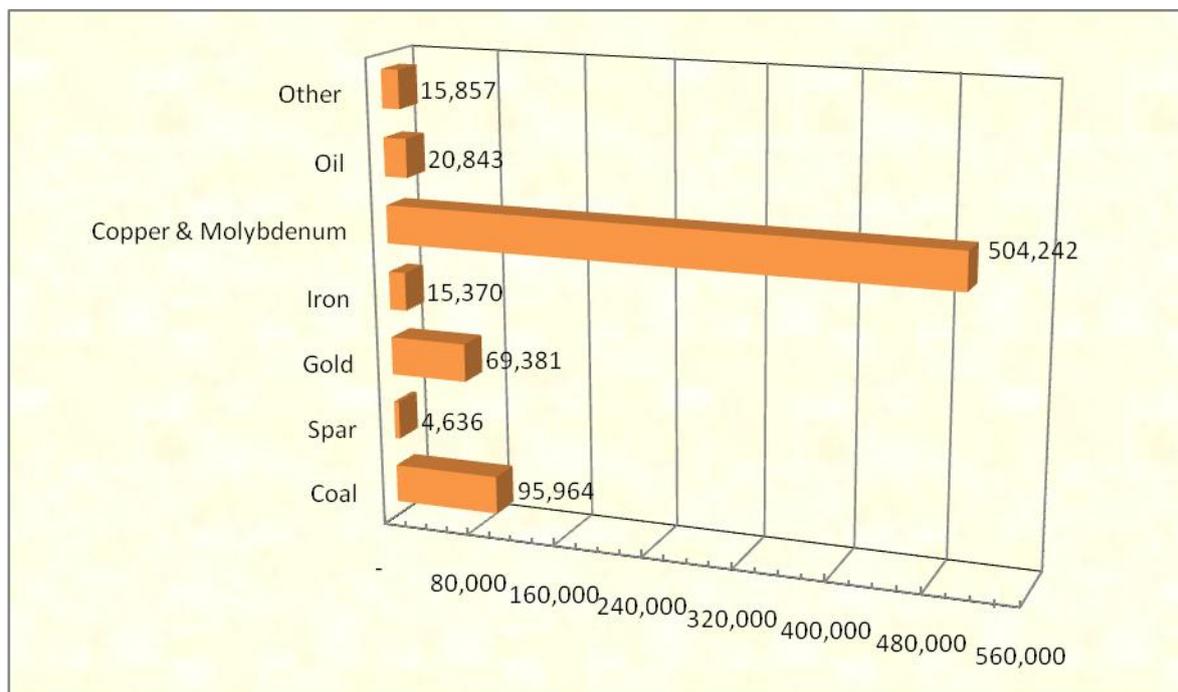

4.8. Covered Companies

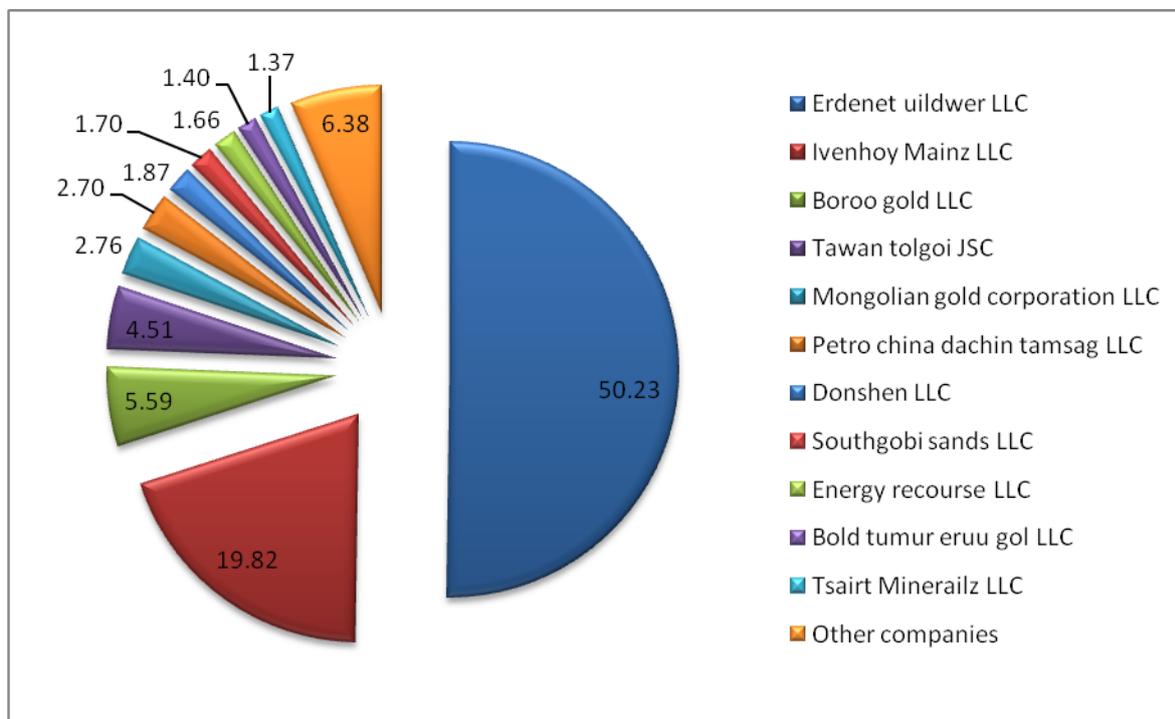

The 101 companies included in EITI Report were classified by their operations and activities as shown below:

The 101 companies' corresponding payments to Government of Mongolia were as follows for the tax year 2009:

Payments were made to Governmental Organisations in 2009 by companies as shown below, expressed as a percentage of the total payments covered under EITI:

From this diagram, it can be seen that Erdenet Mining Corporation LLC is the largest paying company.

5. RECONCILIATION OF FINANCIAL FLOWS

5.1. Aggregated financial flows reported initially

Initial discrepancy of 265,5 billion after initial reconciliation caused by non-recording by the government in its initial report the receipt of payments to receiving state organizations, dividend to state property and selling of payable notes to “Oyutolgoi” LLC.

Section	As reported by		Net Differences
	Government Entities	Companies	
	MNT 000	MNT 000	MNT 000
5.1 Taxes	299,868,830	299,176,914	691,916
5.2 Fees	137,864,995	137,842,368	22,627
5.3 Charge, service charges	10,015,277	9,608,983	406,294
5.4 Dividends on state and local property	9,035,833	104,217,578	(95,181,745)
5.5 Other payments to recipient governments	-	171,024,055	(171,024,055)
5.6 Donations to Governmental organisations	3,852,268	5,616,326	(1,764,058)
5.7 Costs disbursed for protection of the environment	7,577,228	6,235,945	1,341,284
Total	468,214,430	733,722,168	(265,507,738)

The table above shows the net differences resulting from a comparison of the returns from covered entities. Within this net figure, there were differences between reported payments and receipts as follows:

	MNT 000
Payments reported by companies which exceed the corresponding receipts reported by Government Entities	(267,969,859)
Receipts reported by Government Entities which exceed the corresponding payments reported by companies	2,462,121

5.2. Aggregated financial flows after reconciliation and adjustment

In order to resolve the discrepancies after reconciliation and adjustment we sent official letter both to government entities and companies requiring provide with their respective detailed information within 15th April 2011. Replies were received within certain satisfaction, and we made adjustment, decreasing the total initial unresolved discrepancy till MNT**145.9** billion including differently reported amounts of the government and the companies and also included discrepancies due to purchase of payable notes by Oyu tolgoi LLC from the government while it is not reported as receipt by the government. Oyu tolgoi discrepancy covers 25% of total flows reported by the government and considered very much material amount within EITI reconciliation.

Discrepancy of Oyu tolgoi is not adjusted by the reconciler however, it was presented to decision of the MEITI Working Group by showing the aggregated financial flows after reconciliation and adjustment in two variances.

Since the Terms of References requires to provide with recommendation for remained unresolved discrepancies we raised recommendation respectively.

A comparison of returns from Covered Entities as a result of our reconciliation work shows the following:-

Taxes, fees, charges paid from companies to local government	All companies							
	Initial		Initial differences MNT 000*	Adjustment		Adjusted		Unresolved differences MNT 000
	Government	Company		Government	Company	Government	Company	
Taxes	299,868,830	299,176,914	691,916	643,031	1,306,013	300,511,861	300,482,927	28,935
Fees	137,864,995	137,842,368	22,627	(1,198,619)	(368,278)	136,666,376	137,474,090	(807,714)
Charges and Service Charges	10,015,277	9,608,983	406,294	853,290	1,778,884	10,868,567	11,387,867	(519,300)
Dividends on state and local property	9,035,833	104,217,578	(95,181,745)	95,059,481	(122,264)	104,095,313	104,095,313	-
Other payments to recipient government	-	171,024,055	(171,024,055)	18,453,999	(9,148,056)	18,453,999	161,875,999	(143,422,000)
Donations to governmental organisations	3,852,268	5,616,326	(1,764,058)	1,828,212	1,226,834	5,680,480	6,843,159	(1,162,680)
Costs disbursed for the protection of the environment	7,577,228	6,235,945	1,341,284	(1,335,957)	(10,214)	6,241,271	6,225,731	15,540
Total	468,214,430	733,722,168	(265,507,738)	114,303,437	(5,337,082)	582,517,867	728,385,086	(145,867,219)

*Receipts reported by Government entities exceed (under) the corresponding payments reported by companies.

5.3. Aggregated financial flows reported to the MEITI Working Group on 29th April 2011

After the meeting with the MEITI Working Group, the resolution was issued to adjust Oyu tolgoi LLC discrepancy with consideration that there would be such kind of receipts/payment in the future and it needs to be reported in the initiative report. After our adjustment unresolved difference became MNT2.4 billion. Most portion of this discrepancy includes payments, fees, service charges and donations given to government entities.

All companies								
Taxes, fees, charges paid from companies to local government	Initial		Initial differences MNT 000*	Adjustment		Adjusted		Unresolved differences MNT 000
	Government	Company		Government	Company	Government	Company	
Taxes	299,868,830	299,176,914	691,916	643,031	1,306,013	300,511,861	300,482,927	28,935
Fees	137,864,995	137,842,368	22,627	(1,198,619)	(368,278)	136,666,376	137,474,090	(807,714)
Charges and Service Charges	10,015,277	9,608,983	406,294	853,290	1,778,884	10,868,567	11,387,867	(519,300)
Dividends on state and local property	9,035,833	104,217,578	(95,181,745)	95,059,481	(122,264)	104,095,313	104,095,313	-
Other payments to recipient government	-	171,024,055	(171,024,055)	162,653,999	(8,370,056)	162,653,999	162,653,999	-
Donations to governmental organisations	3,852,268	5,616,326	(1,764,058)	1,828,212	1,226,834	5,680,480	6,843,159	(1,162,680)
Costs disbursed for the protection of the environment	7,577,228	6,235,945	1,341,284	(1,335,957)	(10,214)	6,241,271	6,225,731	15,540
Total	468,214,430	733,722,168	(265,507,738)	258,503,437	(4,559,082)	726,717,867	729,163,086	(2,445,219)

5.4. Aggregated financial flows reported to the MEITI Working Group on 2nd June 2011

MEITI Working Group meeting on 29th April 2011 issued resolution to make additional disclosure for every unresolved discrepancy, explain reason as per each company, government entity, aimag and soum, prepare a protocol to confirm the unresolved difference for every covered entity whose amount remained unresolved. Within this decision we sent official letters to government entities again, exchanged information, required replies from governor's offices of the locals, government entities, and also gathered photocopies of supporting documents from the companies; and we worked at the covered entities' premises. Subsequent to these actions the unresolved discrepancy reached to MNT77.4 million and was presented to 2nd meeting of the MEITI. Most portion of this discrepancy includes donations and costs disbursed for protection of the environment.

Section	Initial Differences (net)	Adjustments made		Unresolved Differences (net)
		Government Entities	Companies	
		MNT 000	MNT 000	
5.1 Taxes	691,916	300,648,022	300,648,022	-
5.2 Fees	22,627	138,267,911	138,271,101	(3,190)

5.5. Aggregated financial flows after final reconciliation and adjustment

In between 2nd June 2011 and 8th June 2011, the unresolved discrepancy decreased to MNT58.2 million. We received our official letter replies from the governor's offices of the locals those did not reply previously regarding receipts of the companies' donations, gathering supporting documents from the companies those reported as donation were given from, and exchange information of the companies with GDNT as well as of the government entities with the companies; and preparing disclosure for every unresolved difference by discussing with the covered entities.

All companies								
Taxes, fees, charges paid from companies to local government	Initial		Initial differences MNT 000	Adjustment		Adjusted		Unresolved differences MNT 000

6. UNRESOLVED DIFFERENCES

6.1. Aggregated unresolved differences

After reconciling the figures, certain differences remain unresolved. These are discussed in detail in this section, by type of financial flow.

A summary of the initial differences between receipts reported by Government Entities and companies, the adjustments made as a result of the reconciliation exercise, and the remaining unresolved net differences shows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government Entities	Companies	
		MNT 000	MNT 000	
1 Taxes	691,916	300,648,022	300,648,022	-
2 Fees	22,627	138,267,999	138,269,979	(1,980)
3 Charge, service charges	406,294	11,244,645	11,246,766	(2,121)
4 Dividends on state and local property	(95,181,745)	104,095,313	104,095,313	-
5 Other payments to recipient governments	(171,024,055)	169,528,159	169,528,159	-
6 Donations to Governmental organizations	(1,764,058)	6,802,587	6,824,346	(21,759)
7 Costs disbursed for protection of the environment	1,341,284	6,938,178	6,970,478	(32,301)
Total	(265,507,738)	737,524,903	737,583,063	(58,161)

The details of initial and unresolved net differences in respect of taxes, fees and charges as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government Entities MNT 000	Companies MNT 000	
Payments reported by companies which exceed the corresponding receipts reported by Government Entities	(267,969,859)			(58,161)
Receipts reported by Government Entities which exceed the corresponding payments reported by companies	2,462,121			-

The unresolved differences of 58,161 are detailed per company as follows:

Companies	Unresolved Differences (net) MNT 000
<i>Payments reported by companies which exceed the corresponding receipts reported by Government Entities</i>	
"Areva Mongol" LLC	(18,901)
"Polo Resource" LLC	(7,750)
"Beren Group" LLC	(6,400)
"Shin shin" LLC	(3,813)
"Khangad exploration" LLC	(3,401)
"AFK tavn" LLC	(3,299)
"Olon ovoot gold" LLC	(3,000)
"Mongoliin alt corporation" LLC	(2,520)
"South Govi sands" LLC	(2,103)
"Govi coal and enegy" LLC	(2,000)
"Adamas mining" LLC	(1,900)
"Noyon Gary" LLC	(1,750)
"Adil och" LLC	(1,250)
"Tunsini" LLC	(850)
"Altain khuderi" LLC	(800)
"Ikh mongol mining" LLC	(725)
"Datsan trade" LLC	(300)
"Tethys mining" LLC	(200)
"Erdes holding" LLC	(17)
Total	(60,979)
<i>Receipts reported by Government Entities which exceed the corresponding payments reported by companies</i>	
"Dong Sheng" LLC	670
"Altai gold" LLC	2,148
Total	2,818

6.2. Payments

The unresolved differences in respect of payments arose from fee for expats. Companies with material differences are shown below:

Companies	Unresolved Differences (net) MNT 000
<i>Payments reported by companies which exceed the corresponding receipts reported by Government Entities</i>	
"AFC tавт" LLC	(3,299)
Total	(3,299)
<i>Receipts reported by Government Entities which exceed the corresponding payments reported by companies</i>	
"Dong Sheng" LLC	670
"Altai gold" LLC	648
Total	1,318

Discrepancy reason: The companies submitted its amounts at lump-sum not in details.

Unresolved reason: Not possible to match with information of LWSA and determine the reason.

6.3. Charges and service charges

The unresolved difference in respect of charges and service charges are resulted mostly from service charges paid to state and local administration in accordance with relevant law. Companies with material differences are shown below:

Companies	Unresolved Differences (net) MNT 000
<i>Payments reported by companies which exceed the corresponding receipts reported by Government Entities</i>	
"South Govi sands" LLC	(2,103)
"Erdes Holding" LLC	(17)
Total	(2,121)
<i>Receipts reported by Government Entities which exceed the corresponding payments reported by companies</i>	
Total	-

Discrepancy reason: The government entities do not report the received charges and service charges in EITI report, where as the companies report every amount.

Unresolved reason: Charges and service charges are paid to many entities, and difficult to come up with every entity.

And one time payment amount is too small, materiality amount is not indicated in the Terms of Reference of year 2009, was difficult to make the adjustment.

6.4. Donations to governmental organizations

Companies with material differences for donations and assistance to governmental organizations are shown below:

Companies	Unresolved Differences (net) MNT 000
<i>Payments reported by companies which exceed the corresponding receipts reported by Government</i>	
<i>Entities</i>	
"Beren Group" LLC	(6,200)
"Shin shin" LLC	(3,813)
"Olon ovoot gold" LLC	(3,000)
"Mongoliin alt corporation" LLC	(2,520)
"Govi coal and enegy" LLC	(2,000)
"Noyon Gary" LLC	(1,750)
"Tunsini" LLC	(850)
"Adamas mining" LLC	(700)
"Khangad exploration" LLC	(626)
"Datsan trade" LLC	(300)
Total	(21,759)
<i>Receipts reported by Government Entities which exceed the corresponding payments reported by companies</i>	
Total	-

Discrepancy reason: The government entities such as ministries, agencies and budget organizations do not report the received donations and assistance in EITI report.

Unresolved reason: No replies received from MRAM, Mother and Child Science Center and the Governor's offices of Nogoonnuur soum of Bayan-Ulgii aimag. Replies amounts from the Governor's offices of Tarialan soum of Uvs aimag and Bor-Undur soum of Khentii aimag were different from the companies' amounts. Replies from the Governor's offices of Khankhongor soum of Umnugovi aimag, Dashbalbar soum of Dornod aimag and Tsel soum of Govi-Altai aimag explained that there were received donations and assistance. In contrary, the companies reported donations and assistance amount provided with photocopies of related supporting documents. This is the case; it was difficult to resolve the discrepancies.

6.5. Costs disbursed for protection of environment

Companies with material differences for costs disbursed for protection of environment are shown below:

Companies	Unresolved Differences (net) MNT 000
<i>Payments reported by companies which exceed the corresponding receipts reported by Government</i>	
<i>Entities</i>	
"Areva Mongol" LLC	(18,901)
"Polo Resource" LLC	(7,750)
"Khangad exploration" LLC	(2,775)
"Adil och" LLC	(1,250)
"Adamas mining" LLC	(1,200)
"Altain khuder" LLC	(800)
"Ikh mongol mining" LLC	(725)
"Beren Group" LLC	(200)

"Tethys mining" LLC	(200)
Total	(33,801)
<u>Receipts reported by Government Entities which exceed the corresponding payments reported by companies</u>	
"Altai gold" LLC	1,500
Total	1,500

In kind contribution at rate of 50% to environmental special account

Most of the total unresolved difference of in-kind contribution at rate of 50% to environmental special account amounting to MNT31,751 covers 50% relating to reportings of "Adamas mining" LLC, "Areva Mongol" LLC, "Beren Group" LLC, "Ikh mongol mining" LLC, "Polo Resources" LLC, "Tethys mining" LLC and "Khangad exploration" LLC.

Discrepancy reason: Companies centralize 50% of their restoration expenses, related to exploration licenses, into account of Governor's offices of soums where explorations are made in contrary, these amount are not summarized into EITI report.

Unresolved reason: No replies to our official letter to confirm the companies' detailed amounts, and replies indicating no receipt of the donation and assistance amounts. Also we have gathered photocopies of the supporting documents. It is difficult to resolve discrepancies completely since some donations and assistance are given to far aimags and soums, centralized at small amount (less than MNT100.0) and it is very time consuming to get information.

Cost disbursed for protection of the environment

Unresolved discrepancies in respect of cost disbursed for protection of the environment amounting to MNT550.0 is related to "Adil och" LLC, "Altain gold" LLC and "Altain khuder" LLC.

Discrepancy reason: Geologists of some companies did not submit environment reclamation reports to MOET, some submitted did not report any cost for restoration in the reports.

Unresolved reason: Non-possibility of adjusting the amount based on one party information due to non-confirmation by government where as companies did not provide with their geologist's reports.

6.6. Donations and assistance from the business entity to government entities

Initial discrepancies of MNT233.1 million caused by government reporting of received donation at amount of MNT64.1 million where as companies reported MNT297.2 million donations given to ministries and agencies. After adjustment of MNT267.6 million based on information provided from government entities MNT11.7 million remained unresolved.

Governor's office of Bor-Undur soum confirmed the amount by less amount than the company.
	Amount for aimags	6,458,752	6,468,811	(10,059)		
	Grand total	6,802,587	6,824,346	(21,759)		

6.8. Implementation of regulation issued by Ministry of Finance

The initial difference of MNT1.8 billion shows inadequate implementation of this regulation. However, we should not understand that this regulation shall be applied to year 2009 reconciliation because the EITI report is prepared by government entities and companies within 15th February of the year, GDNT summarize within 15th March and submit to MOF, and the regulation was approved on 1st March 2010 which is after reporting period of year 2009.

Companies increased the initial donations and assistance amount by MNT1.8 billion through their provided detailed information. After eliminating donations and assistance, which are not given to government entities like non-government organization, association, committee, movement, tuition fees for students, financing for festivals and contest and medical treatment expense for individual, with total amount of MNT648.5 billion (Appendix S) from the detailed information amount the initial reconciliation amount was increased the by MNT1.2 billion.

The above mentioned government entities reported MNT3.8 billion as donations and assistance amount initially, however, it reached to MNT3 billion after adjustments.

Companies reported MNT5.6 billion for donations and assistance amount initially, and it was increased by MNT1.2 billion during reconciliation. We confirmed MNT6.8 billion donations and assistance amount by disclosing form the related organizations, and resolved the difference. (Appendix Q and R).

6.9. Participation

Here, we would like mention names of locals such as Govisumber, Darkhan-Uul, Dornod, Umnugovi and Sukhbaatar aimags which are half implemented indication of 2.2 and 2.3 of "Recording of donations and assistance" approved by Ministry of Finance on 1st March 2010. In contrary, ministries and agencies do not implement the regulation.

Governor's Offices of soums and aimags participated actively, except, reporting those received taxes, payments, fees, charges and service charges and donations and assistance amounts from companies operating in each territory of soums and aimags properly in EITI template, informing and letting to summarize, in replying to official letters for confirmation for detailed information related to initial reporting amounts. This is related to improvement in understanding of EITI compared with previous year.

7. ISSUES

7.1. Placement of 50% deposit fund for environmental protection expenses to special account

In 2009, the closing balance on the special deposit for environmental protection expenses is amounted to MNT 2.0 billion. The initial aggregation resulted in a difference of MNT 347,9 million mainly due to the following reasons.

According to the 39.1.9 (39.4) Minerals Law of Mongolia, if the licence holder complies completely with the obligations of the environmental protection plan, then the licence holder is entitled to receive back the funds previously deposited. The state inspection agency conducts an inspection of the actual fulfilment of the company's environmental obligations and issues documentation evidencing the inspection and its results. However, in most cases, entities have not fulfilled their environmental protection plans for the year and performance rates per evaluation by State inspection agency fall between 50-60% and 70%. This is below the legal requirement leading to difficulties in receiving back those deposited funds in the special account. In such

circumstances, entities do leave the deposited funds in the special account without taking back in order to use them for the next year's deposit fund requirement.

Current year's additions to the special account is reported by the Government whereas entities report this amount at accumulated basis including both prior year amounts and the current year amount of deposit fund.

Movements in special account at Treasury department were as follows.

(in million MNT)

Years	Proceeds into special account	Refunds from special account
2006	21.8	
2007	611.8	
2008	566.1	21.0
2009	385.4	125.5*
Total	1,585.1	146.5
Ending balance	1,438.6	

*Cash disbursed from special account in 2009 is to refund MNT 9 million to Exodem LLC and MNT116,5 million to Petro China Dachin Tamsag LLC, respectively.

7.2. Costs disbursed for protection of environment

Initial difference on environmental protection expenses is amounted to MNT 1.7 billion, showing that the amount reported by Government is more than the amount reported by entities. The difference is arisen from the following:

Entities hold mining licences prepare and submit mining work plan and mining work report to Mineral Resources Authority of Mongolia (MRAM) and environmental reclamation work report to Natural reserves department of Ministry of Nature, Environment and Tourism of Mongolia (MNET).

Not less than 10% of mining work plan shall be designated for environmental protection expenses, as required by MRAM and entities shall conform to this criterion in preparing mining work plan and reporting the actual performance as well.

Environmental protection plan submitted by entities to the MNET serves as the basis to compute amount equals to 50% of fund required to implement the current year's environmental protection works that needs to be placed at special account as security to the performance of environmental protection obligations according to provisions 38.1.8 and 39.1.9 of Minerals Law of Mongolia. Therefore, we found that entities tend to understate environmental protection expenses in report submitted to MNET in order to deposit less amount of cash at special account. In contrast, entities overstate environmental protection expenses in report submitted to MRAM to make it look like substantial extent of environmental protection works done at site. However, amounts submitted for EITI reporting are based on actual performance and differs from the amount reported to the above mentioned government authorities.

In conclusion, fact that same item is reported at three different amounts and is accepted by those government authorities shows the necessity to have adequate integration among these authorities and maintain the condition to deny if inconsistency is found in reports submitted by entities.

7.3. Charges and Service charges

There are no possibilities to resolve the differences related to charges and service charges given that Government do not provide any information in this aspect and the uncertainty exists in mechanisms to report and aggregate data. In addition, amount reported at detailed statement by entities is larger than the amount initially reported by them, contributing to the unresolved difference more. Such individual amounts are mostly insignificant, it will require enormous effort and time for government to reconcile them because entities paid those charges and service charges are spread over the country in terms of location. Although confirmation letters sent out to assure material amounts, responses are barely received or the response received does not adequately provide required information to reconcile the difference.

7.4. Donations and assistance

In Appendix to the decree no.80 of 2007 issued by the Government on responsibilities of state organisations involved in the implementation of EITI, it is clearly described that Secretariat of soum, district, provincial or capital city governors shall submit Local Budget Receipt statement on budget entities who received tax, fee, service charges, donations and assistance in the report template provided by EITI. Such report template shows items to be reported by each entity. However, every year the data for annual aggregation does not include amount of donations or assistance paid to local budget entities, so resulting the differences.

Here, we would like to mention about our observation noticed during reconciliation while we contact with covered entities and exchange information with regards reported donation amounts which shows lack of understanding of regulation "Recording of donation and supporting".

7.5. Importance of coherence and controls among functional units in preparing Government's report

Initial aggregation difference of MNT265.0 billion included the following material amounts those not reported by Government:

(In MNT '000)

Item	Companies	Amounts	Responsible authorities
Payment made by entity operating under product sharing agreement for the Government's portion of products	Petro China Dachin Tamsag	18,133,692	Mongolian Oil Agency
	Dongsheng Oil	9,154,229	
Dividend applicable to state ownership	Erdenet Mining Corporation LLC	95,059,481	State Property Committee
Others	Oyu Tolgoi LLC	143,422,000	Ministry of Finance
Total		265,769,402	

We have further investigated factors contributed to the initial difference through meeting with relevant authorities.

Government data aggregation is executed by General Department of National Taxation (GDNT), and GDNT has reminded about timely reporting by sending official letter to some entities who prepares EITI reports. Even though Oil Agency has not reported on time but did only after that aggregation have already finished and delivered to EITI working group, so those data is excluded from Government report.

As described in Appendix to the decree no.80 of 2007 issued by the Government on responsibilities of state organisations involved in the implementation of EITI, State Property Committee has responsibilities to report dividends earned on local and state ownership. However, those dividend receipts are not included in the report at all accordingly caused the difference. This was the case also in year 2008.

In 2009, under sustainability contract, Oyu tolgoi LLC has purchased government bond and reported the purchase at US\$100 million equivalent to MNT143 billion. This amount is not reported by Ministry of Finance, because they considered that this amount is not taxes, fees, charges or any other incoming flow and the amount has not report. Per principles of EITI, entities have responsibility to report any kind of payment made to the Government (including purchase of bond) and Government shall report any kind of incoming flow or receipts. So this receipt relating to bond purchased by Oyu tolgoi shall be reported by Ministry of Finance.

These facts show that government authorities who have to report for EITI themselves are not giving the adequate importance to it so that some incompliance such as late reporting or absence of submission still exist. For example, issue noted for the State Property Committee last year was repeated this year as well.

We noted that there are deficiencies that) GDNT does not take proactive approach to involve all authorities in the aggregation, and ii) Ministry of Finance does not exercise its full responsibilities including to ensure whether incoming flows are completely reported, instead of this, it just prepares official letter to deliver GDNT's aggregated data to EITI working group.

7.6. Reporting currency differences

Mining and exploration licence fee is paid in US dollars by companies because fee itself set out by US dollars per each hectares of exploration site according to the articles 32.1-32.3 of Minerals Law of Mongolia. When preparing financial statements, these amounts are translated and recorded into MNT using the Mongol bank exchange rate prevailing at the date of payment according to articles 6 and 9.2 of Accounting law of Mongolia and resulting MNT amounts also reported in the EITI reports.

Whereas companies reported in thousand tugrugs, the government reported in US dollars failing to adhere the article 6.1 of Accounting Law of Mongolia "A currency unit for accounting purpose shall be denominated in Tugrug and Mungu- the currency of Mongolia." In addition, amounts denominated in different currencies such as Mongolian tugrugs and foreign currencies were aggregated in the same report.

MRAM arbitrarily has amended one more item to the EITI report template and presented "Mining and exploration licence fee in US dollars". So, the differences are arising from the reconciliation of these amounts to amounts reported by each of entities. MNT amounts are rounded up to thousand tugrugs, and rounding up is not used with for amounts in foreign currencies.

Ministry of Finance did not notice when amounts denominated in two different currencies. Without validating these amounts, Ministry of Finance confirmed the aggregated report with its own official letter and delivered them to EITI working group. It shows that inadequate consideration are given or initiatives taken by Ministry of Finance to mitigate aggregation differences.

7.7. Disadvantage of GDNT information system

Taxes, fees and charges paid by companies to tax authorities of aimags, cities, soums and districts are encoded into the GDNT information system not by the entity's register number rather under category "other customers".

7.8. Difficulties in process of reconciliation

The 30% of mineral resources usage fee transferred back to local governments reported mostly as doubled.

One tax overpayment is transferred to other tax underpayment. The reconciliation is not made with these differentiated amounts.

Penalty and re-pay taxes amounts, which are imposed from the tax inspection review, are reported in EITI report.

Government includes from year to year received amount in next year reconciliation, where as companies include and report in the fiscal year, when the taxes were paid.

7.9. Significant effect of payments made in local area to the differences

Another significant factor of the differences is that information on payments made for taxes and fees in local area including land fee, mineral water and springs use fees, fees for use of widely spread mineral resources and expats workplace fee, are not received and aggregated by GDNT. These taxes and fees are collected by local inspectors for environment protection and submitted to local budget. They do not report these amounts to relevant tax offices, so these amounts are excluded out of the integrated system of GDNT. Every year, it causes some difference as well due to such understatement by Government.

We would like to emphasise here that it took so much effort and time for reconciliation team to communicate with local entities to make inquiries for information which assists us to clarify differences.

7.10. Effect of license transfers

When entities transfer mining and exploration licences to other entities, there are some cases where new holder pays the licence fee under previous holder's name. Such cases result differences where amount reported by previous holder is less than the amount reflected in the information provided by MRAM. This indicates inadequate record maintenance at MRAM for those licence transfers and negligence by the entities.

The Companies establish its subsidiary and let own license. Due to this, discrepancies relating to license fee occur and it is time consuming to disclose since one company pays the fee for license on behalf of the other.

7.11. Difficulties in process of reconciliation

There was the difference found due to that GDNT included its 30% of mineral resources usage fee transferred back to local governments in their initial reporting.

Particularly, Government reported initially 49,044 thousand tugrugs for Bud Invest LLC while entity itself reported MNT37,726 thousand. To clarify the difference, the following steps were taken:

Official letter sent out to both parties to clarify the difference

Both parties have submitted to us the details confirming their reported amounts respectively

Given that the entity amount appears understated, we have sent out second confirmation letter to the entity, attaching the amounts reported by Government but not reported by the entity.

Accountant of the entity approached to us through the phone communication that she/he cannot find those figures from the entity's accounting records. We have again demanded them to find the difference because the entity's report excluded those figures.

After several days, we have received letter from the entity's accountant stating that those figures compiling the difference with Government records are not found from the accounting documents and materials of the entity.

We have then again approached to GDNT. GDNT investigated amounts and then responded to us that they have included 30% payment of mineral resources usage fee to local governments

It allows you to have idea about the extent of time and effort spent to clarify single difference related to a single item.

After commencement of MEITI reconciliation work, we have sent official letters to companies initially and followed by tax authorities of aimags and soums after receiving detailed information from companies. Replies were mostly containing explanations like "the amount was not paid to our account, it is not recorded in our information data". However, replies changed and information was received after getting protocol from the

respective covered entities. It shows that government officials those work in locals are not fully responsible for their work, and they are under qualification and/or sluggish towards initiative work. It makes our work difficult to process.

It wasted our time to get information after first MEITI Working Meeting since the resolution issued from the meeting was not presented by participant who attended from MRAM to employees of Finance and Economic department of MRAM.

Also, first 3 months of year 2009 information related to mining sector was unclear because MRAM has changed its financial software.

Some departments and units of MRAM refused to provide with information. Reason explained by them is "information are companies' confidential data, we can not disclose their information without permission from the companies". Such condition distracts "transparency" of the sector. Government officials approached to reconciliation work process with low significant, with burecracy and sending responsibility away to one another; and reasoned out that "you are requiring useless information"; "we would provide the information only with written approved permission of our department/unit authority". This condition was difficult to reconciliation team to process efficiently and significantly.

From the companies' side, companies disclosed their documents and information, related to donations and assistance to ministries and agencies, with certain cautions that there might be certain pressure after the disclosure to the reconciler.

7.12 Reiteration of negligent and erroneous preparation of EITI reports

Primary causes to differences are improper amounts presented, overstatement or understatement of figures or absence of report delivery by either entity or the Government when reporting to EITI. Such improper reporting is enabled by the absence of liability system to apply for those government agency, entity's management and accountants.

The circumstances where accountants of the entity are keep changing also causes the difference since new accountant does not know works performed by previous accountant, has inadequate experience to prepare EITI report or has negligent attitude in doing so. For some entities, such factors lead to even absence of EITI reporting or poor quality reporting with inadequate consideration given to the correctness of those figures and items reported.

To confirm amounts of donations and assistance provided by entities, we send official letters to ministries, their agencies or major budget entities but these entities are not promptly and accountably responding to these letters. We assume that these agencies or budget entities find it complicated to dig in archived materials to respond to our request to clarify previous reporting period's information.

7.13 Tardiness of entities in report preparation

Some entities were not responsive and supportive to our work especially when we ask for detailed data to assure initially provided information. For example:

Initial aggregation showed the difference of MNT93,106 thousand for T& Ch LLC due to their absence of 2009 EITI reporting. We have spent enormous amount of time and effort to find contact information of this company because currently they are not operating actively and transferred its licence to other company. Finally, we have found the phone number of the company from tax office of Tuv province and sent out confirmation letter to them on Apr 8, 2011. Following up the confirmation letter, we have also contacted with the accountant over the phone. Accountant said first that: "he newly joined to the company, so does not know about previous financial

statements. The entity did not run any mining operation so he does not know if they shall report to EITI or not". In response to our several follow-ups, he keep telling some excuses such as that he is overloaded, cannot find time to prepare EITI report, or he is just about to sending it away.

We have searched over internet about this entity and found some information titled that this entity did gold mining at site Uguumur in the territory of Zaamar soum, Tuv province and left the site without proper reclamation. Accountant stressed that the entity did not run any mining operation but media informs that the entity is running gold mining at site "Khukh bulgiin khundii" in the territory of Bumbugur soum, Bayankhongor province.

To get clarification, we have sent official inquiry letter to Dong sheng Oil LLC on Feb 19, 2011, but one month passed without sending response to us. We did follow up over the phone and the response given by accounting assistant Tsolmon was that their Chinese head of financial department read our official letter and said that he will not give response to this letter, the entity has responsibility to report only to Mongolian Oil Agency. Audit team's action in response is to send another demanding letter signed by B.Dolgor, Secretary of EITI National Council and senior advisor to the Prime minister, on March 29, 2011. The entity also refused to respond to the second letter. So that Sh.Tsolmon, EITI coordinator and B.Osorgarav, General Director of Ulaanbaatar Audit Corporation LLC agreed to meet with management of this entity on Apr 8, 2011. When we make call to them to make appointment, they responded that it is not necessary to have meeting and they are in process of preparation. So that meeting appointment is postponed. One week later, we received the response to our letter.

It is observed that generally foreign invested entities are tardy, slow and negligent towards any matters.

We have to emphasise here entities actively involved in our aggregation work by providing us with true information on time, namely Erdenet Mining Corporation LLC, Oyu Tolgoi LLC, Chinhua MAK Nariin Sukhait LLC, Tsevddeg LLC, Rumen Uul LLC, Aduunchuluun LLC, Ankhai International LLC, Bayan-Erch LLC, Gurvant Tokhom LLC etc. For more information on the entities' status of involvement, please refer to the Appendix M.

8. RECOMMENDATIONS

8.1. To include receipts from sale of Government bond within extractive industry, in EITI report

EITI report must be prepared in cash basis, so incoming cash flow of Government shall include bond receipts from sale of bond to entities operating in extractive industries. There is risk to adversely affect to EITI report if omitted significant amount receipt which was widely published and discussed over public media. Since it is anticipated that there will be receipts similar to prepayment in nature for those major mining projects to be exploited in Mongolia, EITI Working group shall make clear decision on whether such incoming cash flow shall be included in EITI report.

8.2. To report some of the donation of the companies as flow of profit and income

The donations reported by companies did not represent, in many cases, payments to government; rather, they were costs which the company incurred voluntarily for the benefit of the community (e.g. construction, maintenance).

We recommend that costs not paid to government should be excluded from the EITI template and reconciliation and shown under Section 2 of the EITI template. We further recommend that the Working Group should consider a minimum individual value for reporting donations to government.

8.3. Subcontractors

Amount reported by the mining sectors is less than the government amount, it leads the Working Group and National Council of the MEITI to review whether the government amount is material than the mining sector/companies those are not included in EITI report.

We recommend that those major subcontractors operating in extractive industries who made material payments to the state or local budget for taxes, fees and charges shall be covered by EITI scope, if practicable, by requiring them to fill in and submit EITI template. Because subcontractors especially in mining sector will be increased in future and their operation will expand more in Mongolia.

8.4. Implementation of regulation for donation and assistance recording

We recommend that MOF shall organize training, seminar and other informative activities to provide full understanding of regulation “Recording of donations and assistance”, and review overall its implementation. It is been noticed during reconciliation that government entities do not have sufficient understanding regarding this regulation which was approved by Decree 45 of Ministry of finance in year 2010.

8.5. Clear determination of materiality

Materiality level has to be clearly set out in two different levels. First, we recommend to make it clear whether entities shall report items amounted over MNT10,000 or every single payment over MNT10,000 made for tax, fees, charges or donations has to be included in EITI report.

In other hand, materiality level shall be defined for the auditors working on the initial aggregation to enable them to make adjustments at initial aggregation by removing immaterial differences from the reconciliation.

Companies pay 10-15 types of charges and service charges (fees) at small amount in between MNT1.1-50.0 to lots of organizations and report them in their detailed information. Where as government does not have possibility to report all receipts of these payments in EITI report by summarizing. Therefore, we recommend suggestion for providing with possibility for reconciler in the Terms of Reference of EITI Reconciliation work to make adjustment based on companies’ documents for amounts less than MNT50.0 of one time payment.

Plus, reconciliation work scope is going to broaden mightily including almost all aimags and soums of the country since the number of mining companies to be covered under initiative is increasing from year to year. Thus, we recommend to set certain limitation amounts in the Terms of Reference of EITI Reconciliation work for in-kind contribution amounts at rate of 50% to environmental special account, which is made during the exploration operation, and donations and assistance amounts because it is very time consuming and difficult to confirm and disclose these amounts since the locals do not have good communication condition.

8.6. To prevent from differences due to reporting in different currencies

We recommend that MRAM shall record foreign currency payments received from entities after translating them into Mongolian tugrugs using the Mongol bank rate prevailing at the day of receipts and shall report MNT figures listed by each entity to GDNT . Ministry of Finance shall strictly set procedure to prepare aggregation in Mongolian tugrugs and give order accordingly.

8.7. Improvement required on initial differences caused by Government

Many of exploration licence holding companies placed 50% deposit fund of environmental protection expense to local budget. Monetary amount of such placement starts from MNT 50,000 to MNT15 million. None of exploration licence holders, but only mining licence holders places environment bonds based on their Environment plan into the account of Ministry of Nature, Environment and Tourism. Exploration licence holders reported those deposit funds, whereas Government is not reporting due to uncertainty in the responsible party to report on this, so resulted the difference.

To avoid such difference, we recommend to provide guidance on clear segregation of responsibility where governor’s offices of aimags, soum and district governors shall report these figures to MRAM for the aggregation purposes.

If the number of employees employed exceeds the percentage set forth in Article 43.1, the licence holder shall pay 10 times the minimum monthly salary to the local budget for each workplace occupied by expat employee every month. We recommend to provide clear guidance that these payments shall be aggregated at governor’s offices of aimag, soum and district governors and reported to Labour and Social Welfare Office.

When Natural resources department of MNET receive reports on actual expenses incurred for environment protection from entities, we recommend to require from entities to report using the template No.7 approved by Decree 411 issued by Head of MRAM in 2009. Upon receipt, Natural resources department shall review reported amounts whether it is consistent with amounts reflected in “Environmental reclamation work statement” which submitted to Geology and research department, before accepting entities’ reports. Such validated figures shall be input into the EITI aggregation.

8.8. Organization of the EITI Office

In relation to expansion of transparency of mining companies from year to year it is required to increase number of working position in the initiative office. Due to lack of positions activities might be scattered and inefficient.

8.9. Summary of payments received by the local into GDNT information data

Discrepancies relating to fee for land use occurs from year to year since there is not complex recording of fees paid to tax authorities of aimag, soum, district and capital. Meaning, GDNT shall summarize fees into its information data by complying indication of “Law of Mongolia on Land fee” that requires overall review on fee imposition, payment and recording.

8.10. Eliminate GDNT summary report weakness

There is an increasing need for preparing Template #6 approved under Decree 01/12/13 jointly by Ministry of Finance and Chairman of NSO dated on 26th January 2011. Mineral resource department of MRAM shall organize its activities to relate with preparation of this template, and record taxes, payments, fees and service charges, particularly, fees for stamp, various types of charges, fees for land and water use as per each category and also as per entity name or register number into informative data since the mining sector operation in Mongolia is expanding from year to year, and its earning is increasing from period to period by leading companies to be covered in more broader scope under EITI report.

The EITI report from year to year should be prepared not repeating reasons for unresolved discrepancies of the previous years, and government and budget entities shall gather related information completely.

8.11. Timing of aggregation report

We recommend to increase the length of time dedicated to aggregation work since number of mining and exploration entities covered by aggregation keep increasing from year to year so do scope of work. This will influence positively on quality of aggregation work. In addition, more companies need to be aggregated more scope of geographical area is covered. For example, only to deliver official letter to confirm donation and assistance provided to remote soums take half a month, because mailing service between aimags and soums is available only one time per week.

Appendix A – Adjustments resulting from the reconciliation exercise (1) – by financial flow

The aggregated flows submitted on the initial templates were shown in section 5.1 of the Report.

This Appendix describes the adjustments made to the initial templates, according to the type of financial flow as set out in the EITI Mongolia templates.

1. Taxes

The differences in the taxes section of the initial templates, together with the adjustments made to figures provided by Government Entities and companies as a result of the reconciliation exercise, are as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net)
		Government entities MNT 000	Companies MNT 000	
1.1 Corporate income tax	9,967,704	97,304,508	97,304,508	-
1.2 Customs tax	(19,047,045)	12,255,464	12,255,464	-
1.3 Windfall tax	9,064,800	185,650,852	185,650,852	-
1.4 Real estate tax	(368,745)	2,812,561	2,812,561	-
1.5 Excise on imported fuel and oil materials	1,148,117	2,295,506	2,295,506	-
1.6 Tax on petrol and diesel fuel	(63,387)	127,847	127,847	-
1.7 Tax on automobiles and self moving vehicles	(9,528)	201,284	201,284	-
1.8 Other taxes in monetary value (1)	-	-	-	-
1.9 Other taxes in monetary value (2)	-	-	-	-
Total	691,916	300,648,022	300,648,022	-

1.1 Corporate income tax (CIT)

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Corporate income tax	9,967,704	97,304,508	97,304,508	-

The adjustments to the initial net differences for the CIT are as follows:

- “Adams Mining”, “Ankhai International”, “Baganuur”, “Bayar’s Gold”, “Bold Tumor Eruu Gol”, “Gatsuurt”, “Oyu Tolgoi”, “MONENCO”, “Reo”, “Shin Shin” companies have understated corporate income tax in its initial templates and have provided and reported the payment as per its detailed information.
- “AUM” LLC has not reported tax amount in its initial template. The government has reported MNT35,463 thousand, however, only MNT36,477 thousand was paid for tax inspection act which was approved by the company during reconciliation period, “Northwind” LLC has maintained tax inspection act payments of 2005, 2006, 2007 into CIT.
- “Olon Ovoot Gold”, “Energy Resource” companies have reported this tax at accrual basis, not at cash basis.
- “Bumbat”, “Monpolimet”, “Odod”, “Ochir Undraa”, “Kynar Wolfram”, “Suikhent” companies has not provided its 2009 templates to EITI working group, but provided during reconciliation period.
- “Tavan Tolgoi”, “Shivee Ovoo” companies have understated paid tax amount and paid tax amounts initial difference appeared at the end of 2008. But MTA reported this tax amount in 2009 report due to payment to state budget during 2008-2009.
- “Tunsini”, “Tsairt Mineral”, “Erdenet Mining Corporation” companies have not reported the setting of VAT against to overpayment, “Chin Hua MAK Nariin Sukhait” LLC – the setting of individuals income tax against to overpayment in its initial templates, but MTA has reported the setting of this amount in its initial templates.
- “Khangad Exploration” LLC and MTA have not reported tax amount paid to Chingiltei district.
- The difference appeared due to “Tsogt Onon” LLC’s reporting this tax amount in MNT, not in thousand MNT, in its initial template.

- “Erel” LLC has understated tax amount paid to City tax office in its initial template, however, it was approved by its detailed information.
- “Mongolbulgargeo” LLC has understated by MNT5,510 thousand, “Mongolczechmeal” LLC – by MNT120 thousand, “Sonor Trade” LLC – by MNT4,617 thousand in its initial template, which was approved by its detailed information.
- “Shijir Alt” LLC has understated its paid tax amount by MNT8,711 thousand in its initial template.

1.2 Customs tax

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Customs tax	(19,047,045)	12,255,464	12,255,464	-

The adjustments to the initial net differences for customs tax are as follows:

- We have worked to reconcile the amounts from the reporting of the MCO and its detailed information into the companies information, however, the companies have reported their paid VAT, excise tax, tax on petrol and diesel fuel and customs tax as a whole. Therefore, we have made the adjustments based on the reporting of the MCO.
- “Aduunchuluun” LLC has not reported MNT7,746 thousand, “Bud Invest” LLC - MNT10,891 thousand, “Commod” LLC – MNT14,257 thousand, “Monpolimet” LLC - MNT60,274 thousand, “Southgovi Sands” LLC - MNT11,245 thousand tax in the template, which was approved by detailed information and has made respective adjustment.
- “Altain Khuder” LLC has reported MNT84,967 thousand VAT, “Baganuur” LLC - MNT221,843 thousand, “Bold Tumor Eruu Gol” LLC - MNT2,884,049 thousand, “Beren Group” LLC - MNT16,773 thousand, “Dongseng” LLC - MNT5,361 thousand, “Kojigovi” LLC - MNT36,464 thousand, “MONENCO” LLC - MNT575,392 thousand, “Shijir Alt” LLC - MNT122,984 respectively into customs tax and has made respective adjustments by deductions.
- “AUM” LLC has understated by MNT26,481 thousand, “Gatsuurt” LLC – MNT385,254 thousand respectively, which was approved by detailed information, and has made respective adjustment.

1.3 Windfall tax

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Windfall tax	9,064,800	185,650,852	185,650,852	-

The adjustments to the initial net differences for this item are as follows:

- MTA has reported in its initial template duplicated transferred amount of “Mongolrostsvetmet” LLC’s windfall tax overpaid amount to CIT underpaid amount.
- MTA has not reported receipt of tax from “Olon Ovoot Gold” LLC in its initial template and has made adjustment by reporting this tax in the detailed information from MTA during reconciliation.
- “Uyan Gan” LLC has reported this tax by imposed amount, not paid amount, in its initial template. /At accrual basis, not cash basis/.
- “Tsoigt Onon” LLC has understated paid tax in its initial template, which was approved by company’s detailed information.

- “Bumbat”, “Monpolimet”, “Childson”, “Suikhent”, “SBF” companies does not provided 2009 templates to EITI working group, but provided during reconciliation period.
- “Erdenet Mining Corporation” LLC has not reported transferred amount from overpaid VAT in its initial template, but MTA reported the setting of this amount in its initial template.
- “Altai Gold” LLC has overstated by MNT22,608 thousand, “Bulgangangat” LLC - MNT10,057 thousand, “Zaamarin Ikh Alt” LLC - MNT4,153 thousand in its template and has made adjustment by deduction in accordance with the company’s detailed information.
- “Berkh Uul” LLC has understated by MNT29,773 thousand, “Gatsuurt” LLC - MNT2,018,416 thousand, “Gurvan Tukhum” LLC - LLC65,712 thousand in its template, “Mongolbulgargeo” LLC has overstated by MNT34,656 thousand and has made adjustment in accordance with the company’s detailed information.
- Initial difference appeared due to casual adding of MNT32,301 thousand to this tax /taxes paid by gold mining companies/ although “Dongseng” LLC is running crude oil production. The adjustment was done by deducting this amount because the company explained that this difference appeared due to translation mistake.

1.4 Real estate tax

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Real estate tax	(368,745)	2,812,561	2,812,561	-

The adjustments to the initial net differences for this item are as follows:

- Although “Mongolrustsvetmet”, “Tunsini”, “Erdenet Mining Corporation”, “Erel” companies have reported this paid tax in its templates, MTA has not reported receipt of this tax. The respective adjustments were done based on payment confirmation letters received from Orkhon, Darkhan-Uul, Khentii and Dornogovi provinces during reconciliation period.
- “Bumbat”, “Odod”, “Sharin Gol”, “Emeelt Mines” companies does not provided 2009 templates, but provided during reconciliation period.
- “Shivee Ovoo” LLC has reported tax amount paid at the end of 2009 in its initial template. The adjustment was done by deducting this amount due to receipt of this payment by state budget next year.
- “Bold Tumor Eruu Gol” LLC has understated in its initial template by MNT4,737 thousand, which was approved by detailed information, and has made adjustment.
- “Berkh Uul” LLC has overstated by MNT1,359 thousand, “Mongolczechmetal” LLC - MNT10,359,8 thousand in its template and has made adjustment by deduction in accordance with the detailed information.
- “Shijir Alt” LLC has overstated by MNT23,000 thousand in its initial template. The adjustment was done by deduction of difference in accordance with the company’s detailed explanation during reconciliation period that this amount includes assets insurance amount paid to “Tushig Daatgal” company.

1.5 Excise tax (on imported fuel and oil materials)

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Excise on imported fuel and oil materials	1,148,117	2,295,506	2,295,506	-

The adjustments to the initial net differences for this item are as follows:

- “Mongolrustsvetmet”, “Mongolin Alt Corporation”, “Petro China Dachin Tamsag” companies have not reported this tax in its initial templates and have made adjustments in detailed information during reconciliation period.
- “Erdenet Mining Corporation” LLC has reported tax on petrol and diesel, fuel under customs tax in its initial template, which was approved by detailed information during reconciliation period.
- The difference appeared due to non-reporting of MNT6,449 thousand by “Gatsuurt” LLC in its initial template, which was approved by the company’s detailed information. The adjustment was done accordingly by adding.
- “Dongseng” LLC has overstated by MNT5,674 thousand in its initial template. The adjustment was done by deduction in accordance with detailed information from the company received during reconciliation period.

1.6 Tax on petrol and diesel fuel

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Tax on petrol and diesel fuel	(63,387)	127,847	127,847	-

The adjustments to the initial net differences for this item are as follows:

- “Petro China Dachin Tamsag” LLC has reported excise tax on imported fuel and oil materials into this tax in its initial template, which was approved by additional information received during reconciliation period.
- “Erdenet Mining Corporation” LLC has reported this tax into excise tax on imported fuel and oil materials into this tax in its initial template, which was approved by additional information received during reconciliation period.
- MNT1,379 thousand difference appeared due to non-reporting of this tax by “Dongseng” LLC in its initial template and the adjustment was done by adding in accordance with information from the company received during reconciliation period.

1.7 Tax on automobiles and self moving vehicles

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Tax on automobiles and self moving vehicles	(9,528)	201,284	201,284	-

The adjustments to the initial net differences for this item are as follows:

- Although “Mongolrustsvetmet”, “Khangad Exploration”, “Erel” companies has reported payments of this tax in its initial templates, MTA has not reported receipt of these payments. These companies made payments to Darkhan-Uul, Khentii provinces’ and Sukhbaatar district budgets, which were approved by confirmation letters from these provinces received during reconciliation period. Respective adjustments were done.

- “Petro China Dachin Tamsag” LLC has not reported in its initial template, which was approved by detailed information received from the company during reconciliation period.
- “Energy Resources” LLC has overstated this tax in its initial template, which was confirmed by detailed information received from the company during conciliation period.
- MNT7,447 thousand difference appeared due to unreporting by “Gatsuurt” LLC in its initial template and the adjustment was done by adding in accordance with detailed information from the company.
- “Govi Coal and Energy” LLC confirmed initially reported amount by the detailed information and MTA has understated amount by MNT1,779 thousand in its initial template, which was confirmed by detailed information, and adjustment was done by adding to government side.
- “Dongseng” LLC has understated by MNT3,268 thousand in it initial template, which was confirmed by detailed information, and adjustment was done for the company side.
- “Mongol Gazar”, “Monpolimet” companies does not provided 2009 templates to EITI working group, but provided during reconciliation period.

2. Fees

The differences in the fees section of the initial templates, together with the adjustments made to figures provided by Government entities and companies as a result of the reconciliation exercise, are as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
2.1 Fee for exploitation of mineral resources (“Royalty fee”)	17,078,028	105,319,548	105,319,548	-
2.2 License fee for exploitation and exploration of mineral resources	(8,910,088)	9,082,332	9,082,332	-
2.3 License fee for exploitation and exploration of mineral resources /in USD/	4,993,390	2,399,427	2,399,427	-
2.4 Reimbursement of deposit, exploration of which is carried out by the budget fund	358,941	1,762,518	1,762,518	-
2.5 Land fee	(11,302,525)	12,057,815	12,057,815	-
2.6 Fee for water use	(450,624)	2,383,477	2,383,477	-
2.7 Fee for forestry use and firewood	(4,648)	4,389	4,389	-
2.8 Fee for recruiting foreign experts and workers	(757,202)	4,208,271	4,210,251	(1,980)
2.9 Fee for use of mineral resources of widespread deposit	(982,645)	1,050,223	1,050,223	-
2.10 Other	-	-	-	-
Нийт	22,627	138,267,999	138,269,979	(1,980)

2.1 Fee for exploitation of mineral resources

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Fee for exploitation of mineral resources (“Royalty fee”)	17,078,028	105,319,548	105,319,548	-

The adjustments to the initial net differences for this item are as follows:

- The difference appeared due to unreporting by “Adamas Mining” LLC in its initial template. The adjustment was done by adding MNT19,162 thousand to the company side in accordance with the company detailed information.
- “Adil-Och” LLC admitted that the company has understated by MNT16,281 thousand in its initial template by providing detailed information, “Zaamarin Ikh Alt” LLC - MNT29,659 thousand, “Ankhai International” LLC - MNT10,695 thousand. Respective adjustments were done by adding to the company side.
- MTA has reported MNT55,520 thousand payment received from “Aduunchuluun” LLC in its initial template. During reconciliation period MTA provided explanation that wrong inputting of information was done to information data base and MTA received only MNT52,250 thousand. Therefore, the adjustment was done by deduction MNT3,270 thousand from government side.
- In its initial template MTA has understated MNT78,719 thousand payment from “Bulgangangat” LLC. The adjustment was done by adding to government side in accordance with detailed information from MTA.
- “Gurvan Tukhum” LLC has confirmed initially reported amount by detailed information. But adjustment was done by deducting MNT13,461 thousand from government side based on wrong data confirmation from MTA.
- MNT3,374,831 net difference appeared due to “Dongseng” LLC’s wrong reporting. The adjustment was done by deducting from the company side based on detailed information received from the company.
- Net difference appeared due to non-reporting of payments paid to local governments by the government in its initial template. Necessary adjustment was done by solving “Mongolrostsvetmet” and “Shivee Ovoo” companies difference based on detailed information from Khentii, Dornogovi provinces received during reconciliation period.
- MTA has duplicated reporting of payments from “Mongolin Alt Corporation”, “Uyan Gan”, “Flink Mongolia”, “Tsairt Mineral”, “Tsogt Onon”, “Tsevddeg”, “Chin Hua MAK Nariin Sukhait”, “Polo Resources”, “Khotu”, “Shijir Talst”, “Erdenet Mining Corporation” companies made to state and local budgets. Also “Tsairt Mineral” LLC has not reported payment of MNT360,660 thousand paid at the end of 2008 in its initial template.
- MTA has duplicated reporting of payment made from “Tavantolgoi” LLC to local budget and the company has not reported tax paid on December 29, 2009, in its initial template.
- MTA has not reported payments from “Tunsin”, “Erel” companies paid to local budget in its templates and adjustments were done based on detailed information received from Khentii, Dornogovi, Darkhan-Uul provinces’ administration offices during reconciliation period.
- “Bumbat”, “Childson”, “Sharin Gol”, “MGH”, “SBF” companies does not provided 2009 templates to EITI working group, but provided during reconciliation period.
- “Energy resource” LLC has reported by imposed amount in its initial template.
- In its initial template “Erven Khuder” LLC has reported penalty amount by tax inspection arose from non-payment of this amount on time. The adjustment was done by deducting.

2.2 License fee for exploitation and exploration of mineral resources

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
License fee for exploitation and exploration of mineral resources	(8,910,088)	9,082,332	9,082,332	-

The adjustments to the initial net differences for this item are as follows:

- Mineral Resource Authority has reported this fee in USD in the template, companies have reported paid fee in MNT converting at Mongol bank exchange rate in its templates – were done respective adjustments.
- When new owner-companies purchase or receive licences for exploitation and exploration from other companies and make licence fee payments by previous owner-company's name, not own, differences appeared - new owners payment amount is smaller than amount mentioned in information from MRAM. Therefore, respective adjustments were done based on detailed information received from both sides.
- "Adamas Mining", "Altain Khuder", "AUM", "Ankhai International", "Bayan Airag Exploration", "Bayan Erch", "Boroo Gold", "Beren Group", "Gatsuurt", "Govi Coal and Energy", "Datsan Trade", "Kommod", "Centerra Gold", "Sonor Trade" companies have reported all payments in USD template converting to MNT. Adjustments were done based on detailed information received from both sides. Differences appeared due to adding "payment in USD" row at government side and reporting in USD.
- Net differences appeared due to non-submission of its templates to EITI working group by "Anian Resources", "Bumbat", "Mongol Gazar", "Mongol Tsamkhag", "Western Prospector Group" companies. Adjustments were done due to receipt of templates during conciliation period.
- "Bold Tumor Eruu Gol" LLC has reported in MNT in its initial template, which was confirmed by the detailed information. USD21,090 payment was understated from government side, therefore the adjustment was done by adding to government side.
- "Bulgangangat", "Berkh Uul" companies have reported wrongly or overstating in its initial templates, which were indicated also in detailed information. Therefore, adjustments were done by deducting from company side.
- "Burgent" LLC has reported wrongly or understating in its initial templates, which was indicated also in detailed information. Therefore, adjustment was done by adding to company side.
- "Southgovi Sands" LLC has reported MNT3,121,954 thousand for payment of this fee in its initial template, where the company included 4010X, 4012X licences fees owned by "Ivanhoe Mines Mongolia Inc." LLC. Therefore, adjustment was done by deducting MNT433,462 thousand. The adjustment was done by adding MNT1,551,551 thousand to government side because MRAM overstated received payment in its detailed information.
- In its detailed information "Kojigovi" LLC has reported licence fee amount of MNT217,045 thousand including service fee. Respective adjustment was done by separation of licence fee MNT192,729 thousand and service fee MNT24,316 thousand based on MRAM's information.
- Net difference of MNT1,116,814 thousand appeared due to conversion of USD payments to MNT by "Monenco" LLC. But difference appeared although adjustment was done based on MRAM and the company detailed information. To solve this discrepancy we found from MRAM that the company's detailed information shows that licences 7560x, 7559x are owned by "MOOICO" LLC, licence 11515x is not registered by the company's name at MRAM. Therefore, MNT519,608 thousand adjustments were done at both sides.

2.3 License fee for exploitation and exploration of mineral resources /in USD/

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
License fee for exploitation and exploration of mineral resources /in USD/	4,993,390	2,399,427	2,399,427	-

- The MRAM has reported his fee in USD, while most companies reported in MNT.

2.4 Reimbursement of deposit, exploration of which is carried out by the budget fund

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Reimbursement of deposit, exploration of which is carried out by the budget fund	358,941	1,762,518	1,762,518	-

The adjustments to the initial net differences for this item are as follows:

- Was done adjustment of difference raised during first reconciliation due to “Bayan Erch” LLC’s payments in USD, but reporting in MNT.
“Dongseng” LLC has reported double payment of production share agreement to MRAM, which was recognized by the company. Therefore, the adjustment was done by deduction.
- MNT98,271 thousand appeared due to non-submission of 2009 template to EITI working group by “Ikh Tokhoirol” LLC. The adjustment was done by adding to company side based on detailed information received from the company.
- MRAM has not reported receipt of this payment from “Tunsin” and “Erdes Holding” companies, “Tavan Tolgoi” and “Shanlun” companies have not reported payment of this fee in its initial templates.
- “Sharin Gol” JSC has not provided 2009 template to EITI working group. Adjustment was done based on receipt of the template during reconciliation period.
- “Shin Shin” LLC has overstated in its initial template, which was confirmed by detailed information received during reconciliation period. Respective adjustment was done by deduction.
- “Erel” LLC has understated in its initial template, which was confirmed by detailed information received during conciliation period.

2.5 Land rent

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Land fee	(11,302,525)	12,057,815	12,057,815	-

The adjustments to the initial net differences for land rent are as follows:

- “Adil Och” LLC has overstated by MNT576 thousand, “Bayalag Jonsh” LLC overstated by MNT160 thousand, which were recognized by companies. Therefore respective adjustments were done.
- Net difference appeared due to non-submission of 2009 template to EITI working group by “AFK Tavt”. The difference was solved by adding to the company side based on information from the company.
- “Bulgangangat” LLC has understated by MNT500 thousand, “Dun-Erdene” LLC - MNT1,000 thousand in its template, which was confirmed by detailed information received from the company. The adjustment was done by adding. Also MTA has not reported MNT2,960 thousand received from “Bulgangangat” LLC. The adjustment was done by adding to MTA side based on confirmation from Tuv province administration office, where this payment was done to.
- “Dongseng” LLC made payment to Petroleum Authority and reported USD payments in MNT in EITI template. The adjustment was done by deduction of MNT23,945 thousand at the company side. This difference arose due to conversion of MNT to USD using different exchange rates. The difference of USD53,210 was solved by adjusting at government’s side.

- Petroleum Authority has not reported MNT365,440 thousand payment from “Petro China Dachin Tamsag” LLC in its initial template. The adjustment was done based on detailed information received during reconciliation period.
- MTA has not reported in its initial template payment from “Erdenet Mining Corporation” LLC made to Orkhon province. The difference was solved based on confirmation received from Orkhon province during reconciliation period. MNT8,170,000 thousand of this payment was solved by cash and MNT2,012,763 thousand – by power plant’s loss.

MTA has not reported payments from following companies paid to province, capital city, soum, district land and tax offices in its initial template:

2.7 Fee for forestry use and firewood

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Fee for forestry use and firewood	(4,648)	4,389	4,389	-

The adjustments to the initial net differences for fee for forestry use and firewood are as follows:

- MTA has not reported payments from “Erdes Holding” LLC in its initial template. The adjustment was done based on detailed information received from Selenge province.
- “AFC Tavt” LLC has not provided 2009 template to EITE working group. The adjustment was done based on the template received during reconciliation period.
- “Gatsuurt” LLC has reported wrong amount in its initial template, which was confirmed by the company’s recognition. The adjustment was done by deduction from company side.
- We received from “Zubgol” LLC supporting document for MNT1,500 thousand, which is mentioned in the initial template. According to the supporting document, payment for logs was transferred to individual’s account, however, the adjustment was one by deduction from the company side.

2.8 Fee for recruiting foreign experts and workers

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Fee for recruiting foreign experts and workers	(757,202)	4,208,271	4,210,251	(1,980)

2.8 Fee for recruiting foreign expert and workers

The adjustments to the initial net differences for fee for recruiting foreign expert and workers are as follows:

- Companies mostly report and include service charge, invitation, price of employee identification, determination fee etc. into this fee.
- In its initial templates “Ivanhoe Mines Mongolia Inc.” (Oyu Tolgoi), “Petro China Dachin Tamsag”, “Shanlun” companies have reported in this fee repaid amounts from LWSA for working places of workers left the country before visa expiration. Also LWSA has understated payment from “Ivanhoe Mines Mongolia Inc.” (Oyu Tolgoi) LLC. The adjustment was done by indicating in the detailed information received during reconciliation period.
- “AUM” LLC has confirmed twice an amount in its initial template. Adjustment was done by deduction MNT3,217 from government side.
- “Boroo Gold”, “Govi Coal and Energy” companies have included fees and service charges in its initial template. Therefore, adjustment was done by deduction based on company detailed information received during reconciliation period.
- “Zuriin Bulan” LLC paid MNT45,086 thousand to Khongor soum administration of Darkha-Uul province. Difference arose from non-reconciliation of this amount in database. The adjustment was done by adding to the government side based on receipt of confirmation from the local administration.
- Net difference arose from reporting of MNT39,866 thousand by “Ikh Mongol Mining” LLC. During our inspection at the company, we found that salary to foreign worker was included. Therefore, the adjustment was done by deduction.
- Adjustment was done for “Kojigovi” LLC difference based on detailed information from LWSA.
- LWSA has understated payments from “Mongolin Alt Corporation”, “Flink Mongolia”, “Shin Shin”, “Erel” companies in its initial template. Additions were made to received detailed information.
- LWSA has not reported payment from “Tsairt Mineral” LLC paid to Sukhbaatar province in its initial template. The adjustment was done based on confirmation from administration of Sukhbaatar province during reconciliation period.
- “Berkh Uul”, “Energy Resource” companies have not reported payments in its templates. Paid amounts were received by detailed information.
- “Bumbat”, “Emeelt Mines”, “Erdene Mongol” companies have not submitted 2009 templates to EITI working group. Adjustments were done based on templates and detailed information received during reconciliation period.
- “Shijir Alt” LLC has overstated by MNT15,676 thousand in its initial template. The adjustment was done based on information received from LWSA.

2.9 Fee for use of mineral resources of widespread deposit

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Fee for use of mineral resources of widespread deposit	(982,645)	1,050,223	1,050,223	-

The adjustments to the initial net differences for this item are as follows:

- “Aduunchuluun” LLC has confirmed understated reporting. The adjustment was done by adding.
- “Gatsuurt” LLC has confirmed wrong reporting of the amount in its initial template. The adjustment was done by deduction.

- “Uuls Zaamar” LLC has included royalty fee into this fee in its initial template.
- “Shin Shin”, “Tsairt Mineral” companies have overstated this fee in its initial templates. Adjustments were done based on detailed information received from companies during reconciliation period.
- MTA has not reported received payment from “Energy Resource” LLC in its initial template. The adjustment was done based on confirmation received from administration of Umnugovi province.

3. Charges and service charges

The differences in the fees and service charges section of the initial templates, together with the adjustments made to figures provided by Government entities and companies as a result of the reconciliation exercise, are as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
3.1 Stamp and other charge for state registration paid to state and local administration in accordance with relevant law	(313,445)	161,666	163,787	(2,121)
3.2 Service charges paid to state and local administration in accordance with relevant law	(562,175)	779,678	779,678	-
3.3 Custom service fee	1,281,913	10,303,301	10,303,301	-
Нийт	406,294	11,244,645	11,246,765	(2,121)

		Government entities	Companies	
		MNT 000	MNT 000	
Stamp and other charge for state registration paid to state and local administration in accordance with relevant law	(313,445)	161,666	163,787	(2,121)

b. Service charges paid to state and local administration in accordance with relevant law

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Service charges paid to state and local administration in accordance with relevant law	(562,175)	779,678	779,678	-

The adjustments to the initial net differences for fees and service charges are as follows:

- “Ivanhoe Mines Mongolia Inc.” /Oyu Tolgoi/ LLC has understated fees and service charges in its initial template, which was confirmed by detailed information received from the company during reconciliation period. Adjustment was done based on detailed information received from MOFA, NSAM, LWSA, MIA, MRA during reconciliation period. Also, the company has reported double licence fee in fee, service charges, which was confirmed by the company’s written explanation. The adjustment was done by deduction from the company side.
- “Areva Mongol”, “AUM”, “Centerra Gold” companies has confirmed by detailed information that they reported wrong amounts in its initial templates. Respective adjustments were done by deduction.
- MNT11,794 thousand difference arose because the government has not reported “Boroo Gold” LLC’s paid fees and service charges. According to the company’s detailed information on fees and service charges payments, the company included fees payments to NGOs and one time road fee less than physical level. The adjustment was done by deducting these payments.
- Differences arose because “Buurgent”, “Gatsuurt”, “Datsan Trade” companies have reported paid service charges to Water Agency. Adjustments were done by adding to the government side based on confirmation from Water Agency.
- The net difference arose in its template due to “Bold Tumor Eruu Gol” LLC’s inclusion of service charges amounting MNT82,803 thousand paid to LWSA, MIA, MOFA. The adjustment was done for the government side based on confirmations from these organizations.
- The net difference arose due to “Buurgent” LLC’s inclusion of service charge for determination of purity amounting MNT1,482 thousand paid to NSC. The adjustment was done by adding to the government side based on confirmation from this organization.
- “Govi Coal and Energy” LLC has included service charge paid to NGO in its template, which was confirmed by detailed information. The adjustment was done by deduction of MNT2,542 thousand from the company side. Remaining difference of MNT155 thousand was solved based on confirmation received from LWSA.
- “Petro China Dachin Tamsag” LLC has reported paid fees amount in its initial template, which was not confirmed by detailed information. Therefore, the adjustment was done by deduction.
- The adjustment of the amount reported by “Chin Hua MAK Nariin Sukhait” LLC in its initial template was done based on detailed information received from LWSA, SPIA, MIA, IAACM.

c. Custom service fee

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Custom service fee	1,281,913	10,303,301	10,303,301	-

The adjustments to the initial net differences for this item are as follows:

- Companies mostly reported their customs service charges under customs taxes.
- The adjustment was done by adding MNT63 thousand to “Aduunchuluun” LLC side based on detailed information received from the company.
- The adjustment was done by adding customs service fee of MNT860 thousand to “Altain Khuder” LLC side based on information received from the Customs Office.
- “The difference of MNT2,362,723 thousand arose due to understatement of customs service fees by “Southgovi Sands” LLC in its 2009 template. The adjustment was done by adding MNT2,561,996

thousand to the company side based on list of company paid customs service fees in 2009 received from Gashuun Sukhait and Shivee Khuren ports of Umnugovi province.

4. Dividends on state and local property

The following are adjustments for discrepancies that are raised from consolidation dividends on state and local property item in reporting template of government entities and companies are as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
4.1 Dividends on state property	(95,105,381)	104,095,313	104,095,313	-
4.2 Dividends on local property	(76,364)	-	-	-
Нийт	(95,181,745)	104,095,313	104,095,313	-

a. Dividends on state property

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Dividends on state property	(95,105,381)	104,095,313	104,095,313	-

The adjustment to the discrepancy for dividends on state property is:

- “Dividends on state property” received from “Erdenet Mining Corporation” LLC is not stated in the initial reports received from Mongolian Taxation Authority. As per Annex of Government resolution #80 issued in 2007, there were given directives to Mongolian Taxation Authority that dividends on state property every state property entity must be reported according to the items stated in the annex. However, these items were not reported to the Mongolian Taxation Authority, thus discrepancies occurred. During preparation of consolidated report the adjustment dividends on state property is made based on the disclosure from Treasury department of Ministry of Finance.

b. Dividends on local property

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities MNT 000	Companies MNT 000	
Dividends on local property	(76,364)	-	-	-

- “Shijir alt” LLC has reported to have paid dividends for shareholder, which is deducted per adjustment.

5. Other payments to recipient government

Discrepancies from initial received templates from companies and government entities for item “Other payments recipient Government” and as a result of consolidation are adjusted as follows:

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
5.1 Entitlement under Production Sharing Contract with the government	(27,287,921)	25,014,733	25,014,733	-
5.2 Other	(143,736,134)	144,513,426	144,513,426	-
Нийт	(171,024,055)	169,528,159	169,528,159	-

a. Entitlement under Production Sharing Contract with the government

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Entitlement under Production Sharing Contract with the government	(27,287,921)	25,014,733	25,014,733	-

Adjustments for item “Entitlement under production sharing contract to Government” of payments made to Government is:

- The discrepancy of 9,154,229 thousand MNT is occurred when “Dongseng” LLC reported in EITI report, but Government report template had not included in it. Per confirmation by Petroleum Authority of Mongolia, the amount of 6,881,041 USD is added to Government report and as a result 2,273,188 MNT were deducted to report in dollar amount and discrepancy was adjusted in company reporting. (Since the expression in MNT, it resulted changes due to currency exchange rate)
- “Petro China Dachin Tamsag” LLC did not indicate in the report payment item for “Entitlement under production sharing contract to Government” payable to Petroleum Authority of Mongolia resulted discrepancy. This discrepancy was adjusted per receipt of extensive information confirmation. This discrepancy still remains every year due to unclear procedure explanation.

b. Other

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Other	(143,736,134)	144,513,426	144,513,426	-

The initial reporting template received from “Ivanhoe Mines Mongolia Inc” LLC states purchase of government bonds with value of 143.4 billion MNT. However, Government reporting template did not mention about receiving this item, which resulted occurring big discrepancy. During consolidation, based on the receipt of information from Treasury department of Ministry of Finance and Notes #65 of Government meeting held on 21st October, 2009 led to adjusting this item on the template received from government. Also, the Mongolian EITI working group meeting held on 29th April, 2011 discussed this item for consolidating in the report and working group members sought to include this payment in the consolidated report.

6. Donations to Governmental organizations

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
6.1 Monetary donation from companies to ministries and agencies	(233,080)	267,564	279,264	(11,700)

6.3 Monetary donation from companies to soums	(368,692)	1,537,964	1,543,334	(5,370)
6.4 Monetary donation from companies to local organizations	(362,372)	193,487	194,363	(875)
6.5 Funds disbursed by company in sustainable development and community relations	(556,138)	3,151,810	3,155,623	(3,813)
Нийт	(1,764,058)	6,802,587	6,824,346	(21,759)

a. Monetary donation from companies to ministries and agencies

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Monetary donation from companies to ministries and agencies	(233,080)	267,564	279,264	(11,700)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- According to the directives stated in the Annex of Government resolution #80, all donations to Governor's Administration of soums and districts must file reporting on all receipts of taxes, payments, service charges, monetary support and tangible item support received from mining exploration license holders by every company as indicated in the EITI reporting templates. And in turn these are required to be reported to the Governor's Administration of aimag and Capital Governor's Administration, and Governor's Administration of aimag and Capital Governor's Administration in turn must report to Mongolian Taxation Authority for consolidation. This without proper reporting all discrepancies incurred in companies.
- "Bold tumor eruu gol" LLC has reported donating 33,218 thousand MNT to ministries and agencies, whereas government reporting template indicates only 22,218 thousand MNT. However, per receipt of detailed report from "Bold tumor eruu gol" LLC the donation made to NGO called as "Mongolian Society of Economic Geologists" was misreported thus the adjustment is made on the company reporting template.
- "Boroo Gold" LLC has reported donating 35,815 thousand MNT to ministries and agencies, whereas government reporting template indicates only 12,500 thousand MNT. However, per receipt of detailed report from "Boroo Gold" LLC the donations made to NGO's such as "Culture and poetry academy" and "Mongolian Society of Economic Geologists" were reported as donations to ministries and agencies and these items were adjusted accordingly. The donation of 500 thousand MNT paid to National center for Standard and measurement were clarified upon sending notice and added per adjustment.
- "Mongolrustsvetmet" LLC has reported in detailed reporting template that have made donations to Ministry of Mineral Resources and Energy, Embassy of Mongolia in Russian Federation, Embassy of Russia in Mongolia and other entities. We have requested confirmation of these receipts by above mentioned

entities via sending verification letters upon which we clarified discrepancies and subsequently the adjustments were made. However, Embassy of Russia in Mongolia is not budget entity if Mongolia, thus item was adjusted as deduction to reporting.

- “Mongoliin alt corporation” LLC has reported in detailed reporting template that have made donations to Border division #0166 of Umnugobi aimag, Border division of Huder soum, Selenge aimag, Embassy of Mongolia in China, Border protection general board, Border division of Ovoot, Umnugobi aimag, General Police Authority, Border division of Shiveehiuren. We have requested confirmation of these receipts by above mentioned entities via sending verification letters upon which we clarified discrepancies and subsequently the adjustments were made.
- “Monpolimet” LLC has reported that donated 5,500 thousand MNT to Mineral Resources Authority of Mongolia, which was evidenced by related transactions and subsequently the adjustments were made in company reporting template.
- “Petro China Dachin Tamsag” LLC has reported in detailed reporting templates that have made donations to various entities. We have requested confirmation of these receipts by Ministry of Mineral Resources and Energy, Ministry of Labour and Social Welfare, Immigration service agency, Border protection general board via sending verification letters upon which we clarified discrepancies and subsequently the adjustments were made.
- “Olon ovoot gold” LLC and “Shijir talst” LLC have filed reporting of donations to NGO that were deducted and adjusted accordingly.
- “Urmun Uul” LLC and “Khurai” LLC were misclassified donations in initial reporting.
- “Ivanhoe Mines Mongolia Inc” LLC, “Chinhua MAK Nariin sukhait” LLC, “Shin Shin” LLC have reported in detailed reporting template that have made donations to Ministry of Mineral Resources and Energy and Immigration service agency, which were adjusted upon receipt of detailed reports from above mentioned agencies.
- “Erdenet Mining Corporation” LLC has reported in detailed reporting templates that have made donations to various entities such as Embassy of Mongolia in Russian Federation, Embassy of Mongolia in China, Ministry of Mineral Resources, Immigration service agency, Border division #0218. We have requested confirmation of these receipts by above mentioned entities via sending verification letters upon which discrepancies were clarified and subsequently the adjustments were made. However, Embassy of Russia in Mongolia is not budget entity if Mongolia, thus this item was adjusted as deduction to reporting.

b. Monetary donation from companies to aimags

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Monetary donation from companies to aimags	(243,777)	1,651,762	1,651,762	-

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- “Aduunchuluun” LLC has reported that have made donation to aimag development fund of 3,000 thousand MNT. We have sent verification letter and upon receipt of reply the adjustments were made.
- “Bayan erch” LLC has reported that have made donation to Sukhbaatar aimag; verification letter sent to Sukhbaatar aimag and upon receipt of reply the adjustments were made.
- “Bold tumor eruu gol” LLC has overreported the donation, but upon receipt of detailed reporting templates the overreporting was deducted and adjusted. The donation was made to Selenge aimag Governor’s office and adjustment is made.
- “Boroo gold” LLC has reported that donation made to aimag and soums were reported under in payments “Sustainable development and community relations” that were adjusted in company report

template accordingly. In detailed reporting template received from company it was reported that donations made to Selenge, Tuv, Darkhan–Uul aimags, which were clarified upon sending clarification letter to above stated aimags and adjusted under government reporting template.

- “Buurgent” LLC has reported that made donation amounting 1,500 thousand MNT to account “Atar-50” of Selenge aimag, which was clarified upon sending clarification letter to Selenge aimag Governor’s office, but it was replied no money was transacted to this account, thus adjusted was made in company reporting template.
- “Beren Group” LLC has reported that made donation amounting 10,000 thousand MNT to Arkhangai aimag community council, which was clarified upon sending clarification letter to Arkhangai aimag Governor’s office. The reply received from Arkhangai aimag Governor’s office stated “aimag community council is NGO, thus we don’t have such information”. Consequently this statement of 10,000 thousand MNT is adjusted under company reporting template. The government reporting template stated the receipt of 2,000 thousand MNT as donation to ministries and agencies, subsequently the receipt is classified accordingly.
- “Govi coal and energy” LLC has reported in detailed initial reporting template that have made donations amounting 3,831 thousand MNT to various NGOs such as association, fund and individual, which were adjusted accordingly in company reporting template. The company is engaged in exploration in Govi – Altai and Bayankhongor aimags, thus majority of donations are made to local communities. Upon sending clarification letter to above stated aimags Governor’s offices detailed reports were received.
- “Gurvan tukhum” LLC has reported that made donation to Red Cross of Sergelen soum, Tuv aimag and herders amounting 100 thousand MNT, however these donations are not that donation made to government organization, thus adjustments were made on company reporting template.
- “Datsan Trade” LLC has reported in detailed initial reporting template that have made donation amounting 558 thousand MNT to Inspection Authority of Uvs aimag, which was clarified upon sending clarification letter to above stated entity and adjusted under government reporting template. Also, it was reported that 200 thousand MNT were donated to Student’s association, and since Student’s association government organization, thus adjustments were made on company reporting template.
- “Dongseng” LLC has reported in detailed initial reporting template that have made donation amounting 35,500 thousand MNT to Police office, Aimag development fund, Children palace of Dornogobi aimag. However, per clarification it was under reported and 5,500 thousand MNT were added and adjusted on company reporting template. Per above stated information clarification letter to Dornogobi Aimag Governor’s administration was sent and adjustment of 35,500 thousand MNT is made on government reporting template.
- “Jump” LLC has reported in detailed initial reporting template that have made donation amounting 10,000 thousand MNT and upon receipt of initial receipts adjustments are made consequently.
- “Commod” LLC has reported in reporting template that have made donation amounting 5,000 thousand MNT to Children palace of Dornogobi aimag, 2,000 thousand MNT to Soum development fund of Erdene soum Governor’s office. Upon receipt of reply adjustments are made consequently.
- “MONENCO” LLC has reported in detailed initial reporting template that have made donation of 169,999 thousand MNT to soum, but made via “Sutain Khishigten Suld” Fund throughout 2009, donation of 47,426 thousand MNT to jubilee and anniversary events, donation of 159,033 thousand MNT to citizens of Hushuut bag for coal distribution, donation of 48,138 thousand MNT to community and state. Also, donation of 2,000 thousand MNT to Altai soum development fund of Gobi-Altai aimag, 100thousand MNT to hospital of Must soum, Khovd aimag were considered as acceptable, but donation made via “Sutain Khishigten Suld” Fund were deducted and subsequent adjustment is made.
- “Tavan tolgoi” JSC, “Urmun Uul” LLC, “KHOTU” LLC, “Chinhua MAK Nariin sukhait” LLC and “Shin Shin” LLC were misreported donations in initial company reporting.
- “Tsairt mineral” LLC, “Erdenet mining Corporation” LLC are underreported donation in initial reporting templates, that were discovered during consolidation process and adjustments were made per receipt of detailed reporting templates.
- “Erdene Mongol” LLC has reported in detailed initial reporting template that have made donation to Governor’s administration of Bayankhongor and Govi-Altai aimags. Upon sending clarification letter to above stated aimags Governor’s offices detailed reports were received.
- “Erdenet mining Corporation” LLC has reported in reporting template that made donation to creating Buddha god’s reprisal monument. The organization of Khalkhiin Gol’s 70 year’s anniversary celebration

committee opened account in Khan bank and spent. These spending are not classified as budget entity spending thus were deducted and adjusted.

Following aimags are not reported supports and donations received from mining companies in government reporting template:

- Arkhangai
- Bayan-Ulgii
- Bayankhongor
- Bulgan
- Govi-Altai
- Dornogobi
- Dundgobi
- Zavkhan
- Orkhan
- Uvurkhangai
- Selenge
- Tuv
- Uvs
- Khovd
- Khentii

c. Monetary donation from companies to soums

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Monetary donation from companies to soums	(368,692)	1,537,964	1,543,334	(5,370)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- Khanbogd, Bayan-Ovoo, Khurmen, Nomgon, Tsogttsetsii soums of Umnugovi aimag reported to have received donations from “Ivanhoe mines Mongolia Inc” LLC /Ouy Tolgoi per verification letter, subsequently adjustments are made.
- “Bayan Airag Exploration” LLC has reported in detailed initial reporting template that have made donation of 3,000 thousand MNT that is clarified and adjusted to company reporting template.
- “Bold tumor eroo gol” LLC has reported in detailed initial reporting template that have made donation of 183 million MNT, whereas in government reporting template it was indicated 150 million MNT, which resulted in initial discrepancy. Per further clarification 150 million MNT were donated to Bayangol, Eroo, Javkhant, Shaamar soums of Selenge aimag, thus overreporting were adjusted.
- “Boroo gold” LLC has reported that have made donation to Bayangol, Mandal, Tunkhel soums of Selenge aimag and Bornuur soum of Tuv aimag; per further clarification soums confirmed the receipt and adjustment for discrepancy were made.
- “Buurgent” LLC has reported that made donation amounting 1,000 thousand MNT to account “Atar-50” of Selenge aimag, which was clarified upon sending clarification letter to Selenge aimag Governor’s office, but it was replied no money was transacted to this account, thus discrepancy was adjusted in company reporting template.

- “Gatsuurt” LLC has reported that made donation amounting 22,000 million MNT to Tsagaannuur soum of Selenge aimag; per further clarification soum confirmed the receipt and adjustment for discrepancy were made.
- “Commod” LLC has reported in detailed reporting template that have made donation of 5,000 thousand MNT, per clarification the discrepancy adjusted on company reporting template.
- “Mongolrustsvetmet” LLC has reported in detailed reporting template that have made donation to Governor’s offices of Erdenetsogt soum of Bayanhongor soum, Zaamar soum of Tuv aimag; per clarification the discrepancy adjustment are made.
- “Mongoliin Alt Corporation” LLC reported to have made donation to Governor’s offices of Gurvantes soum of Umnugovi aimag, Dalanjargalan soum of Dornogovi aimag, Bayantumen soum of Dornod aimag, Bayan soum of Tuv aimag, the clarification has confirmed above receipts thus discrepancies are adjusted.
- “Petro China Dachin Tamsag” LLC reported to have made donation to Governor’s offices of Zaamar soum of Tuv aimag, Erdenetsogt soum of Bayankhongor aimag, the clarification has confirmed above receipts thus discrepancies are adjusted.
- “KHOTU” LLC has underreported initial company reporting template. There is a donation made to soum development fund that was confirmed Governor’s office of Zaamar soum of Tuv aimag, thus discrepancy is adjusted.
- Per verification letter Dadal soum of Khentii aimag reported to have received donation form “Erdenet mining corporation” LLC and subsequently adjustments are made.

d. Monetary donation from companies to local organizations

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Monetary donation from companies to local organizations	(362,372)	193,487	194,363	(875)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- The monetary donations to Health center of Khanbogd soum, Secondary school of Khurmen soum of Umnugobi aimag were clarified and confirmations were received from “Ivanhoe Mines Mongolia Inc” LLC/Ouy tolgoi/, upon which discrepancies were adjusted.
- The monetary donation from “Boroo Gold” LLC amounting 5,000 thousand MNT were given Immigration service agency, other reported donation were given to NGO and individuals which resulted in adjusting.
- In the initial company reporting of “Mongoliin Alt Corporation” LLC monetary donations to association and individuals were eliminated and adjusted subsequently.
- “Olon Ovoot Gold” LLC has overreported donation amount which was discovered during consolidation and was confirmed in detailed company reporting.
- “Tsairt mineral” LLC misclassified in the initial company reporting donations.
- Governor’s administrations of Tsogettsetsii, Nomgon, Mandal-ovoo soums of Umnugovi aimag confirmed receipt of monetary donation from “Energy recourse” LLC, consequently discrepancy adjustments are made.
- Border division of Selenge aimag, Unified hospital and Police office of Orkhon aimag have confirmed in detailed reporting regarding the receipt of monetary donation from “Erdenet Mining Corporation” LLC and adjustments are made subsequently.

e. Funds disbursed by company in sustainable development and community relations

		Government entities	Companies	
		MNT 000	MNT 000	
Funds disbursed by company in sustainable development and community relations	(556,138)	3,151,810	3,155,623	(3,813)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- “Ivanhoe Mines Mongolia Inc” LLC/Ouy tolgoi/, had made monetary donation for scholarship program for students, improving working condition livelihood of doctors and teachers from remote area reported under sustainable development and community relations. These payments were adjusted per receipt of confirmation from Governor’s administration.
- “Altai Gold” LLC had reported donating 7,756 thousand MNT to private college that were adjusted on company reporting template.
- “AUM” LLC had reported donating 20,000 thousand MNT to Uyanga soum of Uvurkhangai aimag; clarification letter sent to Governor’s office upon the receipt reply of the discrepancy was adjusted on government reporting template.
- “Boroo gold” LLC had reported donations under this classification, however these donation were made to aimag and soum, which were reclassified.
- “Gurvan tukhum” LLC has reported to donate 300 thousand MNT to Mongolian Society of Economic Geologists, however the recipient entity is non governmental organization, thus discrepancy was adjusted on company reporting template.
- “Kojigovi” had reported donating LLC 166,443 thousand MNT: of which 26,565 thousand MNT deducted since it was donated to French nuns, and remaining 139,878 thousand MNT were confirmed Dornogovi and Sukhbaatar aimag letter. Thus discrepancy is adjusted consequently.
- “Mongoliin Alt corporation” LLC, “KHOTU” LLC, “Khurai” LLC, “Tsairt Mineral” LLC are reported monetary donation misproperly. Governor’s administration of Dornogovi aimag confirmed the receipt of 3,000 thousand MNT from “Mongoliin Alt corporation” LLC for soum development fund.
- “Olon Ovoot Gold” LLC had reported student tuition fee, however these donations were given to individuals, and thus the discrepancy was adjusted on company reporting template.
- Governor’s administrations of Khurmen, Bayan-Ovoo, Tsogttsetsii, Noyon, Gurvantes, Manlai, Bayandalai soums of Umnugovi aimag have confirmed the receipt of donation from “Polo resources” LLC, upon which discrepancies were adjusted on company reporting template.
- Governor’s administration of Bor-Undur soum of Khentii aimag has confirmed the receipt of donation from “Tunsini” LLC which was adjusted.
- Governor’s administration of Tsogttsetsii Umnugovi aimag has confirmed the receipt of donation from “Energy Resource” LLC. The donation is being used for the construction of airport in the soum. Also, soum’s Electro heating station is donated coal.
- “Erdenet Mining Corporation” LLC has stated in the detailed company reporting template that have donated for improving and refurbishing sewerage system for Governor’s administration of Orkhon aimag. This donation was clarified and per receipt of confirmation discrepancies were adjusted on company reporting template.

7. Expenditure for environmental protection

		MNT 000	MNT 000	
7.1 50% contribution in kind to environmental protection special account	(347,939)	306,410	338,161	(31,751)
7.2 Expenditure incurred in relation to environmental protection	1,689,223	6,631,767	6,632,317	(550)
Нийт	1,341,284	6,938,178	6,970,478	(32,301)

a. 50% contribution in kind to environmental protection special account

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
50% contribution in kind to environmental protection special account	(347,939)	306,410	338,161	(31,751)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- “Aduunchuluun” LLC had reported in detailed reporting template to have donated 844 thousand MNT, “AUM” LLC 7,735 thousand MNT, “Berkh Uul” LLC 9,100 thousand MNT, “G and U gold” 3,000 thousand MNT, all these payment were verified and were adjusted on company reporting template.
- “Ivanhoe Mines Mongolia Inc” LLC/Ouy tolgoi/ LLC, “Guravt” LLC, “Mongolrustsvetmet” LLC, “Mongoliin alt Corporation” LLC, “KHOTU” LLC, “Erven khuder” LLC have included under this item payments that were made in previous reporting periods and for next reporting year, and these discrepancies were eliminated and adjusted accordingly.
- “Burgent” LLC reported under this item 2,500 thousand MNT, “Gatsuurt” LLC 11,700 thousand MNT, “Dun-Erdene” LLV 2,000 thousand MNT, but these payments were not verified thus were adjusted on company reporting template.
- “Boroo gold” LLC had reported payments made in 2010 and evidenced by detailed reporting, thus 44,200 thousand MNT were adjusted on company reporting template.
- “Monpolimet” LLC had provided evidence on paying 2,000 thousand MNT on 15th of April, 2009 to Ministry of Environment and tourism, thus adjustment is made on company reporting template.
- “Olon ovoot gold” LLC have included under this item payment that was made in previous reporting periods, thus these discrepancies were eliminated and adjusted accordingly. Also, the “X” license fee paid to Governor’s office of Mandal-Ovoo soum of Umnugovi aimag is not stated, so verification letter sent to Governor’s office. Per receipt of reply fro Governor’s office adjustment is made.
- “Erdenet Mining Corporation” LLC is overreported this category of payment, which was confirmed by detailed report, subsequently company reporting template is adjusted.

b. Expenditure incurred in relation to environmental protection

Section	Initial Differences (net) MNT 000	Adjustments made		Unresolved Differences (net) MNT 000
		Government entities	Companies	
		MNT 000	MNT 000	
Expenditure incurred in relation to environmental protection	1,689,223	6,631,767	6,632,317	(550)

The adjustments to initial discrepancies of this item are based on following reasoning basis findings:

- Expenditures incurred for company in relation to environmental protection are reported to Natural Resource department of Ministry of environment and tourism by template “Environmental protection work performance” and Template #2 of EITI, thus company is low, whilst government reporting is high. In particular, template “Environmental protection work performance” is filled in by geologist who elevates the payment due to this environment restoration fee, which is inflated sum. This number is even higher than numbers given from Ministry of environment and tourism to Mongolian Taxation Authority. In the contrary accountant fills in EITI template according to the financial statements. This is the main reason why there is huge difference between company and government numbers every year.
- “Aduunchuluun” LLC had reported in detailed reporting 6,720 thousand MNT, “Gatsuurt” LLC - 2,698,500 thousand MNT, “Donshen” LLC- 98,437 thousand MNT, “Monpolimet” LLC - 574,677 thousand MNT, “Shijir alt” LLC - 997,948 thousand MNT were paid and confirmed and subsequently company reporting template is adjusted.
- “Ivanhoe Mines Mongolia Inc” LLC/Ouy tolgoi/ LLC, “Khan shijir” LLC are reported under this item payments maid to customers.
- “Boroo gold” LLC had reported in real numbers, while during verification with Ministry of environment and tourism the discrepancy is incurred. The company accepted high number reporting to Ministry of environment and tourism, thus subsequently company reporting template is adjusted.
- “Berkh Uul” LLC had not report 53,880 thousand MNT in initial reporting, however after verification with Ministry of environment and tourism data the expenditures were misreported, subsequently company reporting template is adjusted.
- “AUM” LLC - 39,500 thousand MNT, “Bayan erch” LLC 5,548 thousand MNT, “Buurgent” LLC 52,462 thousand MNT, “Bulgangangat” LLC 1,000 thousand MNT were not verified by companies, thus company reporting template is adjusted.
- “Gurvan tukhum” LLC had verified expenditures of 9,730 thousand MNT and missing 4,360 thousand MNT were reconciled with Ministry of environment and tourism, thus government reporting template is adjusted.
- “Jump” LLC, “G and U gold” LLC are had not reported this item expenditure, however during consolidation these companies are reconciled with government reporting template is adjusted.
- Expenditures incurred in “Mongolchekhmetall” LLC in relation to environmental protection expenditures are adjusted based on the receipt of confirmation of following works that have been performed that are Statement notice for restoration works done for “Chuluun tsagaan deglii” mining, Statement notice from Tuv aimag Inspectiion authority, as a result company reporting template is adjusted. Tuv aimag Inspectiion authority had stated in its conclusion that in 2009 the area with total volume of 35,500 m3 were filled in by mountain dirt, and area of 1.74 hectares were restored, thus technical and biological restoration is performed in according to the duties in protecting environment.

- “Mongolrustsvetmet” LLC overreported this expenditure. During consolidation the discrepancy is adjusted.
- “Petro China Dachin Tamsag” LLC had misreported this expenditure, which was confirmed by detailed reporting template.
- “Urmun Uul” LLC submitted report in not rounded up number in thousands.
- “Southgovi Sands” LLC had submitted detailed report that included statement on accepting the preservice work by Governor of Gurvan tes soum of Umnugobi aimag on biological restoration. Also, statements on preservice work performance acceptance of restoration works for Khairt bulag, Hatsavch bulag and Khurshuutiin bulag were sent accordingly. Based on these statements and concluding remarks the discrepancies were adjusted on government reporting template.
- “Centerra Gold” LLC had submitted overstated report with higher amount, however this item was evidenced during consolidation. Also, supporting documents were presented and company reporting template is adjusted.
- “Tavan tolgoi” LLC, “Uuls noyon” LLC, “Tsairt Mineral” LLC, “Tsogt Onon” LLC, “Chinhua Mak Nariin Sukhait” LLC, “Shijir talst” LLC had submitted templates that did not had expenditure of this item of underreported, and during consolidation the discrepancies were adjusted.
- “Uyan gan” LLC had overreported ignition reporting template. During consolidation no additional information was provided in regard of this expenditure.
- “Bumbat” LLC, “Sharii Gol” JSC did not submit EITI reports for 2009, however the reconsilaitaion was made during consolidation and adjustments were made.
- “Shivee Ovoo” LLC, “Khangad exploration” LLC had misreported, which was reconciled during consolidation of EITI template ang geologist template.
- “Energy resource” LLC had initially reported this expenditure under 50% contributions in kind to environmental protection special account, which was adjusted accordingly.

B-1. "Adamas Mining" LLC

Brief introduction

"Adamas Mining" LLC, a subsidiary of Japanese Financial Planning and Research Company, has 50 licenses for several minerals exploration and mining. The Company is registered with the tax authority of Bayangol district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

Differences were occurred initially, however, we have adjusted after confirming by the MTA amount as well as by the Company's detailed information.

2. Fee for exploitation of mineral resources ("royalty fee")

The Company has provided with its detailed information accepting that the initial reporting was understated; we made the respective adjustment.

3. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

4. Fee for water use

After the Company's confirmation on fee paid to Bayannuur soum of Bayan-Ulgii aimag, we tried to confirm with the respective local; nevertheless, there was no reply, so, we could not resolve the difference. However, after reviewing with the MTA, we could confirm that the fees were paid.

5. Fee for use of mineral resources of widespread deposit

Since an amount of 19,162 thousand tugrug was not recorded in the Company's detailed information we made clarification on the phone and found that the amount was incorrectly stated. Therefore, we have resolved the difference.

6. Charges and service charges

The Company has provided its detailed information approving the payment recording, and we have confirmed with the MRAM and resolved the difference.

7. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

We have adjusted the amount since the amount was non-material amount that was donated once. We made the adjustment accordance of resolution issued on 24 June 2010 from the National Council Meeting for MEITI determining that the minimum amount to state the material amount for donation would be more than the monthly minimum labor amount.

Monetary donation from business entity to soums:

The Company has reported donations of 500 thousand tugrug to Bayanjargalan soum of Tuv aimag and 200 thousand tugrug to Nogoonnuur soum of Bayan-Ulgii aimag. We could not resolve the difference since the respective local governments have not replied to our confirmation letters.

8. In-kind contribution at rate of 50% to environmental special account

The Company has reported contributions of 100-200 thousand tugrug to each Environment Reserve Fund of soums of Uvs, Dundgovi, Bayan-Ulgii, Dornod, Bulgan, Tuv and Khentii aimags; and 1,500 thousand tugrug to MMRE. We have sent confirmation letters to respective locals, however, only received a reply from Khentii aimag and resolved the difference, for others could not resolve.

9. Costs disbursed for protection of the environment

We have adjusted and resolved the difference based on the Company's detailed information provided to us confirming its initial reporting amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 5 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 6 April 2011 and received additional information with necessary photocopies of some documents.

Summary:

Difference occurred due to non-reconciliation of donation given to locals at MTA, and in-kind contribution at rate of 50% to environmental special account at MOET.

B-2. "Adil Och" LLC

Brief introduction

"Adil Och" LLC extracts gold at Ulziit soum of Dundgovi aimag. And the Company is registered at tax department of Dundgovi aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources ("royalty fee")

The difference has occurred due to confirmation based on the detailed information. The Company has understated amount, so, we have reviewed again and resolved the difference.

2. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

3. Land rent and fee for water use

The difference was due to overstatement of the Company, we have made the respective confirmation and resolved difference.

4. Donations to Governmental organizations

Monetary donation from business entity to soums:

The Company has reported donation of 1,500 thousand tugrug given to Dundgovi aimag. We have resolved and adjusted after receiving a reply to our sent confirmation confirming the acceptance of the donation.

5. Costs disbursed for protection of the environment

The Company has shown in its detailed information total cost of 1,250 thousand tugrug of 1,000 seeds paid to MMRE. We have sent confirmation letter to respective local, however, have not received a reply, therefore the difference is not resolved.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 15 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 6 April 2011 and received additional information with necessary photocopies of some documents.

Summary:

Difference can not be resolved due to non-reconciliation, at the Government side, of the n-kind contribution at rate of 50% to environmental special account by the Company.

B-3. "Aduunchuluun" LLC

Brief introduction

"Aduunchuluun" LLC extracts coal at Kherlen soum of Dornod aimag. The Company is registered with the Tax authority of Dornod aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company's initial report has not included tax of 7,746 thousand tugrug, we have resolved the difference based on the Company's provided detailed information.

2. Tax on automobiles and self moving vehicles

The Company has overstated amount in its initial report, we have made the respective adjustment and resolved the difference based on the Company's provided detailed information.

3. Fee for exploitation of mineral resources ("royalty fee")

The difference of 3,270 thousand tugrug is occurred due to incorrect accounting entry made by the Government at 55,520 thousand tugrug while the Company has reported as 52,250 thousand tugrug initially. We have made the respective adjustment and resolved the difference by deducting the amount from the Government reported amount.

4. License fee for exploitation and exploration of mineral resources

The Company's initial report has not included tax of 631 thousand tugrug, we have resolved the difference based on the Company's provided detailed information.

5. Fee for use of mineral resources of widespread deposit

The Company has not reported any fee initially; however, we have resolved the difference based on the Company's provided detailed information.

6. Customs service charge

The Company has not reported any tax initially; however, we have resolved the difference based on the Company's provided detailed information.

7. Donations to Governmental organizations

Monetary donation from business entity to aimags:

The Company provided detailed information showing a donation given to development fund of Dornod aimag, we have sent an official letter to the local and received a reply so, resolved the difference.

8. In-kind contribution at rate of 50% to environmental special account

The Company has not reported any contribution initially; however, we have resolved the difference based on the Company's provided detailed information.

9. Costs disbursed for protection of the environment

The Company has not reported any cost initially; however, we have resolved the difference based on the Company's provided detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 19 February 2011 and received reply on 22 February 2011. We have made adjustment and resolved the difference based on the received detailed information.

Summary:

Discrepancies for this Company are all resolved.

B-4. "Ivanhoe Mines Mongolia Inc" LLC

Brief introduction

The Ivanhoe Mines Mongolia Inc LLC is a 100% Canadian invested company and exploits and explores gold and copper in Khanbogd soum of Umnugovi aimag which is one of the huge deposits of the world. The Ivanhoe Mines Inc LLC is registered with the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company reported its paid amount as understated on the initial report. We have adjusted the amount based on detailed information received during our reconciliation

2. Customs tax

The Company reported its paid amount as understated on the initial report. We have adjusted the amount based on detailed information received during our reconciliation.

3. Real estate tax

The Company reported its paid amount as overstated on the initial report. We have confirmed it based on detailed information received during our reconciliation.

4. Tax on automobiles and self moving vehicles

The Government and the Company reported the amount as understated on their initial reports. The difference was confirmed by their detailed information.

5. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments. Plus, the Company has overstated the amount while the Government understated, we confirmed based on the detailed information received both from the Company and the Government during our reconciliation.

6. Fee for recruiting foreign experts and workers

The Government reported the amount of 76,464 thousand MNT as understated in its initial report, while the Company has reported including refund amount for workers who went back to their country before their visa expiration.

7. Charge, service charges

We have adjusted the amounts due to disclosures received from Traffic Police, Ministry of Foreign Affairs, Standard and Measurement Agency, Labor and Benefit Service Agency and Foreign Citizenship Agency. The Company also has shown in its detailed information the service charge of 167,053 thousand MNT to MRAM, however, after our disclosure we confirmed that the MRAM received only 68,270 thousand MNT, the remaining 98,783 thousand MNT was adjusted based on an explanation, which the Company has included special license fee in its initial report, made by the Company.

8. Customs service fee

The Company has reported including VAT in Customs tax.

9. Other payments to recipient government

The Company has reported initially a purchase of the payable notes with cost of 143.4 billion tugrug. Nevertheless, a difference was occurred since the Government has not reported a receipt of this amount. We have adjusted according to the Government reporting based on information provided from State Fund Department of Ministry of Finance during the reconciliation, and also on Agenda #65 of the Parliament Meeting of Mongolia dated on 21 October 2009. And it was discussed and stated in the Work Group Meeting of the MEITI on 29 April 2011 and arranged to include this amount in the reconciliation report.

10. Donations to Governmental organizations

Monetary donation and supporting from business entity to ministries and agencies:

In order to confirm the monetary donation given to foreign citizenship agency, we have sent an official letter and received a reply that the donation was received by the agency; and adjusted and resolved the difference.

Monetary donation from business entity to aimag:

In order to confirm the monetary donation given to Governor's Office and Police Department of Umnugovi aimag, we have sent an official letter to Governor's Office and received a reply that the donations were received; and adjusted and resolved the differences.

Monetary donation from business entity to soums:

In order to confirm the monetary donations given to Governor's Offices of Manlai, Khanbogd, and Bayan-Ovoo soums of Umnugovi aimag; and adjusted and resolved the differences based on the replied information.

Monetary donation from business entity to local governments:

In order to confirm the monetary donations given to hospital of Khanbogd, and school of Khurmen soum; we have sent an official letters to respective soums and adjusted and resolved the differences based on the replied information.

Funds disbursed by company in sustainable development and community relations:

The Company provided with monetary donations to Governor's Office of Umnugovi aimag for programs on student's tuition fee and improvement on working conditions of doctors and teachers of far soums. These amounts were adjusted based on the information received from the Governor's Office.

11. In-kind contribution at rate of 50% to environmental special account

The Company has reported 50% contribution in-kind to environmental protection for the years 2007-2008 accumulated in the special account y transferring into year 2009 reporting. It lead to overstatement, therefore, we have adjusted the amount.

12. Costs disbursed for protection of the environment

The Company has recorded wage for research and analysis work, therefore, we have adjusted the amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts on 15 February 2011 and received satisfactory reply on 1 March 2011.

Summary:

There is no any unresolved difference.

B-5. "Almaz Group" LLC

Brief introduction

"Almaz group" LLC operates in gold extraction activity. The Company is registered at MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have sent an official letter to the Company and received reply and could resolve the difference.

2. Windfall tax

We have resolved the difference based on the Company information.

3. Fee for exploitation of mineral resources ("royalty fee")

We have resolved the difference based on the Company information.

4. Fee for exploitation of mineral resources ("royalty fee") /in USD/

We have resolved the difference based on the Company information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 9 April 2011 and received reply on 14 April 2011 via e-mail. We have spent quite long time of period to confirm the amount since the Company has sold its license, and it was difficult to contact with.

Summary:

Discrepancies for this Company are all resolved.

B-6. "Altai Gold" LLC

Brief introduction

"Altai gold" LLC operates in gold extraction activity at Tsenkher soum of Arkhangai aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Windfall tax

Difference was disclosed by the MTA and confirmed that the Company has overstated, therefore, we have made the respective adjustment.

2. Tax on automobiles and self moving vehicles

The Company provided its detailed information confirming the initial amount which is paid to tax authority of Sukhbaatar district. We have disclosed with the tax authority and received a reply and made the respective adjustment.

3. License fee for exploitation and exploration of mineral resources

The Company has provided us with detailed information that is different and caused another difference. Therefore, we have enquired again from the Company; however, the Company has agreed the MRAM amount, so the difference was resolved.

4. Land rent

The Company has provided with detailed information showing its payment to Arkhangai aimag, and we have enquired from, however, there was no reply. Finally, we have got information from the MTA and resolved the difference.

5. Fee for water use

The Company has provided with detailed information showing its incorrect statement; and the fee was paid to Arkhangai aimag, while we have enquired from the local, there was no reply. Finally, we have determined the receipt of the fee only after reviewing with the MTA information.

6. Fee for recruiting foreign experts and workers

LWSA /Government/ has reported and confirmed its receipt by its detailed information while the Company has not provided with information. However, after our several times of enquiry, the Company informed that the fee was not paid, so, the difference remains unsolved.

7. Charges and service charges

We have resolved the difference since the Company has confirmed its payment to MRAM in its detailed information, while, the MRAM confirms the receipt.

8. Donations to Governmental organizations

Monetary donation from business entity to soums:

The Company's detailed information has shown amount of 4,555 thousand tugrug as a donation to Tsenkher soum of Arkhangai aimag. We have resolved and adjusted after receiving a reply to our sent confirmation confirming the acceptance of the donation.

Funds disbursed by company in sustainable development and community relations:

The Company has stated its donation given to private school; we have adjusted the amount by deducting.

9. In-kind contribution at rate of 50% to environmental special account

Both the Company and the Government detailed information were different from their initial reporting's', however, we have made the respective adjustments and resolved the differences.

10. Costs disbursed for protection of the environment

The difference remains unresolved since only the MMRE provided its detailed information confirming the amount, while the Company has not reply to our confirmation letter.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with difference, so, sent the official letter again to the Company on 6 April 2011 and received additional information with necessary photocopies of some documents.

Summary:

Difference can not be resolved due to non-reconciliation, at the Government side, of the paid fees amounts given to locals, and not clear understanding of recording, at the Company side, the cost disbursed for protection of the environment by the Company. .

B-7. "Altain khuder" LLC

Brief introduction

"Altain khuder" LLC operates in extraction of iron concentrate at Tseel soum of Govi-Altai aimag. And the Company is registered at tax authority of Bayanzurkh district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

We have made an adjustment by deducting the VAT amount since the Company reported as inclusive.

2. Tax on automobiles and self moving vehicles

We have resolved the difference by deducting from the Company amount since the Company has provided its detailed information confirming that the initial report was overstated and/or incorrectly reported.

3. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

4. Land rent

The Company has confirmed its payment to Tseel soum of Govi-Altai through its detailed information, we have tried to get disclosure from the local, and however, there was no reply. Therefore, we have reviewed with the MTA and noticed that the fee was paid to the soum's account.

5. Fee for water use

The Company has confirmed its payment to Tseel soum of Govi-Altai through its detailed information, we have tried to get disclosure from the local, and however, there was no reply. Therefore, the difference is not resolved.

6. Fee for forestry use and firewood

The MTA has provided with its information confirming its reported amount, while the Company has no any information. When we clarify from the Company via phone, the reply of: "it seems our director has given from his own cash. And it is not recorded at the account", was given to us, therefore, we made the respective adjustment.

7. Customs tax

We have resolved the difference by deducting from the Company amounts based on the information of the General Customs Office.

8. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

Difference was not resolved since the Company has not provided with detailed information to confirm the amounts. We have resolved the difference by deducting from the Company's amount since the Company has replied via phone that it was not a donation.

9. Costs disbursed for protection of the environment

Difference could not be resolved since there was no reply from the local to our confirmation letter sent to the local to confirm the centralized 50% contribution at Environment Resource Fund of Tseel soum of Govi-Altai aimag.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 27 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 8 April 2011, however, has not received reply. Therefore, received some necessary information on the phone and photocopied the some documents.

Summary:

Difference can not be resolved due to non-confirmation, from the Government side, of fees paid to the locals.

B-8. “Anian resources” LLC

Brief introduction

“Anian resources” LLC operates in Shinejinst soum of Bayankhongor aimag. And the Company is registered at tax authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference is due to understatement of the Government and non-submission of the Company report. We have adjusted and resolved the difference based on the both the Company and the Government detailed information.

2. License fee for exploitation and exploration of mineral resources

The difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have sent an official letter to the Company and received reply and could resolve the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 19 February 2011 and received reply on 3 March 2011. We have made respective adjustments based on the detailed information, and resolved the difference.

Summary:

Discrepancies for this Company are all resolved.

B-9. “Ankhai international” LLC

Brief introduction

“Ankhai International” LLC operates in gold exploration activity at Bayanjargalan soum of Tuv aimag. And the Company is registered at MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

Both the Company and the Government detailed information could confirm only the initially reported amounts, could not resolve the difference. Therefore, we have enquired again from the Company and made clarification and found out that the year 2008 overpayment was not stated, and the Company has accepted this misreporting.

2. Tax on automobiles and self moving vehicles

Both the Company and the Government detailed information could confirm only the initially reported amounts, could not resolve the difference. Therefore, we have enquired again from the Company and made clarification and got explanation which explained that tax for machinery, which does not belong to the Company rather only used at the mine, could possibly paid under the Company’s name, so, we have made the respective adjustment.

3. Fee for exploitation of mineral resources (“royalty fee”)

Both the Company and the Government detailed information could confirm only the initially reported amounts, could not resolve the difference. Therefore, we have enquired again from the Company and made clarification and found out that the fee was paid on 31 December 2008, and we have made the respective adjustment.

4. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

5. Land rent and water use fee

The Company has provided us detailed information confirming the payment of the fees to tax authority of Tuv aimag. We have sent an official letter to get disclosure from the respective local, and received a reply, so, adjusted the Government amount

6. Donations to Governmental organizations

Monetary donation from business entity to soums:

We have made the respective adjustment and resolved the difference based on the Company’s detailed information.

7. In-kind contribution at rate of 50% to environmental special account

The Company has provided information confirming the cost was paid to the state budget fund.

8. Costs disbursed for protection of the environment

The MMRE provided with detailed information confirming the initially reported amounts, while, the Company has provided after several times of enquires, and we could resolve the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 7 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 6 April 2011 and received additional information with necessary photocopies of some supporting documents.

Summary:

Discrepancies for this Company are all resolved.

B-10. "Areva Mongol" LLC

Brief introduction

"Areva Mongol" LLC operates in extraction of uranium at Ulaanbadrakh soum of Dornogovi aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Tax on automobiles and self moving vehicles

The Company has provided with detailed information confirming the initially reported amount, while, the MTA could not confirm. When we have clarified via the phone call with the MTA, it was explained that "it was paid from other subsidiary company", so, we have adjusted by deducting the amount.

2. License fee for exploitation and exploration of mineral resources

The initial differences were due to the Government's expression in USD and the Company's in MNT, and also in relation to payment of some fees to nuclear agency. We have adjusted based on the supporting documents of the both sides.

3. Fee for water use

The Company has provided with detailed information confirming its payment to tax authority of Ulaanbadrakh soum of Dornogovi aimag, and we have enquired from the local. However, there was no reply from the local, we have asked from the Company again to provide with the supporting document. The Company has explained that "it was paid under name of our subsidiary company", so, we have deducted and adjusted the amount.

4. Fee for recruiting foreign experts and workers

The Company has provided with its detailed information confirming the initially reported amount, while, the LSWA could not confirm. When we have enquired the Company to submit the supporting document, the Company has not; therefore, we have adjusted by deducting the amount.

5. Charges and service charges

The Company has provided with its detailed information with amount that is less than the initially reported amount. We have decreased the amount and adjusted and resolved the remained difference after clarifying with the MRAM.

6. Costs disbursed for protection of the environment

The Company has provided with its supporting document confirming the initially reported amount, however, we could not resolve the difference since the amount was not included in the reconciliation at the MOET.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 31 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 8 April 2011 and received additional information with necessary photocopies of some supporting documents.

Summary:

The differences can not resolved since the fees paid to locals are not clarified at the government level.

B-11. "AUM" LLC

Brief introduction

"AUM" LLC is a Mongolia-Check joint company that is established in year 2006 and currently operating in gold extraction activity.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not stated any amount in its initial reporting, while the Government has stated amount of 35,463 thousand tugrug. The Company has explained that it was related to payment of 36,477 thousand tugrug, which is tax review act penalty fee, after our clarification. We have adjusted the amount by deducting the amount since it is indicated that the EITI Report should maintain any penalty, and act fee.

2. Customs tax

The Company understated by 26,481 thousand tugrug, and we have adjusted the amount based the detailed information provided from the Customs Office.

3. Tax on automobiles and self moving vehicles

The Government has provided with its detailed information confirming its initially reported amount, while the Company understated the amount. We have adjusted the amount by increasing the amount.

4. Fee for exploitation of mineral resources ("royalty fee")

The Company has provided with its detailed information confirming its initially reported amount, while the MTA provided with different information, however, we have adjusted the amount.

5. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

6. Land rent

The Government has understated by 264 thousand tugrug initially, we could resolve the difference only after receiving a reply from the Capital Land Department regarding the payment.

7. Fee for water use

The Company has provided with its detailed information confirming its initial understatement by 13,000 thousand tugrug. We have adjusted the amount by adding the Company's reporting.

8. Fee for recruiting foreign experts and workers

The Company has provided with its detailed information confirming its initially reported amount, and we have resolved the amount by making the respective adjustment.

9. Charges and service charges

The Company has provided with its detailed information confirming its initially reported amount, while the MTA provided with different information, however, we have adjusted the amount.

We have adjusted by deducting from the Company reporting since one times of payment amount was non-material due to resolution issued from the National Council Meeting of MEITI dated on 24 June 2010 indicating that " the minimum reporting amount of a material payment amount for each tax, fee, payment, charge and other income type is 10 thousand tugrug".

Also the Company has provided in its detailed information that the Company has paid service charges to MOF, LWSA and Foreign Citizen Labor Agency, therefore, we have sent confirmation letters to the respective organizations. After receiving the replies from the organizations we have made the respective adjustments by adding on the Government reporting amount and, deducting from the Company reporting since there were some service charges which are less than the material amount.

10. Customs tax

We have adjusted by deducting from the Company reporting since one times of payment amount was non-material due to resolution issued from the National Council Meeting of MEITI dated on 24 June 2010 indicating that " the minimum reporting amount of a material payment amount for each tax, fee, payment, charge and other income type is 10 thousand tugrug".

11. Donations to Governmental organizations

Funds disbursed by company in sustainable development and community relations:

The Company has provided with its detailed information confirming its donation of 20,000 thousand tugrug to Uyanga soum of Uvurkhangai aimag, so, we have sent an official letter to the local. And we have adjusted by adding into to the government reporting after receiving a reply.

12. In-kind contribution at rate of 50% to environmental special account

We have resolved the difference based on the Company information.

13. Costs disbursed for protection of the environment

We have adjusted the Company amount by deducting since the Company could not confirm its initially stated amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 24 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 9 April 2011 and received additional information with necessary photocopies of some supporting documents.

Summary:

Discrepancies for this Company are all resolved.

B-12. "AFC tавт" LLC

Brief introduction

"AFC тавт" LLC operates in extractions of copper and gold at Teshig soum of Bulgan. And the Company is registered at tax authority of Bulgan.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Windfall tax

We have resolved the difference by making the respective adjustment in accordance e to the both sides detailed information.

2. Tax on automobiles and self moving vehicles

We have adjusted the amount in accordance of acceptance of the Company for misstatement.

3. Fee for exploitation of mineral resources ("royalty fee")

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided information.

4. License fee for exploitation and exploration of mineral resources /доллар/

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided information.

5. Land rent

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided information.

6. Fee for water use

We could not confirm the Government's amount based on the details, and the Company has not provided its details, so, we have adjusted by deducting.

7. Fee for forestry use and firewood

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided information.

8. Fee for recruiting foreign experts and workers

The LWSA's details were less than the reported amounts, and the Company's details can not confirm the amounts. The difference remains unresolved since the Company's information was in lump-sum amount, and when we have enquired again from the Company, there was no reply.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 10 April 2011.

After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 19 May 2011, however, there was no reply.

Summary:

The difference remains unresolved since the Company has not reply to our enquiry.

"Baganuur" LLC was established in year 1978, and was privatized in year 1995 and became state-owned at majority "Baganuur" JSC. Out of the Company's total share is owned by the state at 75% and by individuals at 25%. The Company's annual capacity is 4.0 million ton and extracts 2.9-3.0 million ton coals depending on the domestic demand by supplying 40% of coal demand of Mongolia and supplying independently 60% of Central Zone customers. The Company is registered at MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference is not resolved since both the Company and the Government detailed information could not confirm their respective reported amounts. The Company has understated amount, and when we have enquired the Company accepted its payment.

2. Customs tax

The Company has reported including VAT in Customs tax, we have adjusted the amount by deducting.

3. Real estate tax

The difference is not resolved since both the Company and the Government detailed information could not confirm their respective reported amounts. The Company has understated amount, and when we have enquired the Company accepted its payment.

4. Land rent

The Company has provided with the detailed information on payment to Land Department of Baganuur district. In order to confirm with the organization, we have sent an official letter and received a reply, so, adjusted the amount by adding to the Government side.

5. Customs tax

We have adjusted by adding since the Company has provided with its detailed information accepting its understatement in the report.

6. Costs disbursed for protection of the environment

We have adjusted by adding since the Company has provided with its detailed information accepting its understatement in the report.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 3 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 24 March 2011 and received additional information after 7 days and resolved the differences through the several times of phone calls.

Summary:

Discrepancies for this Company are all resolved.

B-14. “Bayalag jonsh” LLC

Brief introduction

“Bayalag jonsh” LLC explores spar at Dornogovi and Khentii aimags. And the Company is registered at tax authority of Dornogovi aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have adjusted by adding since the Company has provided with its detailed information accepting its understatement in the report.

2. Tax on automobiles and self moving vehicles

We have adjusted by deducting since the Company has provided with its detailed information accepting that tax for gun was included in the report.

3. Fee for exploitation of mineral resources (“royalty fee”)

We have made the adjustments and resolved the difference since both the Company and the Government details were different from their respective initial reporting.

4. License fee for exploitation and exploration of mineral resources

The difference was due to incorrect recording of service charge paid to MRAM in this category; we have confirmed the payment and adjusted the amount.

5. Land rent

We have adjusted by deducting since the Company has provided with its detailed information accepting its overstatement in the report.

6. Charges and service charges

We have adjusted by deducting the amount, which is less than the material amount at one time of payment, from the Company and adding to the Government reporting amount after getting clarification from MRAM.

7. Customs tax

The Company has not paid any custom tax, however, the report has included a service charge at the name of individual, so, and we have made the necessary adjustment.

8. Donations to Governmental organizations

Monetary donation from business entity to aimags:

We have made the adjustment and resolved the difference after receiving replies from the respective Governor’ Offices of aimags /Khentii and Dornogovi aimags/ which the Company has given donation and supporting to, and have shown in its detailed information.

Monetary donation from business entity to soums:

We have made the adjustment and resolved the difference after receiving replies from the respective Governor’ Office of Dalanjargalan soum of Dornogovi aimag and Police Department of the aimag where the Company has given donation and supporting to, and have shown in its detailed information.

9. In-kind contribution at rate of 50% to environmental special account

We have made the adjustment and resolved the difference after receiving reply from the respective local soum /Kherlen soum of Khentii aimag/ which the Company has given donation and supporting to, and has shown in its detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 24 February 2011 and received reply on 11 March 2011.

Summary:

Discrepancies for this Company are all resolved.

B-16. “Bayan erch” LLC

Brief introduction

“Bayan erch” LLC operating in molybdenum extraction at Erdenetsagaan soum of Sukhbaatar aimag. And the Company is registered Khan-Uul tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference was due to non-recording of paid tax by the Company to tax authority of Sukhbaatar aimag, in the initial reporting. During the reconciliation, the Governor’s Office of the aimag has replied to our official letter accepting the payment, so, we have adjusted the amount.

2. Customs tax

We have adjusted the Company amount based on the GCO information.

3. Real estate tax

The initial difference was due to non-recording of paid tax by the Company to tax authority of Sukhbaatar aimag, in the initial reporting. During the reconciliation, the Governor’s Office of the aimag has replied to our official letter accepting the payment, so, we have adjusted the amount.

4. Tax on automobiles and self moving vehicles

We have adjusted based on the detailed information of both the Company and the Government, since the initial report amounts were different.

5. Fee for exploitation of mineral resources (“royalty fee”)

The initial difference was due to non-recording of paid tax by the Company to tax authority of Sukhbaatar aimag, in the initial reporting. During the reconciliation, the Governor’s Office of the aimag has replied to our official letter accepting the payment, so, we have adjusted the amount.

6. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

7. Reimbursement of deposit, exploration of which is carried by the budget fund

The difference was due to foreign currency rates, we have adjusted the amounts.

8. Land rent and water use fee

The Company has paid to Erdenetsagaan soum of Sukhbaatar aimag. The paid amount is not included in information date reconciliation of the MTA, and caused the initial difference. We have sent an official letter to the Governor’s Office of the aimag, and received reply and adjusted the amount.

9. Fee for recruiting foreign experts and workers

We have adjusted based on the detailed information of both the Company and the Government, since the initial report amounts were different.

10. Customs tax

We have adjusted the amount after confirming that the payment was made to personal custom department.

11. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

The adjustment was made since the Company has provided with its detailed information confirming its understatement in the initial report.

Monetary donation from business entity to aimags:

We have resolved the difference by receiving a reply from the respective local /Sukhbaatar/ to which the Company has donated the amount.

Monetary donation from business entity to soums:

The Company has given donation to Erdenetsagaan soum of Sukhbaatar aimag, and we have resolved the difference by receiving a reply from the respective local.

12. Costs disbursed for protection of the environment

We have adjusted since the Company has reported incorrect amount in its initial report.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 April 2011 by enclosing the supporting documents.

Summary:

Discrepancies for this Company are all resolved.

B-17. “Bayarsgold” LLC

Brief introduction

“Bayars gold” LLC operates its activities in Bulgan, Uvurkhangai and Zavkhan aimags. And the Company is registered at Bayangol district tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference was due to non-submission of year 2009 report by the Company. We have sent an official letter and received detailed information and adjusted the Company’s amount by 1,400 thousand tugrug.

2. Licence fee for exploitation and exploration of mineral resources

After making the needed adjustment based on both the Company and the Government detailed information. In order to clarify, we have enquired again from the Company and as well as from MRAM, and resolved difference after receiving the additional information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 5 March 2011 and received reply on 20 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 12 April 2011 and received additional information with necessary photocopies of some documents.

Summary:

Discrepancies for this Company are all resolved.

B-18. “Bold tumor eruu gol” LLC

Brief introduction

“Bold Tumor Eruu Gol “ LLC extracts iron ore from Eruu soum, Selenge aimag and exports to China. The Company is registered with Tax Authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
The Company has provided with detailed information accepting its non-recording of VAT overpayment transfer, we have adjusted respectively after confirming with the Government detailed information.
2. **Customs tax**
We have adjusted by deducting VAT since the Company’s detailed information has provided details.
3. **Real estate tax**
We have made the adjustment after confirming the Company details showing its understatement at the initial reporting, and the MTA’s information confirming the reported amount.
4. **Tax on automobiles and self moving vehicles**
Both the Company and the Government detailed information are matched, however, there was difference at the Company side, and we have enquired again from the Company and resolved the difference respectively.
5. **Fee for exploitation of mineral resources (“royalty fee”)**
As per the Company’s details, the Company has included this fee in the fee for use of mineral resources of widespread deposit, so, we have adjusted by deducting from the initial reported amount. On the other side, the MTA’s detailed information has shown that its initial reporting has included 30% amount which should be transferred back to local, we have adjusted also by deducting from the initial reported amount.
6. **License fee for exploitation and exploration of mineral resources**
The initial difference occurred since the Government has reported in USD, while the Company is in MNT. And plus, both the Company and the Government detailed information show that both side underreported. We have made the respective adjustment.
7. **Land rent**
The difference was due to non-summarization of time of payment at the MTA by the Company in Selenge aimag. We have sent an official letter to the aimag and received a reply that the payment was accepted, and adjusted the amount by adding the Government side.
8. **Fee for recruiting foreign experts and workers**
We have adjusted by increasing the amount since the Company’s detailed information show that the initial reporting was underreported. Also, adjusted the Government reporting since the LSWA has reported incorrectly by mistakenly writing the figure.
9. **Fee for use of mineral resources of widespread deposit**
The Government has not reported fee of 62,250 thousand tugrug. This amount was paid to the local budget; therefore, it was not summarized into the Government reporting. We have adjusted respectively and resolved the difference since the Company has confirmed its payment and the local’s tax authority has replied to us.
10. **Charges and service charges**
The Company has provided with confirmed information of its payment. We have adjusted at the Government side.
11. **Customs tax**
We have adjusted by deducting the brokerage fee from the customs tax since the Company has included its fee which is paid to the brokerage for import of goods and inventory.
12. **Donations to Governmental organizations**
Monetary donation from business entity to ministries and agencies:
The Company has reported donation of 33,218 thousand tugrug given to state ministries and agencies, while the Government has reported this amount as 22,218 thousand tugrug. We have adjusted by decreasing the Company’s amount since the Company detailed information showed that some donations were given to Geologist’s Association and to one non-government organization were reported as donation given to ministries and agencies.
Monetary donation from business entity to aimags:
We have adjusted since the Company provided its overstatement in its initial reporting. The donation was given to the Governor’s Office of Selenge aimag, and we have received reply from the local confirming the amount.
Monetary donation from business entity to soums:
The initial difference was since the Government has reported donation amounting to 150 million tugrug, while the Company has reported 183 million tugrug. However, the Company has provided with its details that 150 million tugrug was donated to Bayangol and Khongor soums of Selenge aimag, and plus, its overstatement, and the difference was resolved.
13. **Costs disbursed for protection of the environment**
We have adjusted the amounts with confirmation of detailed information of the both sides.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 31 March 2011 and received reply on 19 April 2011 together with several supporting documents.

Summary:

There is no remained unresolved difference for the Company.

B-19. "Boroo Gold" LLC

Brief introduction

The "Boroo Gold" LLC is 100% owned by Centerra Gold LLC of Canada and located and operates its activities in Mandal and Bayagol soums of Selenge aimag.

And the Company is registered with the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference was due to understatement of the Company, and we have adjusted respectively based on the Company's detailed information.

2. Customs tax

We have adjusted increasing the Company's amount based on the General Customs Office information.

3. Windfall tax

The Company has provided with the detailed information confirmed its initial reporting, while the MTA has provided with details showing its understatement, we have made the respective adjustment and resolved the difference.

4. Real estate tax

The Company has provided with the detailed information confirming its initial reporting amount of 296,989 thousand tugrug, while the Government has not reported any amount. We have sent an official letter to Selenge aimag and received a reply since the Company's detailed information has shown respectively, and we have confirmed the amount.

5. Tax on automobiles and self moving vehicles

Both the Company and the Government detailed information confirmed their initial reporting's, however, the paid amount for this tax was different with respect of paid amount to the local; therefore, we have sent an official letter to tax authority of Selenge aimag. The authority has provided with reply confirming the payment, so, we have resolved the difference.

6. License fee for exploitation and exploration of mineral resources

The initial difference was that the Government has reported in USD, while the Company is in MNT. And the MRAM has underreported the amount, so, we have adjusted by increasing the Government amount.

7. Land rent, Fee for water use

The Company has provided with its detailed information by confirming its amount, while the MTA has provided any, therefore, the difference was not resolved. Eventually, we have received replies from the local that the Company used to pay this fee to the local's tax authority.

8. Fee for recruiting foreign experts and workers

The LWSA as confirmed the amount while the Company's detailed information provided that service charge was included, therefore, we have adjusted the amount by deducting respectively.

9. Fee for use of mineral resources of widespread deposit

The Government has not reported fee of 188,280 thousand tugrug since this fee was paid to local's budget and not summarized at the government. The Company has confirmed its payment by providing us its supporting document; therefore, we have resolved the difference.

10. Charges and service charges

The initial difference amounted to 11,794 thousand tugrug since the Government has reported any charges and service charges. After our review, we have found out that an amount was paid to non-government

organization as service charge and it was less than the material amount, therefore, we have deducted and adjusted the amount.

11. Customs tax

We have adjusted by deducting the brokerage fee from the customs tax since the Company has included its fee which is paid to the brokerage for import of goods and inventory.

12. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

The Company has reported donation of 35,815 thousand tugrug given to state ministries and agencies, while the Government has reported this amount as 12,500 thousand tugrug. We have adjusted by decreasing the Company's amount since the Company detailed information showed that some donations were given to non-government organizations like Culture and Poem Academy and others. Donation amounting to 500 thousand tugrug was confirmed so, was added and adjusted respectively.

Monetary donation from business entity to aimags:

As per the Company's detailed information, we have noticed notice that donation given to aimags and soums were reported as donation given to sustainable development and community relation. We have made the respective adjustments by increasing the Government amounts. We have confirmed the amount by sending and receiving replies to our official letters from the respective aimags like Selenge, Tuv and Darkhan-Uul.

Monetary donation from business entity to soums:

We have resolved the difference based on supporting documents from the Company, and receiving replies, to our official letters sent to confirm the donations given, from soums like Bornuur of Tuv aimag and Tunkhel, Mandal, Bayangol soums of Selenge aimag.

Monetary donation from business entity to local governments:

Based on the Company's detailed information, we have adjusted by decreasing the Company's amount since all donations except, donation given to Foreign Citizenship Agency amounting to 5,000 thousand tugrug were to non-government organizations.

Funds disbursed by company in sustainable development and community relations:

We have adjusted the amount by transferring to row for monetary donation from business entity to soum and aimags, since the Company has accepted and confirmed.

13. In-kind contribution at rate of 50% to environmental special account

The MOET has confirmed its initial amount, while the Company has shown through its detailed information that the amount belong to year 2010, therefore, we have adjusted by decreasing the amount respectively.

14. Costs disbursed for protection of the environment

The initial difference was due to MOET's confirmed detailed information to its initial amount, and the Company's reported amount at real occurred amount. The Company has accepted that it has issued its report for the MOET at different number, so, we have resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 1 March 2011. We would like to mention here that, after the Working Group Meeting, the Company accountant Mr. Lkhagva-Ochir has contacted with us via phone several times and provided with supporting documents necessary to resolve the difference, therefore, we could resolve the differences for this Company.

Summary:

Discrepancies for this Company are all resolved.

B-20. “Braveheart resource” LLC

Brief introduction

“Braveheart resource” LLC operates in gold extraction at Zaamar soum of Tuv aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Licence fee for exploitation and exploration of mineral resources

The difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have sent an official letter to the Company and received reply and could resolve the difference.

2. Donations to Governmental organizations

Monetary donation from business entity to soums:

We have resolved the difference by sending an official letter to locals and receiving replies respectively since the Company has informed that it has given donations to Tuv and Umnugovi aimags.

3. In-kind contribution at rate of 50% to environmental special account

We have resolved the difference after getting clarification from the Governor’s Office of Bayanchandmani soum of Tuv aimag since the Company’s detailed information showed contribution amount centralized at.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 24 February 2011 and received reply on 7 April 2011.

Summary:

Discrepancies for this Company are all resolved.

B-21. "Bud Invest" LLC

Brief introduction

"Bud Invest" LLC operates in gold extraction activity in Zaamar soum of Tuv aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

We have adjusted increasing the Company amount based on the detailed information provided from the Company.

2. Windfall tax

We have adjusted increasing the Company amount based on the detailed information provided from the Company.

3. Tax on automobiles and self moving vehicles

We have made the adjustment according to detailed information provided from the MTA and the Company.

4. Fee for exploitation of mineral resources ("royalty fee")

The initial difference amounted to 11,318 thousand tugrug, plus, the detailed information of both sides confirm the amount. Therefore, we have sent an official letter again to the Company and confirmed. Finally, we have enquired again from the MTA and noticed that the MTA has included 30% of amount which supposed to be transferred back to the local, so, we have made the adjustment respectively and resolved the difference.

5. Land rent

The Company provided with detailed information that the fee was paid to Tuv aimag. In order to clarify, we have sent an official letter to the Governor's Office of the aimag and received a reply that the fee was paid; therefore, we have adjusted the amount increasing the Government amount.

6. Fee for water use

We adjusted by deducting from the Company amount since the detailed information provided from the Company has shown incorrect reporting.

7. Costs disbursed for protection of the environment

We adjusted by deducting from the Company amount since the detailed information provided from the Company could confirm the initial amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 24 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 14 April 2011 and received additional information.

Summary:

Discrepancies for this Company are all resolved.

B-22. “Bulgangangat” LLC

Brief introduction

“Bulgangangat” LLC extracts gold at Zaamar soum of Tuv aimag. And the Company is registered at tax authority of Tuv aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The MTA has confirmed its initial amount while the Company’s detailed information is differentiated by 10.0 thousand tugrug. We have enquired again from the Company and received a reply and finally resolved the difference.

2. Windfall tax

The initial difference has occurred because the Company has not reported while the Government has confirmed the receipt. Eventually, the Company has provided its detailed information confirming the payment.

3. Fee for exploitation of mineral resources (“royalty fee”)

The Company has confirmed its amount; however, we have sent an official letter considering that the amount might be understated. We have adjusted the Government initial amount according to detailed information of the MTA. The Company has replied that there is no payment was made, so, we have enquired again from the MTA and understood that the MTA’s detailed information has shown that its initial reporting has included 30% amount which should be transferred back to local, and we have adjusted both sides’ amounts.

4. License fee for exploitation and exploration of mineral resources

The Government expressed in USD, while the Company has expressed in MNT. The initial amounts were different by big amount. Therefore, we have adjusted after receiving detailed information from both the Government and the Company.

5. Land rent

The Company has provided with detailed information accepting it’s over reporting by 500 thousand tugrug, so, we did the adjustment. The Company has paid 2,960 thousand tugrug, but the amount was not summarized at the MTA, and it caused the difference. We have received reply from the local and resolved the difference by increasing the Government amount.

6. Fee for water use

The initial difference occurred due to under and/or incorrect reporting by 438 thousand tugrug. During the reconciliation, we have received the detailed information from the Company and adjusted the amount.

7. Costs disbursed for protection of the environment

We have adjusted by decreasing the Company amount since the Company could not confirm its payment of 1,000 thousand tugrug through its detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 19 February 2011 and received reply on 14 March 2011. We would like to mention that the Company accountant was at big assistant to resolve the differences in way that following –up, providing with necessary documents, and providing with explanations after our 2 times of phone calls.

Summary:

Discrepancies for this Company are all resolved.

B-23. "Bumbat" LLC

Brief introduction

"Bumbat" LLC is Russian invested company and operates in gold extraction. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving a reply to our official letter, we have adjusted by increasing the Company amount by 17,996 thousand tugrug.

2. Windfall tax

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving detailed information of the Company, we have adjusted by 1,691,044 thousand tugrug.

3. Real estate tax

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving information from the Company, we have adjusted by increasing the Company amount by 37,044 thousand tugrug.

4. Fee for exploitation of mineral resources ("royalty fee")

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving information from the Company, we have adjusted by increasing the Company amount by 900,941 thousand tugrug.

5. License fee for exploitation and exploration of mineral resources /in USD/

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving information from the Company, we have adjusted by increasing the Company amount by 10,795 dollars.

6. Fee for water use

We have resolved the difference based on the Company information.

7. Fee for recruiting foreign experts and workers

The initial difference was occurred since the Company has not issued its year 2009 report to the MEITI. After receiving information from the Company, we have adjusted by increasing the Company amount by 33,768 thousand tugrug.

8. In-kind contribution at rate of 50% to environmental special account

We have resolved the difference in according to information that the Company has centralized 18,000 thousand tugrug at MOET in year 2009.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 19 February 2011 and received reply on 24 March 2011. During this period, we have required our reply several times from the Company secretary, however, only heard insulting words were heard like " our management are Russians, you have to translate your letter into Russian language, or if I translate it would take several days, and or you have to speak with them in Russian", this kind of condition was really hard for us. Eventually, we could contact with the general accountant and get some information.

Here, we would like to mention that some Mongolian staff of foreign invested companies' are too one sided, another words, are not helpful to our work, do not provide with correct information their foreign management.

Summary:

Discrepancies for this Company are all resolved.

B-24 “Buurgent” LLC

Brief introduction

“Buurgent” LLC operates in gold extraction activity at Bayangol soum of Selenge aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference has occurred due to over reporting of the Government by 3,123 thousand tugrug while the Company has confirmed its reported amount in its detailed information. We have made the adjustment and decreased the Government amount. There was difference even after our adjustment, therefore, we have enquired again from both sides and the Company informed that the differentiated amount was not paid by; the MTA has explained that the amount was for difference of payment of another type of tax, so, we have resolved the difference respectively.

2. Real estate tax

The initial difference was not confirmed by both sides' detailed information. Only after our enquired to the Company, we found out that the Company has included charges and service charge, so, we have deducted and resolved the difference.

3. Tax on automobiles and self moving vehicles

The difference was resolved after receiving detailed information of the Company that confirms the amount, and receiving detailed information from the Government by making adjustment and increasing the amount, and resolved the difference.

4. License fee for exploitation and exploration of mineral resources

The difference was due to expression currency, because, the Government has expressed in USD, while the Company is in MNT. And also, the Company had underreporting that was explained that it was related to payment when the license was transferred to another company. We have adjusted by increasing the Company amount.

5. Land rent

The difference was resolved after getting confirmed replies from the related land departments of Capital and Selenge aimag since the Company detailed information has confirmed its payment to the above mentioned departments.

6. Fee for water use

The difference was resolved after getting confirmed replies from the related water departments of Capital and Selenge aimag since the Company detailed information has confirmed its payment to the above mentioned departments.

7. Charges and service charges

The difference was resolved after getting confirmed replies from the related departments like water of Capital and Selenge aimag since the Company detailed information has confirmed its payment to the above mentioned departments.

8. Donations to Governmental organizations

Monetary donation from business entity to soums and aimags:

The Company has informed in its detailed information that the payment was made to account called Atar-50 of Bayangol soum of Selenge aimag and aimag itself, however, the account was not confirmed due to our received replies from the respective locals with explanations that the account is not encountered to any accounting recording, and at the same time, the Company could not provide us with

9. In-kind contribution at rate of 50% to environmental special account

We have adjusted by decreasing the amount since the Company has not confirmed its initial amount through its detailed information and has not replied to our additional enquire.

10. Costs disbursed for protection of the environment

We have adjusted by decreasing the amount since the Company has not confirmed its initial amount through its detailed information and has not replied to our additional enquire.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 29 March 2011 and received additional information.

Summary:

Discrepancies for this Company are all resolved.

B-25. "Berkh Uul" LLC

Brief introduction

"Berkh Uul" LLC operates in gold extraction at Norovlin soum of Khentii aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

We have adjusted based on the information provided from the General Customs Office.

2. Windfall tax

We have adjusted in accordance with the Company's detailed information by increasing the Company amounts.

3. Real estate tax

We have adjusted in accordance with the Company's detailed information by decreasing the Company amounts.

4. Fee for exploitation of mineral resources ("royalty fee")

We have adjusted in accordance with the Company's detailed information by decreasing the Company amounts.

5. Licence fee for exploitation and exploration of mineral resources

We have adjusted in accordance with the Company's detailed information by decreasing the Company amounts.

6. Land rent, Fee for water use

We have sent an official letter since the Company has provided with detailed information showing its payment to tax authority of Khentii aimag. The Governor' Office of the aimag has confirmed the receipt of the payment; therefore, we have adjusted the amount by adding to the Government amount.

7. Fee for recruiting foreign experts and workers

We have made the adjustment and resolved the differences in accordance to both the Company and the Government information.

8. In-kind contribution at rate of 50% to environmental special account

We have resolved the difference based on the Company information.

9. Costs disbursed for protection of the environment

The initial difference occurred since the Company has not reported cost of 53,880 thousand tugrug. When we have called to the Company for clarification, the Company has accepted its submission of environment protection report at this amount to the MOET.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 February 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 17 March 2011 and received additional information, and resolved difference after several times of phone calls.

Summary:

Discrepancies for this Company are all resolved.

B-26 “Beren group” LLC

Brief introduction

“Beren group” LLC extracts iron concentrate at Bulgan and Arkhangai aimags. And the Company is registered at tax authority of Arkhangai aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company has included VAT, so, we have adjusted by deducting respectively.

2. Tax on automobiles and self moving vehicles

The difference was resolved in a way by increasing the Company amount since the detailed information has shown the amount and the Government has confirmed its amount through its detailed information.

3. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

4. Land rent

The difference was resolved in a way by adjusting the amount after getting final reply from the MTA. The initial amount was confirmed by the Company detailed information and reply received from land department of capital, however the Bayanzurkh district land department has not reply to us, therefore, eventually we have enquired again from the MTA.

5. Charges and service charges

The Company has provided with detailed information confirming its payment to the MTA, and we have sent an official letter to the MTA and received a reply and resolved the difference.

6. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

The Company has provided with detailed information confirming its payment amounting to 6,700 thousand tugrug to the MTA, and we have sent an official letter to the MTA, however, the MTA has not replies to us, so, the difference is not resolved.

Monetary donation from business entity to aimags:

The Company has provided with detailed information informing that the Company has given donation amounting to 10,000 thousand tugrug in Arkhangai aimag, however, the organization was non-government, so, we have adjusted by deducting the amount.

7. In-kind contribution at rate of 50% to environmental special account

The Company has provided with detailed information confirming its contributions to Governor’s Offices of Arkhangai and Bulgan aimags, and we have sent official letters the related offices and received reply only from Bulgan aimag while there is was no reply from Arkhangai aimag, so, the difference remained unresolved.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 March 2011. And we have photocopied the some necessary supporting documents.

Summary:

The differences can not resolved since the MTA and local do not reply to our clarification.

B-27. “Western Prospector Mongolia” LLC

Brief introduction

“Western Prospector Mongolia” LLC is owned by “CNNC” International or National Corporation of Uranium of China at 100%. Currently, the Company is operating in exploration activity by owning 6 exploration licenses covering 108.6 thousand hectare areas of Bayan and Bayandelger soums of Tuv aimag and Dashbalbar, Sergelen and Bayandun soums of Dornod aimag. And the Company is registered at tax authority of Bayanzurkh district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Tax on automobiles and self moving vehicles

The initial difference occurred due to non-submission of year 2009 report by the Company to the MEITI even though the MTA has confirmed its initially reported amount. We have adjusted and resolved after getting detailed information from the Company.

2. License fee for exploitation and exploration of mineral resources

The initial difference occurred due to non-submission of year 2009 report by the Company to the MEITI even though the MRAM has confirmed its initially reported amount. We have adjusted and resolved after getting detailed information from the Company.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 25 February 2011 and received reply on 3 March 2011. The Company has not submit its report with mistaken consideration that only the mining company should submit the report, since the Company is operating only at the exploration stage. So, there was the initial difference.

Summary:

Discrepancies for this Company are all resolved.

B-28. "Gatsuurt" JSC

Brief introduction

"Gatsuurt" LLC is 100% Mongolian company and operates in gold mine in Eruu soum of Selenge aimag, Khongor soum of Darkhan aimag and Bat-Ulzii soum of Uvurkhangai aimag. And the Company is registered at the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

- 1 Economic Business Entity Income Tax /CIT/**
The initial amount was adjusted and resolved based on the detailed information of both the Company and the Government.
- 2 Customs tax**
The General Customs Office has confirmed its reported amount while the Company has provided with information accepting its misreporting, so we have resolved the difference.
- 3 Windfall tax**
The MTA has confirmed its reported amount while the Company has provided with information accepting its underreporting, so we have resolved the difference.
- 4 Real estate tax**
The MTA has confirmed its reported amount while the Company has provided with information accepting its underreporting, so we have resolved the difference.
- 5 Excise tax on imported fuel and lubricants**
The General Customs Office has confirmed its reported amount while the Company has provided with information accepting its misreporting, so we have resolved the difference.
- 6 Tax on automobiles and self moving vehicles**
The MTA has confirmed its reported amount while the Company has provided with information accepting its misreporting, so we have resolved the difference.
- 7 Fee for exploitation of mineral resources ("royalty fee")**
The MTA has confirmed its reported amount while the Company has provided with information accepting its underreporting, so we have resolved the difference.
- 8 Licence fee for exploitation and exploration of mineral resources /төрлөр/**
The initial difference was due to the Governments' expression in USD, while the Company is in MNT. We have found out that the MTA has underreported, so, adjusted by increasing the Government amount.
- 9 Land rent**
The Company has provided with detailed information increasing its initial amount, and also informed us that the Company has paid its fee to land departments of Khan-Uul, Songinokhoirkhan districts and Bulgan, Darkhan, Selenge aimags. We have sent official letters to the respective aimags and districts and received replies, and adjusted and resolved the difference.
- 10 Fee for water use**
The Company informed that the fee was paid to Mandal of Selenge, Bat-Ulzii soum of Uvurkhangai aimag, and we have sent official letters to the respective aimags and received replies. Also, we have notice that the Company has included land rent fee, so, we have deducted and adjusted and resolved the difference.
- 11 Fee for forestry use and firewood**
The Company has provided with information accepting its incorrect reporting, so we have resolved the difference.
- 12 Fee for recruiting foreign experts and workers**
The LSWA has confirmed its reported amount while the Company has provided with information accepting its over reporting, so we have resolved the difference.
- 13 Fee for use of mineral resources of widespread deposit**
The Company has provided with information accepting its incorrect reporting, so we have resolved the difference.
- 14 Charges and service charges**
The Company has provided with details informing its payment of charges to Water department, therefore, we have sent an official letter and received a reply and resolved the difference.
- 15 Customs tax**
The General Customs Office has confirmed its reported amount while the Company has provided with information accepting its misreporting, so we have resolved the difference
- 16 Donations to Governmental organizations**
Monetary donation from business entity to soums:
We have sent an official letter to the Governor's Office of Tsagaannuur soum of Selenge aimag to confirm donation amounting to 22,000 thousand tugrug since the Company has reported in its initial reporting. And adjusted the amount after receiving the reply and resolve the difference.
- 17 In-kind contribution at rate of 50% to environmental special account**
The Company has not provided with its detailed information, so, we have adjusted by decreasing the amount.
- 18 Costs disbursed for protection of the environment**
The Company hired new accountant therefore, it was difficult to get details and explanation for year 2009. However, after our explanation that the EITI report shows numbers indicated in the Company's Geology Report and as well as Environment Reserve Report. Eventually, we have received the information and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 25 February 2011 and received reply on 15 March 2011. At the beginning it was difficult to get information from the Company since the accountant was replaced; however, after our explanation it became easier to get information.

Summary:

There is no any unresolved difference.

B-29. "Govi coal and energy" LLC

Brief introduction

Foreign invested "Govi coal and energy" LLC operates in extraction of coal at Shinejinst soum of Bayankhongor aimag and Chandmani soum of Govi-Altai aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

Detailed information of the MTA has included tax penalty of 9,327 thousand tugrug, so, we have deducted from the Government amount. And since, the Company has accepted its payment of 12,300 thousand tugrug, and we have resolved the difference.

2. Tax on automobiles and self moving vehicles

The Company has confirmed its initial amount and MTA has provided its detailed information determining that it has misreported the amount.

3. Fee for exploitation of mineral resources ("royalty fee")

Even though both sides have provided with detailed information which are different from the initial amounts, we have adjusted and resolved the difference based on the provided information.

4. Licence fee for exploitation and exploration of mineral resources

The initial difference occurred due to expression since the Government has expressed in USD, while the Company in MNT. And we have found out that the MRAM has underreported so, adjusted the Government amount.

5. Land rent and fee for water use

The Company has provided with detailed information informing that the Company has paid its fee to land departments of Chandmani soum of Govi-Altai and Shinejinst soum of Bayankhongor aimag. We have sent official letters to the respective aimags and soums and adjusted by increasing the Government amount. However, the Company has informed that it has not paid 139 thousand tugrug which the MTA indicates it has received the amount. Finally, after our repeated enquiry, we have found out that the fee was paid in cash.

6. Fee for recruiting foreign experts and workers

The LSWA has confirmed its initial amount, and the Company's detailed information indicated that it has included the service charge, so, we have adjusted by deducting.

7. Charges and service charges

The initial difference amounted to 2,696 thousand since the Government has not reported any charges and service charges. From the review on this charges and service charges, we have noticed that there were some charges paid to non-government organization, and road charge which is less than the material amount at one time, therefore, we have adjusted by deducting respectively. Finally, we have resolved the difference by increasing the Government amount after the Company's final confirmation.

8. Donations to Governmental organizations

Firstly, we have adjusted by deducting donations amounting to 3,831 thousand tugrug which includes donation given to non-government organization, committee, individual and fund.

The Company mostly donated to Bayankhongor and Govi-Altai aimags since the Company operates in exploration and extraction activities at the territory of these aimags. We have sent official letters to these aimags and received replies. However, the difference still remained unresolved since donation amounting to 2,000 thousand tugrug to Heart Department of National Science Center for Child and Mother is not confirmed from the center due to no reply.

9. In-kind contribution at rate of 50% to environmental special account

The Company's detailed information showed that the initial amount has included amounts for years 2007 and 2008. We have adjusted by deducting from the amount.

10. Costs disbursed for protection of the environment

Since the Company accountant did not know how to provide us the details, we have adjusted based on the Company "Environment Reserve Department Report" prepared by the geologist.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply after 7 days. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 17 March 2011 and received additional information with necessary photocopies of some documents after 2 days.

Summary:

The difference still remain unresolved since the National Science Center for Child and Mother has not replied to our official letter regarding the donation which the Company informed that was donated to its Heart Department.

B-30. "Guravt" LLC

Brief introduction

"Guravt" LLC operates in gold exploration activity at Shariin Gol soum of Darkhan-Uul aimag. And the Company is registered at tax authority of Darkhan-Uul aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have adjusted by increasing the Company amount since the Company has accepted its understatement of the initial report.

2. Land rent and water use fee

The Company has provided detailed information showing its payment to tax authority of Shariin gol soum, Darkhan-Uul aimag. In order to confirm with the local, we have sent an official letter to the locals, however, there was no reply, and it was difficult to resolve the difference. Finally, we have enquired from the MTA and confirmed that the payment was received at the soum's account, and the difference was resolved.

3. In-kind contribution at rate of 50% to environmental special account

We have adjusted by deducting an amount for year 2007 since the Company detailed information has shown its inclusion.

4. Costs disbursed for protection of the environment

The difference was not resolved since the Company not provided with the number. After explaining to the Company's geologist and Environment Reserve department the numbers were provided and the difference was resolved.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 9 March 2011 enclosing some supporting documents.

Summary:

There is no any unresolved difference.

B-31. "Gurvan tukhum" LLC

Brief introduction

"Gurvan tukhum" LLC operates in gold extraction activity in Sergelen soum of Tuv aimag. And the Company is registered at tax authority of Bayanzurkh district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has provided with its detailed information confirming the initial amount, however, it also included taxes paid in year 2010, we have adjusted respectively. The MTA has provided also detailed information increasing its initial amount; we have made also the respective adjustment. However, the difference became so big; we have enquired again from the MTA and found out that the Government has included overpayment of another type of taxes.

2. Windfall tax

The initial difference was clarified by the detailed information of both sides, the MTA has confirmed its amount, while the Government accepted it underreporting, and we have adjusted by deducting.

3. Real estate tax

We have resolved the difference by deducting from the Company amount based on information of the Company that has accepted its inclusion of the bank charges.

4. Tax on automobiles and self moving vehicles

We have resolved the difference by deducting from the Company amount based on information of the Company that has confirmed its inclusion of the tax for automobile which is transferred to individual.

5. Fee for exploitation of mineral resources ("royalty fee")

The initial difference was 13,461 thousand tugrug and the Company has confirmed its amount while the MTA has included 30% which is related to amount that is centralized at the MTA, however, must have been returned back to the local.

6. Land rent

The Company provided with detailed information informing that the fees were paid to land departments of Songinokhairkhan district and Tuv aimag. We have sent official letters to these departments and received reply only from the department of Songinokhairkhan district. Since there was no reply from the local, we have enquired again from the MTA and were told that it has received in the aimag's account.

7. Fee for water use

The Company provided with detailed information informing that the fee was paid to local budget of Tuv aimag. We have sent official letter to the local however, there was no reply from the local, and we have enquired again from the MTA and were told that it has received in the aimag's account.

8. Donations to Governmental organizations

Monetary donation from business entity to soums and aimags:

We adjusted by decreasing the Company amount since the Company's detailed information has showed that the Company has reported including a donation given to non-government organization.

9. Costs disbursed for protection of the environment

We have increased the Government amount since the MOET has provided information accepting its underreporting.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 21 February 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 16 April 2011, however, there was no reply.

Summary:

There is no any unresolved difference.

B-32. "Datsan trade" LLC

Brief introduction

"Datsan trade" LLC is involved in gold and silver extraction in Khentii and Uvs aimags. And the Company is registered to tax authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Licence fee for exploitation and exploration of mineral resources

The initial difference was due to expression, the Government has expressed in USD while the Company is in MNT. We have adjusted the difference and resolved the difference after receiving information that both sides have underreported.

2. Land rent and water use fee

The Company informed that fee was paid to the budget of Tarialan soum of Uvs aimag and Water Agency. We have resolved the difference after receiving replies from the respective organizations to our official letters. Besides, we have corrected in row of the EITI Report the service charge amount since the Company has reported under the land rent and water use fee.

3. Charges and service charges

We have resolved the difference after receiving replies to our official letter sent basing on the Company information to confirm the payment to Water Agency and MRAM from the Company.

4. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies:

The difference is resolved since there was a reply from the MNRE to our official letter, sent by enquiring clarification for payment made by the Company.

Monetary donation from business entity to aimags:

There was donation to Student's Association from the Company; we have adjusted by deducting from the amount. And the Company also made donation to Professional Inspection Agency of Uvs aimag, we have sent an official letter to the local and received a reply and resolved the difference.

Monetary donation from business entity to soums:

We have sent official letters to locals named Norovlin soum of Khentii aimag and Tarialan soum of Uvs to confirm donations amounting to 1,000 thousand tugrug each. Uvs aimag has replied and confirmed the amount while Khentii aimag confirmed only 700 thousand tugrug, so, amount of 300 thousand tugrug is unresolved. When we asked again from the Company to provide the supporting document, the accountant was quite the job, and there was nobody who can help us.

5. In-kind contribution at rate of 50% to environmental special account

Компаниас ирүүлсэн мэдээлэлд Үндэслэн орон нутгаас тодруулахад хүлээн авсан гэсэн хариу ирсэнээр зөрүү шийдвэрлэгдсэн.

6. Costs disbursed for protection of the environment

We have resolved the difference along with information of both sides.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 11 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 5 April 2011 and received some information.

Summary:

It is necessary to review supporting documents from the Company to determine how much donation was given to the soum; however, the Company has not provided with soothe difference remains unresolved.

B-33. “Dongseng” LLC

Brief introduction

“Dongsheng” LLC operates in oil extraction in Dornogovi aimag. And the Company is registered at the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
The MTA has confirmed its reported amount while the Company has provided with information accepting its misreporting, so we have resolved the difference.
2. **Customs tax**
The Company has informed that it has reported including the VAT, so, we have adjusted deducting from the amount.
3. **Windfall tax**
The Company has informed that it has mistakenly reported an amount under windfall tax for gold, while the Company operates in petroleum. We have adjusted by deducting from the amount.
4. **Excise tax on imported fuel and lubricants**
The Company has provided with information accepting its overstatement, so we have resolved the difference respectively.
5. **Tax on petrol and diesel fuel**
The Company has provided with information accepting its misreporting, so we have resolved the difference respectively.
6. **Tax on automobiles and self moving vehicles**
The MTA has confirmed its reported amount while the Company has provided with information accepting its understatement, so we have resolved the difference.
7. **Fee for exploitation of mineral resources (“royalty fee”)**
The Company has provided with information accepting its double statement of amount paid for Entitlement under Production Sharing Contract with the government, which is transferrable to the PAM, under this fee category. We have adjusted by deducting from the amount.
8. **Reimbursement of deposit, exploration of which is carried by the budget fun**
The Company has provided with information accepting its double statement of amount paid for Entitlement under Production Sharing Contract with the government, which is transferrable to the PAM, under this fee category. We have adjusted by deducting from the amount.
9. **Land rent**
The Company has informed that the fee was paid to the PAM, so, we have sent an official letter for confirmation to the PAM and received a reply that fee was received in USD. We have adjusted the amount and resolved the difference by converting into MNT since the foreign currency rate was approximately near when we checked the rate that the PAM used.
10. **Fee for water use**
The MTA has confirmed its reported amount while the Company has provided with information accepting its overstatement, so we have resolved the difference.
11. **Fee for recruiting foreign experts and workers**
The LSWA has confirmed its initially reported amount while the Company has provided with detailed information accepting its understatement, however, there is still remains difference after our adjustment.
12. **Customs tax**
We have adjusted by increasing the Company amount based on the MTA information.
13. **Entitlement under Production Sharing Contract with the government /in USD/**
The Company has provided with its information confirming the amount, respectively, we have received reply from the PAM and made an adjustment increasing the Government amount. We have made the adjustment in USD, because, the information received from the sides were differentiated by their foreign currency rates.
14. **Donations to Governmental organizations**
Monetary donation from business entity to ministries and agencies:
The Company informed its donations to PAM, MRAM, Foreign Citizen Labor Agency and Police Department of Sukhbaatar district. After our sending of confirmation letters to these organizations, we could not resolved the difference since we have received confirmed reply only from the PAM.
Monetary donation from business entity to aimags:
We have sent an official letter to Governor’s Office of Dornogovi aimag to confirm donations made by the Company to Children’s Palace, Police department and Aimag Fund at amount of 35,500 thousand tugrug totally. We have adjusted by increasing the Company amount since the Governor’s Office has replied to our letter confirming the amount.
Funds disbursed by company in sustainable development and community relations:
The Company has not provided with information confirming its initial reporting, so we have resolved the difference by deducting from eh Company amount.
15. **In-kind contribution at rate of 50% to environmental special account**
The Company has provided with information that the contribution was paid to the MOET and also has accepted its overstatement, so, we have made an adjustment decreasing the amount, and enquired from the ministry respectively, however, the difference remains unresolved since the ministry has not replied to us.
16. **Costs disbursed for protection of the environment**
The Company has provided with information accepting its misreporting, so we have resolved the difference respectively.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 5 March 2011 only after several times of require. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 23 April 2011.

Summary:

The difference can not be resolved since the Government is not providing with the required information completely.

B-34. "Dun-Erdene" LLC

Brief introduction

"Dun-Erdene" LLC operates in gold extraction in Dornod aimag. And the Company is registered at tax authority of the aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference was resolved after adjusting the amounts in accordance of the both sides' detailed information.

2. Tax on automobiles and self moving vehicles

The difference was resolved after adjusting the amounts in accordance of the both sides' detailed information

3. Fee for exploitation of mineral resources ("royalty fee")

The initial difference was 6,605 thousand tugrug, and the Company has confirmed its amount. However, we have adjusted decreasing the Government amount since the MTA has reported initially including 30% of amount which is related to centralized amount should have been transferred to the respective local accordingly.

4. Licence fee for exploitation and exploration of mineral resources

The Company has confirmed its initial amount while the MTA has provided with its information accepting it's underreporting, therefore, we have adjusted the amount by increasing the Government amount.

5. Land rent and water use fee

The Company has provided with its information accepting it's underreporting, therefore, we have adjusted the amount by increasing the Company amount.

6. In-kind contribution at rate of 50% to environmental special account

Since the Company could not confirm its initially reported amount, we have adjusted by decreasing the Company amount.

7. Costs disbursed for protection of the environment

The MOET has provided with its detailed information confirming its initial amount while the Company has informed only, therefore, we have adjusted at Government side.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 18 February 2011.

Summary:

There is no any unresolved difference.

B-35. "Jump" LLC

Brief introduction

"Jump" LLC operates in gold and silver extraction at Bayandum soum of Dornod aimag. And the Company belongs to Sukhbaatar district tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have adjusted based on the both sides' information.

2. Customs tax

We have adjusted based on the General Custom Office information.

3. Windfall tax

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided detailed information.

4. Tax on automobiles and self moving vehicles

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided detailed information.

5. Fee for exploitation of mineral resources ("royalty fee")

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided detailed information.

6. Licence fee for exploitation and exploration of mineral resources

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided detailed information.

7. Fee for recruiting foreign experts and workers

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have resolved the difference in accordance of the Company provided detailed information.

8. Customs tax

We have adjusted based on the General Custom Office information

9. Donations to Governmental organizations

Monetary donation from business entity to aimag:

The initial difference was due no reported amount at the Company side while the Government has reported donation of 10,000 thousand tugrug. The difference was resolved only after the Company has accepted its donation to Dornod aimag.

10. Costs disbursed for protection of the environment

The MOET has provided with its detailed information confirming its initial amount while the Company has informed only, therefore, we have adjusted at Government side and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 March 2011 and received reply on 18 March 2011.

After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, sent the official letter again to the Company on 8 April 2011 and received information and explanation.

Summary:

There is no any unresolved difference.

B-36. "G and U" LLC

Brief introduction

"G and U" LLC is operating in gold and silver extractions in Zag soum of Bayankhongor aimag. And the Company is registered at tax authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources ("royalty fee")

We have adjusted the difference by adding into the Company amount since the Company has provided with detailed information accepting its underreporting initially.

2. Licence fee for exploitation and exploration of mineral resources

The initial difference was due to expression, the Government has expressed in USD while the Company is in MNT. We have adjusted the difference and resolved the difference by adding into the Company amount since the Company has provided with detailed information accepting its underreporting initially.

3. Land rent and water use fee

The Company has provided with detailed information confirming its initial amount while the MTA has showed underreporting, we have adjusted and resolved the difference by adding into the Government amount.

4. In-kind contribution at rate of 50% to environmental special account

We adjusted by adding into the Company amount since the Company has provided with detailed information accepting its misreporting initially.

5. Costs disbursed for protection of the environment

The MOET has provided with its detailed information confirming its initial amount while the Company has informed only, therefore, we have adjusted at Government side and resolved the difference.

B-37. “Zaamariin ikh alt” LLC

Brief introduction

“Zaamariin ikh alt” LLC operates in gold extraction at Zaamar soum of Tuv aimag. And the Company’s headquarter is located in Sukhbaatar district of Ulaanbaatar city. And the Company is registered at tax authority of Tuv aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference of 706 thousand tugrug was resolved after clarifying the Company’s understatement based on the Company information.

2. Windfall tax

The initial difference of 4,153 thousand tugrug was resolved after clarifying the Company’s overstatement based on the Company information.

3. Tax on automobiles and self moving vehicles

The initial difference was resolved after clarifying the Company’s overstatement based on the Company information.

4. Fee for exploitation of mineral resources (“royalty fee”)

The initial difference was 29,659 thousand tugrug and it was confirmed by the Company. However, we have clarified that the MTA has reported including 30% which is related to amount that is centralized at the MTA, however, must have been returned back to the local.

5. Land rent, Fee for water use

The initial difference was due to understatement of the Government. The Company has paid the fees to tax authorities of Zaamar soum of Tuv aimag and Bayangol district. We have sent official letters to these places and received replies and resolved the difference.

6. Donations to Governmental organizations

Monetary donation from business entity to soums:

The Company has informed that it has donated 6,000 thousand tugrug to “Altan Zaamar Fund” of Zaamar soum of Tuv aimag. We have sent official letter to this soum and received reply and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 19 February 2011 and received reply on 10 March 2011. In order to resolve the difference completely we have contacted with the accountant several times.

Summary:

Discrepancies for this Company are all resolved.

B-38. "Zubgol" LLC

Brief introduction

"Zubgol" LLC used to operate in gold and silver extraction activities at Khuder soum of Selenge aimag. However, it is informed that the Company is liquidated, and no activity currently. The Company was registered at tax authority of Darkhan-Uul aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference was unresolved initially since MTA and the Company have not provided with their details. We have noticed overpayment by the Company and enquired from, however, it was replied that the Company has been liquidated and it is not possible to provide and/or there would be no any information spreading. Eventually, we have contacted with Mr. Amarbat, who was the Company accountant, and he has explained that the payment made on 22 February 2010 was reported in year 2009 report.

2. Licence fee for exploitation and exploration of mineral resources

The initial difference was due to expression currency, the Government expressed in USD, while the Company is in MNT. We have resolved and adjusted the amount after determining from the supporting document that the license fee amount was paid by another company.

3. Fee for water use

The Company has confirmed its initial amount upon submitting the supporting documents, and difference was related to Water Agency, however, we have adjusted the amount.

4. Fee for forestry use and firewood

The Company has confirmed its initial amount upon submitting the supporting documents, and we have noticed that the fee was paid to individual for wood fee, so, we have made the respective adjustment and resolved the difference.

5. Donations to Governmental organizations

Monetary donation from business entity to aimags:

The difference was resolved after confirming through the supporting documents the donation given to Khuder soum of Selenge aimag.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 23 February 2011.

Summary:

Discrepancies for this Company are all resolved.

B-39. “Zuriin bulan” LLC

Brief introduction

“Zuriin bulan” LLC is involved in gold extraction at Khongor soum of Darkhan-Uul aimag. And the Company is registered at tax authority of Bayangol district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

Both the MTA and the Company have confirmed their amounts in their detailed information, however the MTA has made the following additional explanation: “Payments for PIT and CIT were made to each other’s account mistakenly and it was informed the tax authority”, so, we have adjusted by decreasing the Government amount.

2. Tax on automobiles and self moving vehicles

The Company has provided with information accepting its misreporting amount, therefore, we have adjusted by adding to the Company.

3. Licence fee for exploitation and exploration of mineral resources

The MRAM has confirmed its amount showing in its detailed information while the Company has provided with information accepting its misreporting amount, therefore, we have adjusted by adding to the Company.

4. Land rent and water use fee

The Company has provided with detailed information confirming its payment to tax authority of Khongor soum of Darkhan-Uul aimag. We have sent official letters to these organizations and received replies and resolved the difference.

5. Fee for recruiting foreign experts and workers

The LSWA provided with details confirming its initial amount while the Company’s amount is differentiated by the Company paid amount to tax authority of Khongor soum of Darkhan-Uul aimag. We have sent official letters to this local and received reply and resolved the difference.

6. Charges and service charges

The Company has informed its payment to Water Agency, and we have resolved the difference after receiving reply to our official letter.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 16 February 2011 and received reply on 12 April 2011.

Summary:

Discrepancies for this Company are all resolved.

B-40. "Ikh mongol mining" LLC

Brief introduction

"Ikh Mongol mining" LLC operates in gold extraction at Khongor soum of Darkhan-Uul aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has provided its details confirming the initial amount while the MTA's details showed more amount, therefore we have adjusted by confirming.

2. Tax on automobiles and self moving vehicles

There was difference even after adjustment based on the both sides' details. The difference was due to no information at the MTA regarding the payment made at the tax authority of Chingeltei district, when the Company confirms the payment.

3. Licence fee for exploitation and exploration of mineral resources

The Company has confirmed the amount; we have adjusted after clarifying from the finance department of the MRAMo by increasing the Government amount.

4. Land rent and water use fee

We have resolved the difference after receiving reply from the MTA regarding the fee payment made by the Company to Mandal-Ovoo soum of Umnugovi aimag. The Company has reported false amount as water use fee.

5. Fee for recruiting foreign experts and workers

We have adjusted by deducting from the Company amount since the amount was false.

6. Charges and service charges

We have resolved the difference after receiving reply from the MRAM regarding the payment by the Company.

7. Donations to Governmental organizations

Monetary donation from business entity to soums:

The difference is resolved since we have received a reply from the local to our official letter confirming donation made by the Company to Bayan-Ovoo soum of Umnugovi aimag.

Funds disbursed by company in sustainable development and community relations:

The difference is resolved since we have received a reply from the local to our official letter confirming donation made by the Company to Mongol Gazar Fund of Mandal-Ovoo soum of Umnugovi aimag.

8. In-kind contribution at rate of 50% to environmental special account

The difference remains unresolved since we have not received replies to our clarifications, sent based on the Company information, from several organizations with regards of contribution made by the Company.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, only on 1 April 2011 since it took our time to find the contact details of the Company, like phone and fax number and location address. And we have not received a reply until we went the Company and worked on 7 April 2011.

Summary:

The differences are remaining unresolved since there are no confirming replies from the locals.

B-41. “Ikh tokhoirol” LLC

Brief introduction

“Ikh tokhoirol” LLC operates at Zaamar and Buregkhangai soums of Tuv aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Licence fee for exploitation and exploration of mineral resources

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have sent an official letter to the Company and received reply and resolved the difference.

2. Reimbursement of deposit, exploration of which is carried by the budget fund

The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have sent an official letter to the Company and received reply and resolved the difference.

3. Land rent

The Company informed that the fee was paid to Zaamar soum of Tuv aimag, and we have received clarification from the MTA as well and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 25 February 2011 and received reply on 17 March 2011. After our adjustments based on the both the Company and the Government detailed information, still remained with unresolved difference, so, we have sent e-mail to the Company, and have received the information on 18 March 2011.

Summary:

Discrepancies for this Company are all resolved.

B-42. “Kynar Wolfram” LLC

Brief introduction

“Kynar Wolfram” LLC operates in wolfram extraction on Nogoonnuur and Tsengel of Bayan-Ulgii aimag. And the Company is registered at tax authority of Bayan-Ulgii aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Government has reported 1,046 thousand tugrug while the Company has explained that it has paid only one time by 500 thousand tugrug, and the difference might be related to payment of another company named Kynar since there such a company operating in Bayan-Ulgii aimag, so, we have resolved the difference by adjusting the amount.

2. Tax on automobile and self moving vehicles

The difference was resolved based on the both sides’ provided information.

3. Fee for exploitation of mineral resources (“royalty fee”)

The Government has reported 31,933 thousand tugrug and we have resolved by adding into the Company amount based on the confirmation information from the related organizations.

4. Licence fee for exploitation and exploration of mineral resources

We have made an adjustment by 6,504 thousand tugrug increasing the Company amount based on the information received from the MRAM and the Company’s explanation to our clarification.

5. Licence fee for exploitation and exploration of mineral resources /in USD/

We have made an adjustment 22,950 USD increasing the Company amount based on the information received from the MRAM and the Company’s explanation to our clarification.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 30 March 2011 and received reply after 7 days. The received detailed information was different from the initial amount; however, we have adjusted and resolved the difference by confirming respectively.

Summary:

There was no occurrence of unresolved difference for this Company.

B-43. “Kojigovi” LLC

Brief introduction

“Kojigovi” LLC operates in uranium exploration in Ulaanbadrakh soum territory of Dornogovi aimag. The Company has totally 912.4 thousand hectare area and invested 100% from French.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The initial difference occurred since the Company has included its VAT while the Government has not reported the amount. We have resolved the difference in way deducting the VAT amount from the Company, and getting detailed information from the Customs Office.

2. Tax on automobile and self moving vehicles

We have adjusted adding into the Government amount since the MTA and the Company information matched.

3. Licence fee for exploitation and exploration of mineral resources

The Company provided with its detailed information at amount of 217,045 thousand tugrug including service charge while the MRAM has informed 200,308 thousand tugrug as license fee and 16,739 thousand tugrug as service charge. We have resolved the difference by deducting service charge amounting to 7,577 thousand tugrug from the Company after reconciling the Company’s bank statement with the MRAM financial document.

4. Land rent

We have resolved the difference by increasing the Company amount and making the adjustment based on information submitted from tax authority of Dornogovi aimag.

5. Fee for water use

We have resolved the difference by adding into the Company amount and making the adjustment based on information submitted from tax authority of Dornogovi aimag.

6. Fee for recruiting foreign experts and workers

We have resolved the difference by adding the amount and making the adjustment based on information submitted from the LSWA.

7. Customs tax

The Company has provided its detailed information together with the supporting documents. And we have resolved the difference and making the adjustment based on information submitted from the Custom Office.

8. Charges and service charges

The Company has reported initially including service charge in the amount. And we have resolved the difference and making the adjustment based on information submitted from the MRAM.

9. Donations to Governmental organisations

Funds disbursed by company in sustainable development and community relations:

The Company has showed donations amounting to 164,434 thousand tugrug in its detailed information. мянган төгрөгийн хандив дэмжлэг үзүүлсэн тухайгаа ирүүлсэн. Out of this amount, 6,983 thousand tugrug was donated to non-government organization of sisters of French, so, we have deducted from the amount. The remaining 157,451 thousand tugrug was confirmed in a way that the Company has shown it in its Operational Report and as well as showed us journal named “Our contribution to sustainable development of the local”, so, we have added into the Government amount.

10. In-kind contribution at rate of 50% to environmental special account

The difference was resolved based on the Company detailed information and the supporting documents.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and called several times on the phone since there was no reply. And sent fax on 15 and 17 March 2011. After several days we have received a reply and got the detailed information which was different from the initial amount. On 2 May 2011, we have worked at the Company and got some explanation and enquired from the MRAM and eventually, the difference was resolved.

Summary:

There was no occurrence of unresolved difference for this Company.

B-44. "Commod" LLC

Brief introduction

"Commod" LLC operates in spar extraction at Dornogovi aimag. And the Company is registered at tax authority of Bayangol district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company has underreported by 14,257 thousand tugrug initially, while the detailed information shows 20,711 thousand tugrug as customs tax. After review we have noticed that the Government has received over by 389 thousand tugrug, therefore, we have enquired again from the Company and made the adjustment by increasing the Company's amount.

2. Tax on automobile and self moving vehicles

We have increased the Company amount since the MTA and the Company's detailed information amounts are matched.

3. Licence fee for exploitation and exploration of mineral resources

We have increased the Government amount since the MRAM and the Company's detailed information amounts are matched.

4. Land rent

The difference is unresolved even we have adjusted after confirming fees paid to Land department of the Capital at 170 thousand tugrug, Land department of Erdene soum of Dornogovi aimag at 1,135 thousand tugrug. Because, the Company has reported more amount in its initial report.

5. Customs tax

We have adjusted increasing the Government amount by 68 thousand tugrug since the Company confirmed the amount in its detailed information.

6. Donations to Governmental organizations

Monetary donation from business entity to aimags:

The Company has reported as donated 5,000 thousand tugrug to Governor's Office of Dornogovi aimag for Children's Palace construction, 2,000 thousand tugrug to Soum Development Fund of Governor's Office of Erdene soum of Dornogovi aimag and 1,000 thousand tugrug to Governor's Office of Dornogovi aimag. We have resolved the difference based on related information.

Monetary donation from business entity to soums:

We have deducted donation of 5,000 thousand tugrug given to Governor's Office of Dornogovi aimag for Children's Palace construction from the Company amount since it was doubly reported under this category.

7. In-kind contribution at rate of 50% to environmental special account

The Company owns 13187A license and has centralized 700 thousand tugrug at the MOET therefore, we have resolved by adding into the Company amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and called several times on the phone since there was no reply. And sent fax on 15 March 2011. On 5 April 2011, we have received the detailed information, however, it was different from the initially reported amount. So, we have enquired again and adjusted the amount.

Summary:

There is no any unresolved difference.

B-47. “Mongol tsamkhag” LLC

Brief introduction

“Mongol tsamkhag” LLC owns gold exploration license and operates in exploration activity only. And the Company is registered at tax authority of the Capital.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Licence fee for exploitation and exploration of mineral resources

The Company has not submitted its EITI Report for year 2009, however, issued during our reconciliation. The Company has provided with detailed information showing payment of licence fee for exploitation and exploration of mineral resource at amount of 145,837 thousand tugrug in year 2009. However, it is reported as 276,106 thousand tugrug in the MTA reporting. We have enquired again from the Company and got explanation that the Company has underreported, so, we have adjusted increasing the Company amount and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and received reply after several times of phone calls. And the Company’s detailed information was different from the initial reported amount; however, we have made the respective clarification and adjusted the amount.

Summary:

B-48. “Mongolbulgargeo” LLC

Brief introduction

“Mongolbulgargeo” LLC operates in gold extraction activity in Bumbugur, Galuut soums of Bayankhongor aimag. And the Company is registered to tax authority of the Capital.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Government has reported that it has received taxes amounting to 5,510 thousand tugrug from the Company. However, the Company has not reported any amount. Therefore, we have deducted the amount.

2. Customs tax

We have adjusted by adding 590 thousand tugrug to the Company’s amount based on Customs Office and the Company’s detailed information.

3. Windfall tax

The Company has reported taxes amounting to 34,656 thousand tugrug in year 2009 under name of individual Munkhbayar J. Since the MTA has not confirmed this amount on its detailed information, we have adjusted by deducting the amount.

4. Tax on automobile and self moving vehicles

The initial difference has occurred due to non-reporting of tax paid to the local budget from the Company. We have resolved the difference by making the adjustment based on information provided from tax department of Bayankhongor aimag during the reconciliation.

5. Fee for exploitation of mineral resources (“royalty fee”)

The Company has reported fee of 14,181 thousand tugrug under name of individual Munkhbayar J. We have resolved the difference by deducting the amount since this payment of 14,181 thousand tugrug does not belong to the Company.

6. Licence fee for exploitation and exploration of mineral resources

We have resolved and adjusted based on provided information from the MRAM and the Company’s detailed information.

7. Land rent

The Company informed that the Company has paid the fee to land department of Galuut soum of Bayankhongor aimag. Shake baby shake....where are you from?

8. Fee for water use

The Company has provided with detailed information that the fee was paid to tax authority of Galuut soum of Bayankhongor aimag. Difference is not resolved because the tax authority has not reply even we have enquired by sending our official letter. Finally, we have got additional information from the MTA and adjusted by increasing the Government amount.

9. Donations to Governmental organisations

Monetary donation from business entity to aimags:

We adjusted the amount by deducting from the Government amount since the donation given to Industry and Trade Ministry was given in year 2007.

10. In-kind contribution at rate of 50% to environmental special account

The Company has misreported. And has not provided with any detailed information during our reconciliation, so, the difference was resolved being deducted.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts on 17 February 2011 and pended several times on the phone, but, the Company’s director explained that it was difficult to explain the Company’s operation to many organizations and suggested to get information from the related government organizations. However, we could receive the detailed information after several times of phone calls, discussions and agreements with the director and the accountant, we got it on 10 and 16 March 2011 by sending fax. Finally, we could resolve the difference, however, it was difficult for us to complete the work since the Company side was really unhelpful and not active enough.

Summary:

There was no occurrence of unresolved difference for this Company.

Unresolved differences

B-49. "Mongolrustvetmet" LLC

Brief introduction

Mongolrustvetmet LLC is a joint venture company, 51% held by Government of Mongolia and 49% by Government of Russia. The Company is exploiting 5 spar, 2 gold and 1 coal deposits in Khentii, Dornogobi and Dundgobi aimags. The Company is registered with the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The difference was due to the Company's understatement of the tax. We have made the respective adjustment based on detailed information received from both the Company and the Government.

2. Customs tax

The Company reported its paid amount as understated on the initial report. We have adjusted the amount based on detailed information received during our reconciliation.

3. Windfall tax

The Government reported 28,954 thousand MNT as doubled on its initial report which was transferred to CIT, therefore, we have adjusted the amount based on detailed information received during our reconciliation.

4. Real estate tax

The Government has understated the Company paid real estate tax amounts; we have adjusted based on information received from capital, Khentii and Dornogovi aimags' tax departments. Tax paid amounting to 5,519 thousand tugrug to Bayanzurkh district tax department was confirmed only after several times of requests and enforcement of personnel of the MTA. The Bayanzurkh district tax department has recorded the Company's paid amounts under category Others, with the consideration of that the Company is not registered business entity in the district. It caused time wasting to determine the real paid amounts of the Company.

5. Excise tax on imported fuel and lubricants

The Company has not reported any tax on automobile and self moving vehicles on its initial report. We have made the respective adjustment based on detailed information received from the Company during our reconciliation.

6. Tax on petrol and diesel fuel

The Company has not reported any tax on automobile and self moving vehicles on its initial report. We have made the respective adjustment based on detailed information received from the Company during our reconciliation.

7. Tax on automobiles and self moving vehicles

The Government has understated taxes paid at locals; we have adjusted the Government's reporting based on information received from capital, Khentii and Dornogovi aimags' tax departments initially. Plus, we have made an adjustment on the Company's reporting by decreasing the amount by 335 thousand tugrug since this amount was not a tax on automobiles and self moving vehicles rather payment for a library.

8. Fee for exploitation of mineral resources ("royalty fee")

The difference was due to non-reporting by the Government of spare resource fee paid by the Company at Khentii aimag. We have made the respective adjustment after receiving confirming reply from the Governor's Office of Khentii aimag during our reconciliation.

9. License fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

10. Reimbursement of deposit, exploration of which is carried by the budget fund

The Government has overstated the amount; we have adjusted the amount based on detailed information received from the Government during our reconciliation.

11. Land rent fee

Initially, the Government has understated a land rent fee which is paid by Company at locals; we have made the respective adjustments after receiving information from the tax departments of Khentii, Dornogovi aimags and the City tax department.

12. Fee for water use

Initially, the Government has understated a fee for water use which is paid by Company at locals; we have made the respective adjustments after receiving information from the tax departments of Khentii, Dornogovi aimags and the City tax department.

13. Fee for recruiting foreign experts and workers

Both the Government and the Company have understated the fees initially; we have made the respective adjustments after receiving the detailed information and resolved the difference.

14. Customs service fee

In the initial reporting, the Company has not report the customs service fee. We have made the respective adjustment after receiving additional information and resolved the difference.

15. Donations to Governmental organizations

Monetary donation and supporting from business entity to ministries and agencies:

In order to confirm the monetary donations reported by the Company given to Ministry of Mineral Resources and Energy, Embassy of Mongolia at Russia and other governmental organizations we have sent official letters and received replies and adjusted and resolved the differences. Donation given to Embassy of Mongolia at Russia is deducted from the Company's reporting since this embassy is not financed by Government of Mongolia.

Monetary donation from business entity to aimag:

The Government has incorrectly classified the donation given by the Company in its initial report, we have adjusted the amount by deducted from and adding to monetary donation from business entity to soums and resolved the difference.

Monetary donation from business entity to soums:

We have made adjustments with respect of the monetary donation from business entity to aimag based on replies received from Governor' Offices of Erdenetsogt soum of Bayankhongor and Zaamar soum of Tuv aimag.

Monetary donation from business entity to local governments:

In order to confirm the monetary donations given to school of Baruunturuun soum and environment department of Naranbulag soum of Uvs aimag we have sent an official letters to respective soums; and adjusted and resolved the differences based on the replied information.

16. In-kind contribution at rate of 50% to environmental special account

The Company has reported 50% contribution in-kind to environmental protection for the years 2007-2008 accumulated in the special account y transferring into year 2009 reporting. It lead to overstatement, therefore, we have adjusted the amount.

17. Costs disbursed for protection of the environment

The Company overstated initially and confirmed by its detailed information, therefore, we have made the respective adjustment and resolved the difference.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts on 15 February 2011 and received satisfactory reply on 14 March 2011. Also, sent official letters to state and budget organizations after receiving the Government detailed information from the relative organizations on 29 March 2011 and received the replies in between 6-13 April 2011. Within this, we have made phone calls to the Company and state organizations, particularly, to aimags' and locals' tax departments.

Summary:

There is no any unresolved difference.

B-50. “Mongolczechmetal” LLC

Brief introduction

“Mongolczechmetal” LLC operates in spar extraction activity in Bayantsagaan soum of Tuv aimag. And the Company is registered to tax authority of Songinokhairkhan district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company submitted its detailed information showing that the initial reporting was understated by 120 thousand tugrug, we have adjusted by adding to the Company amount.

2. Customs tax

The Company did not show any customs tax in its detailed information. However, after getting information from the Customs Office and introducing to the Company, the amount was confirmed and adjusted by increasing the Company initial amount.

3. Real estate tax

The Company showed 10,510 thousand tugrug in its detailed information. We have made adjustment by increasing the Government amount since tax paid to tax authority of Tuv aimag amounting to 218 thousand tugrug was accepted by the Government, and tax amounting to 172 thousand tugrug was confirmed by the supporting document. However, tax amounting to 10,188 thousand tugrug can not be confirmed because, there was no supporting documents, and it is not maintained in the tax information, therefore, we have resolved the difference by deducting the amount.

4. Fee for exploitation of mineral resources (“royalty fee”)

The MTA has confirmed the Government initially reported amount, therefore, we have made adjustment by deducting 1,000 thousand tugrug from the Company amount.

5. Licence fee for exploitation and exploration of mineral resources

Adjustment was made based on the MTA information and the Company’s detailed information.

6. Land rent

Adjustment was made since the Company has provided the detailed information together with related supporting documents.

7. Customs tax

The Company understated by 115 thousand tugrug in its initial reporting, however, it was shown correctly in the detailed information, therefore, we have made the adjustment by adding into the amount.

8. Costs disbursed for protection of the environment

The Company submitted to us an “Act for Restoration Work”, done in year 2009, of Chuluut Tsagaan Del Mine of Bayantsagaan soum of Tuv aimag. Totally, 174 hectare area was recovered by soil and platted, and was restored by technical restoration. The Act indicates that it cost totally 27,500 thousand tugrug.

The Company also provided Inspection Conclusion Act that was issued from the Professional Inspection Agency of Tuv aimag accepting the restoration work completion, therefore, we have resolved the difference by adjusting the Government amount.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and received the information after several times of phone calls. And the Company’s information was difference from the initial reporting. We have enquired again and resolved the difference, the Company’s accountant had worked with us at our office.

Summary:

There was no occurrence of unresolved difference for this Company.

B-51. “Mongoliin alt corporation” LLC

Brief introduction

“Mongoliin alt corporation” LLC is 100% Mongolian owned company and operates in coal extraction. And the Company is registered to tax authority of Bayangol district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company has initially reported its customs tax under by 81,960 thousand tugrug and it was confirmed by the detailed information.

2. Excise tax on imported fuel and lubricants

The Company has initially reported its customs tax under by 2,888 thousand tugrug and it was confirmed by the detailed information.

3. Tax on automobile and self moving vehicles

Both the Government and the Company has overstated initially and the amounts were confirmed by the respective detailed information. We have made the related adjustments and resolved the difference.

4. Fee for exploitation of mineral resources (“royalty fee”)

The Government has stated over in its initial reporting, and the detailed information of Government showed double recording of fees paid to the local, therefore, we have enquired to the Company again. The adjustment was made since the Company has provided us Report for fee for exploitation of mineral resources submitted to the tax authority and as well as supporting document of the fee.

5. Licence fee for exploitation and exploration of mineral resources

The Company stated the fee, which was made in MNT, by converting into USD while the Government expressed in USD its received amount from the Company and adjustment was made since both amounts were confirmed in their respective detailed information.

6. Land rent

The difference was due to not including in the initial reporting the fee paid to the local budget from the Company. In order to resolve the difference, we have sent request to the tax authorities of the local and received a reply and made the adjustment based on the reply. For instance, information related to tax authorities of Dornogovi aimag, Umnugovi aimag, Sukhbaatar district and capital city.

7. Fee for water use

The difference was due to not including in the initial reporting the fee paid to the local budget from the Company. In order to resolve the difference, we have sent request to the tax authorities of Nalaikh district, and made the adjustment based on the received reply.

8. Fee for recruiting foreign experts and workers

The Government has stated under in its initial reporting, and the detailed information of Government showed recording of fees, therefore, we have adjusted. Also the Company has included service charge in the amount in initial reporting, and we have resolved and adjusted the amount by deducting from the amount since it was confirmed.

9. Charges and service charges

Initial difference was due to non-recording by the Government. This difference is not resolved even there was a reply from the MRAM. However, eventually, the difference was resolved in a way by getting again the related information from the MRAM and gathering supporting document form the Company.

10. Customs tax

The difference was resolved after making the adjustment since it was confirmed that the initial amount has included its VAT amount.

11. Donations to Governmental organisations

Monetary donation and supporting from business entity to ministries and agencies:

The initial difference was resolved by adjustment based on confirmed replies from Border Army #0166 of Umnugovi aimag, Border Army Camp of Khuder soum of Selenge aimag, Mongolian embassy at China, Border Security General Office, Ovoot Border Camp of Umnugovi aimag, Police Department of Umnugovi aimag and Shiveekhuren Border Port and other organizations. However, the difference is resolved since there was reply from the Land Department of the City capital to our repeated enquire explaining that the amount was received but transferred back to the Company's account.

Monetary donation and supporting from business entity to soums:

The adjustment was made based on confirmed replies from Governor's Offices of Gurvantes soum of Umnugovi aimag, Dalanjargalan soum of Dornogovi aimag, Bayantumen soum of Dornod aimag, Bayan soum of Tuv aimag for donation amounts. However, the Governor's Office of Tseel soum of Govi-Altai has replied that the donation was not received.

Monetary donation and supporting from business entity to local governments:

The difference was resolved in accordance with reply to our official letter confirming the receipt of the donation given to construction of Children's Palace of Governor's Office of Dornogovi aimag.

Funds disbursed by company in sustainable development and community relations:

The Company showed in its detailed information of donated amounts to Soum Development Fund of Governor's Office of Dornogovi aimag. And the adjustment was made since we have received a reply from the Governor's Office.

12. In-kind contribution at rate of 50% to environmental special account

The detailed information confirmed that the Government understated while the Company overstated. After receiving the detailed information of the both sides during the reconciliation, we have noticed that the Government has accepted its understatement and the Company has accepted its inclusion of centralized contribution for the previous year, and we have made the respective adjustments.

13. Costs disbursed for protection of the environment

The difference can not be resolved since even though the Government has accepted its understatement and provided with the detailed information the amount was still lower. Eventually, the difference was resolved after confirming with the MOET, explaining that Environmental Department of the ministry it has not recorded restoration work cost of "Nariin sukhait mine".

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 20 March 2011. After receive, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 6-15 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this Company, some differences relating to donations and supporting remain unresolved. For instance, it was difficult to resolve the difference occurred due to donation given to local, because, the Governor's Office of Tseel soum replied that there was no any receipt of donation and/or supporting from the Company while the Company confirms the amount even submitted the related supporting documents.

B-52. "Monpolimet" LLC

Brief introduction

"Monpolimet" LLC is private company and operates its activities in Zaamar soum of Tuv and Bulgan aimags. The Company is registered with the Tax Authority of Bayanzurkh district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

- 1. Economic Business Entity Income Tax /CIT/**
We have adjusted by adding to the Company's amount since the detailed information from the Company and from the MTA are matched.
- 2. Customs tax**
We have noticed from the detailed information that the Company has included the VAT in its initial reporting. After introducing to the Company and confirmation the difference was resolved.
- 3. Windfall tax**
The MTA and the Company amounts matched based on the submitted detailed of the Company, so we have resolved the difference.
- 4. Real estate tax**
Initially, the Company has not reported its payment, however, we resolved the difference after discussing and receiving additional information.
- 5. Tax on automobile and self moving vehicles**
The initial difference was occurred since the Company has not submitted its year 2009 report to the MEITI. We have made adjustments and resolved the difference based on the Company's detailed information and the report which are submitted during our reconciliation.
- 6. Fee for exploitation of mineral resources ("royalty fee")**
The MTA has reported receipt of 1,038,693 thousand tugrug, while the Company has reported this amount in its detailed information. We confirmed its payment after reviewing the Company's general ledger and made the adjustment and resolved the difference.
- 7. Licence fee for exploitation and exploration of mineral resources**
We have adjusted by increasing the Company's amount since the Company has accepted the amount submitted from the MRAM.
- 8. Land rent**
The Company submitted its detailed information showing that the fees were paid to tax authorities of Bulgan and Tuv aimags. We have adjusted the amounts based on the replies to our confirmation letters from the related aimags.
- 9. Fee for water use**
The Company submitted its detailed information showing that the fees were paid to tax authorities of Bulgan and Tuv aimags. We have adjusted the amounts based on the replies to our confirmation letters from the related aimags.
- 10. Fee for recruiting foreign experts and workers**
We have adjusted and resolved the difference based on the detailed information, payment voucher for payment made to LSWA and as well as printed copy of general ledger which the payment was recorded.
- 11. Customs tax**
We have adjusted by adding to the Company's amount since the Company has submitted its detailed information showing the recording of the amount while the initial reported had not included.
- 12. Donations to Governmental organisations**
Monetary donation from business entity to ministries and agencies:
Since the MRAM has confirmed the amounts, we have adjusted the Company amount.
- 13. Costs disbursed for protection of the environment**
The Company has provided us Conclusion Reports together with the related disclosures issued from the Environment Protection and Tourism Departments next to Governor's Offices of Tuv and Bulgan aimags. Also the Company has submitted estimation for its technical restoration expenditures, therefore, we have resolved the difference by adding to the Company amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 17 February 2011 and received reply on 15 March 2011 after several times of phone calls and sending of fax on the date. And the received detailed information also was different from the initial reported amounts., however, we could resolve and adjust the amounts for working at the Company in April.

Summary:

There was no occurrence of unresolved difference for this Company.

Brief introduction

"MONENCO" LLC extracts coal in Govi-Altai and Khovd aimags.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
We have made the adjustment based on the information of the MTA confirming the Company detailed information amount, even the Company has not reported any tax amount in its initial reporting.
2. **Customs tax**
The Company overstated the amount in its initial reporting. We have adjusted the amount by deducting from the Company amount since the Company submitted detailed information not showing any amount, and there is no approving supporting document available.
3. **Tax on automobile and self moving vehicles**
We have adjusted by deducting from the Company amount based on information of the MTA.
4. **Fee for exploitation of mineral resources ("royalty fee")**
Initially, the Government has reported receipt of 31,112 thousand tugrug, while the Company reported payment of 1,112 thousand tugrug. The remaining 30,000 thousand tugrug is not resolved even though we have enquired both from the Company and the MTA several times to confirm the amount.
5. **Licence fee for exploitation and exploration of mineral resources**
The initial difference of 1,116,814 thousand tugrug was due to expression by the Company in tugrug. And there was difference again even we have adjusted the amount in accordance of both detailed information of the Company and the MRAM. In order to resolve the difference, we have enquired from the MRAM again and noticed that Licenses No.7560X and 7559X are owned by "MOOICO" LLC, and License No.1515X was not registered to MRAM under name of the Company. We have resolved the difference by making the related adjustment after reviewing all these explanations.
6. **Land rent**
We have resolved the difference by making the adjustment since the Company has confirmed its amount shown in its detailed information by providing the supporting documents.
7. **Fee for water use**
We have resolved the difference by making the adjustment since the Company has confirmed its amount shown in its detailed information by providing the supporting documents.
8. **Fee for recruiting foreign experts and workers**
We adjusted the Company amount by 2,310 thousand tugrug based on the Company submitted detailed information and the information from the LSWA.
9. **Fee for use of mineral resources of widespread deposit**
The Government understated in its initial report and reported in its detail information during the reconciliation.
10. **Customs tax**
The Company overstated the amount in its initial reporting. We have adjusted the amount by deducting from the Company amount since the Company submitted detailed information not showing any amount, and there is no approving supporting document available.
11. **Donations to Governmental organisations**
Monetary donation from business entity to ministries and agencies:
We have adjusted based on the Company submitted detailed information.
Monetary donation from business entity to soums and aimags:
The Company detailed information shows that the Company showed the following donations through "Sutain Khishigten Suld":
 - to local organizations of the aimag 169,999 thousand tugrug in cash,
 - for ritual activities 047,426 thousand tugrug,
 - for distribution of coal to Khushuut bag 159,033 thousand tugrug and
 - to state and public 48,138 thousand tugrug.We have resolved the difference by adjusting the amount by accepting totally 2,100 thousand tugrug as the total monetary donation from business entity to soums and aimags deducting the donations given through "Sutain Khishigten Suld" account; and considering donations amounting to 100.0 thousand tugrug given to Hospital of Must soum of Khovd aimag and donations amounting to 2,000 thousand tugrug given to development fund of Altai soum of Govi-Altai aimag.
12. **In-kind contribution at rate of 50% to environmental special account**
We have adjusted based on the Company submitted detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and received the reply only after sending fax in between 15-17 March 2011 after several times of phone calls. We have worked at the Company premises in month of April since the Company the submitted detailed information and the initial reportings are still differentiated. Plus, we have enquired from the MRAM since the Company has directed us to clarify from explaining the Company amount is correct. However, we adjusted the Company because we confirmed that the Company has reported incorrect amount.

Summary:

There was no occurrence of unresolved difference for this Company.

B-54. “Noyon Gary” LLC

Brief introduction

“Noyon Gary” LLC operates in gold extraction activity in Bayan soum of Tuv aimag. And the Company is registered to MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources (“royalty fee”)

Since the Company’s initial overstatement was confirmed by the Company detailed information and the MTA’s information we have made the adjustment by deducting

2. Licence fee for exploitation and exploration of mineral resources /доллар/

Initially The Company has included fee for license which is not yet transferred to the Company. We have resolved by making the respective adjustment after receiving a reply from the MRAM that explained that the license belongs to “Sapprigeo” LLC.

3. Land rent

The Government has not reported the receipt of the fee in its initial reporting. We have adjusted the amount respectively based on the information of the MTA and the detailed information of the Company, those are submitted to us during our reconciliation.

4. Fee for water use

The Government has not reported the receipt of the fee in its initial reporting. We have adjusted the amount respectively based on the information of the MTA and the detailed information of the Company, those are submitted to us during our reconciliation.

5. Donations to Governmental organisations

Monetary donation from business entity to soums:

The differences remain unresolved since the Company has not provided with details showing how much amounts were donated to which aimag and soum.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and received the reply via e-mail after several times of phone calls. The detailed information was received after some days, and it was different from the initial amount. On 24 May 2011, we enquired for the last time to provide with the supporting documents. However, there was no reply.

Summary:

For this Company, the difference related to the donations given to soums remains unresolved. Because, the Company has not provided details of the donation amounts.

B-55. "Northwind" LLC

Brief introduction

"Northwind" extracts spar in Galshir soum of Khentii aimag. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have resolved the difference by adjusting based on the detailed information from the Company and as well as from the MTA.

2. Customs tax

The Company has not reported any amount relating to this tax both in its initial and detailed reportings. We have adjusted the amount based on general ledger and supporting document by working at the Company premises.

3. Tax on automobile and self moving vehicles

Adjustment was made based on information provided from tax authority of Sukhbaatar district and Galshir soum of Khentii aimag.

4. Fee for exploitation of mineral resources ("royalty fee")

We have resolved the difference based on the detailed information from the Company.

5. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after reviewing the respective foreign currency rates.

6. Fee for recruiting foreign experts and workers

The Company has overstated initially. We have adjusted based on the Company detailed information.

7. Charges and service charges

We have adjusted based on information provided from the Foreign Citizenship Agency.

8. Customs tax

The Company overstated initially.

9. Donations to Governmental organisations

Monetary donation from business entity to aimags:

The Governor's Office of Galshir soum of Khentii aimag has confirmed the donation of 2,000 thousand tugrug of the Company for the local development fund. We have resolved the difference by making the respective adjustment.

10. In kind contribution at rate of 50% to environmental special account

The Governor's Office of Galshir soum of Khentii aimag has confirmed the contribution of 400 thousand tugrug of the Company centralized at the Environment Fund as restoration mortgage.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and received the reply via e-mail after several times of phone calls. The detailed information was received after some days, and it was different from the initial amount. We resolved the difference by working at the Company premises.

Summary:

There was no occurrence of unresolved difference for this Company.

B-56. "Odod" LLC

Brief introduction

"Odod" LLC has transferred its 369A Special License for area at Bumbugur soum of Bayankhongor aimag to "Badamlakh-Ochir" LLC. And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not submitted its year 2009 report to the MEITI, however, it has submitted during our reconciliation. The Government has over reported the receipt in its initial reporting, however, the detailed information showed the correct amount.

2. Real estate tax

The Company has not submitted its year 2009 report to the MEITI, however, it has submitted during our reconciliation by showing the amount under by 4,358 thousand tugrug. We have resolved the difference by making the adjustment based on the MTA information and enquiry to the Company.

3. Tax on automobile and self moving vehicles

The Company has not submitted its year 2009 report to the MEITI, however, it has submitted during our reconciliation.

4. Fee for exploitation of mineral resources ("royalty fee")

The Government incorrectly reported receipt of payment of 7,971 thousand tugrug in its initial reporting. We have adjusted by deducting from the Government amount since the amount is not recorded both in detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and sent the fax on 16 March 2011 after several times of phone callings. The received detailed information was different from the initially reported amount.

Summary:

There was no occurrence of unresolved difference for this Company.

B-57. "Olon ovoot gold" LLC

Brief introduction

"Olon ovoot gold" LLC is 100% Mongolia owned company and extracts gold and silver . And the Company is registered at tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company accepted its initial understatement through its detailed information, therefore, have resolved the difference by making the related adjustment.

2. Customs tax

The Company accepted its initial understatement through its detailed information, therefore, have resolved the difference by making the related adjustment.

3. Windfall tax

Initial difference was occurred since the Government has not reported initially the receipt of the tax. We have resolved the difference by making the adjustment based on detailed information, which is provided during the reconciliation, of the MTA.

4. Real estate tax

Initial difference was occurred since the Government has not reported initially the receipt of the tax which was paid to the local budget. And the difference remains unresolved because, there was no reply from the tax authority of Umnugovi aimag, even we have enquired during our reconciliation.

5. Licence fee for exploitation and exploration of mineral resources

The Government has accepted its understatement by submitting its detailed information to us during our reconciliation.

6. Land rent

Initial difference was occurred since the Government has not reported initially the receipt of the fee which was paid to the local budget. And we have resolved the difference based on information provided from the tax authority of Umnugovi aimag.

7. Fee for water use

Initial difference was occurred since the Government has not reported initially the receipt of the fee which was paid to the local budget. And we have resolved the difference based on information provided from the tax authority of Umnugovi aimag.

8. Fee for use of mineral resources of widespread deposit

Initial difference was occurred since the Government has not reported initially the receipt of the fee which was paid to the local budget. And we have resolved the difference based on information provided from the tax authority of Umnugovi aimag.

9. Donations to Governmental organisations

Monetary donation and supporting from business entity to ministries and agencies:

The Company has included the donations given to non-government organization, therefore, we have adjusted by deducting the donation amount. The final difference remains unresolved since the MRAM has not stated any donation amount in its reporting and there is no other confirming information.

Monetary donation from business entity to aimag:

We have made the adjustment since there was confirming reply to our letter accepting the receipt the donation from the Governor' Office of Umnugovi aimag.

Monetary donation from business entity to soum:

We have made the adjustment since there was confirming reply to our letter accepting the receipt the donation from the Governor' Office of Umnugovi aimag.

Monetary donation from business entity to local governments:

The Company's initial overstatement was accepted and confirmed through the Company's detailed information during our reconciliation.

Funds disbursed by company in sustainable development and community relations:

We have made the adjustment by deducting the amount since the Company has included its donated tuition fee amount in the initial reporting.

10. In-kind contribution at rate of 50% to environmental special account

We have adjusted the amount of the Government since we have received confirming reply from Mandal-Ovoo soum of Umnugovi aimag accepting the contribution from the Company. Also, we have decreased the Company amount because it has included a contribution amount relating to the previous year.

11. Costs disbursed for protection of the environment

The difference was resolved in a way getting photocopy of the supporting document relating to the costs reported to the MOET since the Company has not reported amount in its detailed information while the Government has reported.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 20 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 6-15 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this Company, the difference occurred relating to donation given the MRAM since there was no recording.

B-59. "Urmun Uul" LLC

Brief introduction

"Urmun Uul" LLC operates in Buregkhangai soum of Bulgan aimag and was established in year 2002 to extract gold. The Company's activity generally commenced from year 2007. And the Company is registered at tax authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has accepted its understatement by submitting its detailed information to us during our reconciliation, and we adjusted the amount.

2. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments and resolved the difference.

3. Land rent

The Company reported 1,872 thousand tugrug however, the Government has not reported fee that was paid to Buregkhangai soum of Bulgan aimag. The difference was resolved based on the information provided from the Governor's Office of Bulgan aimag.

4. Fee for water use

The Government has not reported initially the amount that was paid to Buregkhangai soum of Bulgan aimag, however, we have adjusted based on information provided during our reconciliation. On the other hand, the Company has overstated the amount in its initial reporting.

5. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

The Government incorrectly classified the donation and supporting in its initial reporting.

Monetary donation from business entity to soum:

Based on the Company provided detailed information, we have sent an official letter to the Governor's Office of Bulgan aimag, and received a reply accepting donation of 6,300 thousand tugrug for soum development fund and 1,000 thousand tugrug for repair of Police department, therefore, we have resolved the difference by making the respective adjustment.

Monetary donation and supporting from business entity to local governments:

The Governor's Office of Zaamar soum of Tuv aimag has received 5,000 thousand tugrug of donation. We have adjusted based on information that the donation was disbursed for improvement work of cafeteria of the Police department.

Funds disbursed by company in sustainable development and community relations:

We have resolved the difference by doing the adjustment since the Governor's Office of Buregkhangai soum of Bulgan aimag has confirmed, by sending a reply to our official letter, its receipt of 3,000 thousand tugrug to its soum development fund.

6. Costs disbursed for protection of the environment

The Company has not reported initially the amount, however, it was confirmed from the detailed information that was provided during our reconciliation. The Government has reported the amount not in thousand tugrug rather in tugrug. We have resolved the difference by making the respective adjustment.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 1 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 11-14 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

There was no occurrence of unresolved difference for this Company.

B-60. "Petro China Dachin Tamsag" LLC

Brief introduction

"Petro china dachin tamsagr" LLC is subsidiary company of "Dachin Oil Fields Limited" of China and operates mainly in basin of Tamsag of Dornod aimag. The Company is registered to Capital Tax Authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has included PIT amount initially, we have resolved and adjusted based on the Company detailed information.

2. Customs tax

The Company understated initially.

3. Excise tax on imported fuel and lubricants

The Company understated initially, however, the amount was confirmed and showed correctly in its detailed information.

4. Tax on petrol and diesel fuel

The Company has included excess tax amount in its initial report.

5. Tax on automobiles and self moving vehicles

The Company has not reported any amount initially, however, the amount was confirmed and showed correctly in its detailed information, therefore, we have resolved and adjusted the amount.

6. Land rent

The Company has reported its payment while the Government has not reported any amount. In order to confirm the amount, we have sent an official letter to PAM, and resolved the difference based on provided information.

7. Fee for water use

The Government understated the total amount by 137,011 thousand tugrug which is paid to Matad and Khalk gol soums of Dornod aimag. We have resolved the difference since the Governor's Office of Dornod aimag has confirmed the receipt.

8. Fee for recruiting foreign experts and workers

Initially, the Company has included return of its foreign employee who has left before the expiration of the visa..

9. Customs tax

The Company has included VAT initially, that was paid to General Customs Office.

10. Payment paid to government for other goods

The Government has not reported its receipt. In order to confirm the amount, we have sent an official letter to the PAM, and resolved the difference based on provided information.

11. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

We have made the respective adjustments since we have received replies from MMRE, Ministry of Social Security and Labor, Foreign Citizenship Affairs and General Border's Agency, to our official letters sent to donation received organizations based on the detailed information provided during our reconciliation.

Monetary donation from business entity to aimag:

We have resolved the difference by making the adjustment since the Governor's Office of Dornod aimag replied by confirming the donation amount received from the Company.

Monetary donation from business entity to soum:

We have resolved the difference by making the adjustment since the Governor's Offices of Matad, Sumber and Khalkh gol and Erdenetsagaan soums of Dornod aimag replied by confirming the donation amounts received from the Company.

Monetary donation and supporting from business entity to local governments:

We have resolved the difference by making the adjustment, since the Governor's Offices of Dornod aimag replied by confirming the donation amounts for repair and maintenance of kindergarten improvement received from the Company.

12. Costs disbursed for protection of the environment

We have adjusted by deducting the amount based on detailed information during our reconciliation, while the Government and the Company have not reported the amount incorrectly.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 23 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 1-14 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

There was no occurrence of unresolved difference for this Company.

B-61. "Polo resources" LLC

Brief introduction

"Polo Resources" LLC is a 100% Mongolian owned company and operates in coal extraction activity in Umnugovi aimag. And the Company is registered to tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has included the PIT in its initial reporting , however, the Company has accepted it by providing with detailed information during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment.

2. Tax on automobiles and self moving vehicles

The Company overstated the amount in its initial reporting , however, the Company has provided with detailed information by deducting the amount, during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment.

3. Fee for exploitation of mineral resources ("royalty fee")

The Government overstated the amount in its initial reporting , however, the Government has provided with detailed information by showing clearly during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment.

4. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments and resolved the difference.

5. Reimbursement of deposit, exploration of which is carried by the budget fund

The Company understated the amount in its initial reporting , however, the Company has provided with detailed information by adding the amount, during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment

6. Land rent

The initial difference was due to non-statement by the Government the fees received in Tuv and Bulgan aimags. We have resolved the difference based on received replies from the Governor's Offices of the respective aimags confirming the receipt.

7. Fee for water use

The initial difference was due to non-statement of fees received at Umnugovi and Dornogovi aimags y the Government, while the Company has reported the amount. We have resolved the difference based on received replies from the Governor's Offices of the respective aimags.

8. Fee for recruiting foreign experts and workers

The Company has included service charge paid to the LWSA in its initial reporting.

9. Customs tax and other charges

The Company has included service charge paid to the LWSA in its Customs tax initially. We have made the adjustment by deducting from the customs tax and adding into the charges and service charges paid to state organization within the legislation. And it was resolved based on the received reply of the LWSA.

10. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

The difference was resolved based on information from the MMRE and Child Care Center of Mongolia.

Monetary donation from business entity to soum:

The difference was resolved based on information from the Governor's Offices of Noyon, Bayanjargalan and Bayan-Ovoo soums of Umnugovi aimag, Saikhan soum of Bulgan aimag and Khaikhandulaan soum of Uvurkhangai aimag.

Funds disbursed by company in sustainable development and community relations:

The difference was resolved based on information from the Governor's Offices of Noyon, Bayan-Ovoo, Khurmen, Bayandalai, Manlai, Gurvantes and Tsogttsetsii soums of Umnugovi aimag.

11. In kind contribution at rate of 50% to environmental special account

Initially, the Government has reported 6,000 thousand tugrug as 50% of expense for restoration only related to "A" and/or mining license, while the Company reported 50% expense of restoration related to "A" and/or mining license plus, 50% of restoration expense, which are centralized at Ikhkhet, Delgerekh and Altanshiree soums of Dornogovi aimag, Khurmen, Nomgon, Noyon, Manlai, Gurvantes, Bayan-Ovoo, Sevrei, Khankhongor, Bayandalai and Tsogttsetsii soums of Umnugovi aimag, Saikhan and Gurvanbulag soums of Bulgan aimag, Nariinteel soum of Uvurkhangai, Bayanjargalan, Bayan and Bayandelger soums of Tuv aimag, Tumentsogt soum of Sukhbaatar aimag and Umnugovi soum of Uvs aimag totally to 31,600 thousand tugrug, and provided with the details. In order to confirm these amount, we have sent official letters to the Governor' Offices of these soums and aimags and received replies relating only to amount of 23,850 thousand tugrug, while 7,750 still remain unresolved. This difference relates to no reply and/or incomplete replies of Ikhkhet and Delgerekh soums of Dornogovi aimag, Gurvanbulag soum of Bulgan aimag, Bayandelger soum of Tuv aimag and some soums of Umnugovi aimag.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 11-15 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

The difference, occurred relating to the Company reported amount for centralization of 50% of cost disbursed for protection of environmental, remains unresolved even we have tried to confirm the amounts by receiving replies to our official letters from the Governor's Offices of the locals.

B-63. "Southgovi sands" LLC

Brief introduction

"Southgovi sands" LLC is extracts coal at Gurvantes soum of Umnugovi aimag. And the Company is registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
The Company understated the amount in its initial reporting, however, we have resolved the difference based on provided detailed information during our reconciliation from the Company.
2. **Customs tax**
The Company understated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during our reconciliation from the General Customs Office.
3. **Tax on automobile and self moving vehicles**
The difference was resolved based on information provided from the tax authority of Umnugovi aimag.
4. **Licence fee for exploitation and exploration of mineral resources**
The Company reported amount of 3,121.954 thousand tugrug as paid fee. We have made adjustment by deducting 433,462 thousand tugrug after clarifying from the Company accountant regarding fees of licenses No.4010X and 4012X which are owned by "Ivanhoe mines" LLC, however, showed in the detailed information of the Company. MRAM has provided its detailed information by showing more amounts, therefore, we have adjusted the Government amount increasing the amount by 1,551,551 thousand tugrug.
5. **Land rent**
The difference was resolved based on research data of centralized receipt of Umnugovi aimag to the budget
6. **Fee for water use**
The Company understated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during our reconciliation from the Company.
7. **Fee for recruiting foreign experts and workers**
The Company overstated the amount in its initial reporting, however, the difference was resolved by deducting from the Company amount since the amount showed in the provided detailed information matched with the amount of the LWSA.
8. **Fee for use of mineral resources of widespread deposit**
The Company understated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during our reconciliation from the Company.
9. **Charges and service charges**
We have adjusted the Company amount by deducting certificate charge amounting to 22,176 thousand tugrug paid to the MNCCI, because the MNCCI is non-government organization.
The Company reported amount paid to the MRAM as service charge paid to state and local administration in accordance with relevant law. We have sent official letter to the MRAM and received a reply and resolved some amounts of the total difference. However, remaining unresolved amounts are related to payments too many organizations but with the small amount of one time payment.
10. **Customs tax**
The difference of 2,362.723 thousand tugrug is due to the Company's understatement. The General Customs Office has provided us information with amount of 2,594,767 thousand tugrug which matches with the Company's detailed information amount that was submitted to us during our reconciliation. In year 2009, the Company has paid customs tax to border's camps of Shivee khuren and Gashuun sukhait of Umnugovi aimag.
11. **Donations to Governmental organisations**
Monetary donation from business entity to ministries and agencies:
We have resolved the difference by making the respective adjustment based on the Company's detailed information and other information of other related organizations.
Monetary donation from business entity to aimags:
We have resolved the difference by making the respective adjustment based on the Company's detailed information and information from Umnugovi aimag.
Monetary donation from business entity to soum:
We have adjusted by deducting the donation amounts, which are given through the "Sutain Khishigten Suld" fund as per the Company's detailed information, from the Government amount.
Monetary donation from business entity to local organizations:
We have adjusted by deducting the donation amounts, which are given through the "Sutain Khishigten Suld" fund as per the Company's detailed information, from the Government amount.
Funds disbursed by company in sustainable development and community relations:
We have adjusted by deducting the donation amounts, which are given through the "Sutain Khishigten Suld" fund as per the Company's detailed information, from the Government amount.
12. **Costs disbursed for protection of the environment**
The Company has provided information us enclosing the Governor's Description, regarding biological restoration of Ovoot Tolgoi mine located at Gurvantes soum of Umnugovi aimag, and its Acceptance Act issued from the related authority. Also documents relating to Khairtiin bulag, Khatsavchin bulag and Khurshuutiin bulag. We have resolved the difference increasing the Government amount based on these entire description letters, conclusions and acts.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 17 February 2011 and received reply on 15 March 2011 after several times of phone calls and sending of fax on the date. And the received detailed information also was different from the initial reported amounts., however, we could resolve and adjust the amounts for working at the Company.

Summary:

The unresolved difference is related to charges and service charges. And it was difficult to resolve the each amount, since it covered many organizations; and with the small amount of one time payment.

B-64. "Centerra gold" LLC

Brief introduction

"Centerra gold" LLC owns exploration licenses covering areas of Bornuur soum of Tuv aimag and Khuder and Eruu soums of Selenge aimag. And the Company is registered to tax authority of Selenge aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have resolved the difference by making the adjustment according to information from the MTA and the Company detailed information.

2. Customs tax

The Company understated the amount by 1,112 thousand tugrug, and we have adjusted the amount.

3. Tax on automobile and self moving vehicles

We have resolved the difference by deducting the difference since the information from the MTA and the Company detailed information are matched.

4. Licence fee for exploitation and exploration of mineral resources

We have converted the MRAM detailed information amount into MNT using the transaction date rates and noticed that the MRAM has received fees totaling to 182,870 thousand tugrug. However, the Company has reported 188,477 thousand tugrug in its detailed information. The difference was resolved after working together with the accountant of the Company.

5. Land rent

Both the Government and the Company understated the amounts initially. We have resolved the difference by making the adjustment at the both sides' amounts based on the detailed information of the both sides, provided during our reconciliation.

6. Fee for recruiting foreign experts and workers

The Company has included service charge amount in initially reported amount. WE have made the adjustment deducting from the amount.

7. Charges and service charges

The Company has reported incorrect amount under this category. And plus, the detailed information of the Company does not showed any amount, we have resolved the difference by deducting the initially reported amount.

8. Customs tax

The difference was resolved since the Government has provided with detailed information accepting its understatement in the initial reporting.

9. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

The Company incorrectly classified the donations in its initial reporting.

Monetary donation from business entity to aimag:

We have resolved the difference based on the information provided from the Governor's Office of Sukhbaatar aimag.

Monetary donation from business entity to soums:

We have resolved the difference based on the information provided from the Governor's Offices of Sukhbaatar and Selenge aimags.

Funds disbursed by company in sustainable development and community relations:

We have resolved the difference based on the detailed information provided from the Company.

10. In-kind contribution at rate of 50% to environmental special account

We have resolved the difference by doing the adjustment since the amount of 2,750 thousand tugrug, which is centralized as restoration pledge at Selenge, Tuv and Umnugovi aimags, was confirmed through the detailed information of both the Government and the Company.

11. Costs disbursed for protection of the environment

The Company initially overstated the amount, however, confirmed through its detailed information provided during our reconciliation. Also submitted us supporting documents related to disbursement of the activity.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, on 17 February 2011 and called several times on the phone since there was no reply. And sent fax on 15 March 2011. However, the detailed information of the Company was different from the initial amounts. We have enquired again from the Company, but there was no reply, so, we have worked at the Company and resolved the difference.

Summary:

There was no occurrence of unresolved difference for this Company.

B-65. "Sonor trade" LLC

Brief introduction

"Sonor trade" LLC operates in gold extraction activity in Bayangol soum of Selenge. And the Company is registered to tax authority of Sukhbaatar aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated the amount in its initial reporting , however, the Company has provided with detailed information by adding the amount, during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment.

2. Windfall tax

The MTA has showed 10,193 thousand tugrug as received tax. The Company has overstated 20 thousand tugrug in its initial and it was confirmed by the detailed information.

3. Real estate tax

We have adjusted the amount by increasing the amount by 812 thousand tugrug based on information provided from the tax authority of Zavkhan aimag.

4. Tax on automobile and self moving vehicles

The Company overstated the amount in its initial reporting , however, the Company has provided with detailed information by deducting the amount, during our reconciliation. Therefore, we, have resolved the difference by making the related adjustment.

5. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information.

6. Land rent

We have adjusted the Government amount since the Company detailed information amount and the MTA amount are matched.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 17 February 2011 and sent a fax again on 15 March 2011 since the Company replied that the official letter was not received by when we have called on the phone.

Summary:

There was no occurrence of difference.

B-67. “Suchigo” LLC

Brief introduction

“Suchigo” LLC is operated in exploration activity in Tsogttsetsii soum of Umnugovi aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

We have made the adjustment since the Company’s incorrect reporting was confirmed.

2. Licence fee for exploitation and exploration of mineral resources

As per received information from the MRAM, we have noticed that the initial difference of 83,100 thousand tugrug was paid by “Ikh Mongol mining” LLC. We have enquired from the Company and found that these two companies are subsidiaries so, we have deducted the amount.

3. Fee for water use

We have adjusted by increasing the Government amount since we have confirmed from the supporting document by working at the Company premises and noticed that the Company has paid the fee to Tsogttsetsii soum of Umnugoi aimag.

4. Charges and service charges

Since we have noticed that “Ikh Mongol mining” LLC has paid the amount on behalf of the Company, we have adjusted by deducting from the Company amount.

5. In-kind contribution at rate of 50% to environmental special account

We have adjusted by deducting from the Company amount since we could not confirm the amount with the supporting documents.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, only on 20 March 2011 due to difficulties of finding the contact details of the Company. And we worked at the Company premises on 7 April 2011 since there was no reply. We have contacted with the Company several times to get the information.

Summary:

Discrepancies for this Company are all resolved.

B-68. "T and Ch" LLC

Brief introduction

"T and Ch" LLC extracts gold in Zaamar soum of Tuv aimag. And the Company is registered to tax authority of Tuv aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The initial difference was due to non-submission the reporting for year 2009 by the Company to the MEITI. We have resolved and adjusted the difference since the Company has submitted the reporting and provided with the detailed information during our reconciliation.

2. Windfall tax

The initial difference was due to non-submission the reporting for year 2009 by the Company to the MEITI. We have resolved and adjusted the difference since the Company has submitted the reporting and provided with the detailed information during our reconciliation. However, still there is remained difference.

3. Tax on automobiles and self moving vehicles

The initial difference was due to non-submission the reporting for year 2009 by the Company to the MEITI. We have resolved and adjusted the difference since the Company has submitted the reporting and provided with the detailed information during our reconciliation.

4. Licence fee for exploitation and exploration of mineral resources /USD/

The initial difference was due to non-submission the reporting for year 2009 by the Company to the MEITI. We have resolved and adjusted the difference since the Company has submitted the reporting and provided with the detailed information during our reconciliation.

5. Reimbursement of deposit, exploration of which is carried by the budget fund

The initial difference was due to non-submission the reporting for year 2009 by the Company to the MEITI. We have resolved and adjusted the difference since the Company has submitted the reporting and provided with the detailed information during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting a detailed information regarding the reported amounts, only on 1 April 2011 due to difficulties of finding the contact details of the Company. And the Company provided the information on 7 April 2011 only after several times of phone callings.

Summary:

It is required to resolve the difference by contacting with the Company again, however, it is hard for us to get the information since the Company management explains that "our company is no longer under operation".

B-69. "Tavan tolgoi" JSC

Brief introduction

"Tavan tolgoi" JSC is a local owned joint stock company owned by Umnugovi aimag at 51% and other shareholders at 49%. This Company locates and extracts coal in Tsogttsetsii soum of Umnugovi aimag, and it has started its coal exporting in year 2004. The Company not only supplies coal of Umnugovi itself also near soums and aimags like soums of Dornogovi and Dundgovi. And the Company has more 170 employees, and covers 70-80% of the budget of Umnugovi aimag, and registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated in the initial reporting. The Company has paid CIT amounting to 180,000 thousand tugrug at end of the year 2008. However, this amount was transferred from year to year, therefore, the Government has reported this amount in year 2009 reporting.

2. Customs tax

The Company has not reported any amount in its initial reporting, however, the adjustment was based on provided detailed information during our reconciliation from the Company.

3. Real estate tax

The Government has not reported any received tax amount in its initial reporting, however, we have resolved the difference by getting related information by approaching to tax authority of Umnugovi aimag.

4. Fee for exploitation of mineral resources ("royalty fee")

The Government has doubled tax amount that was paid to the local in its initial reporting, and it was confirmed by the detailed information. On the other hand, the Company understated the amount which was paid at the end of the year 2009.

5. Licence fee for exploitation and exploration of mineral resources

The difference was resolved by decreasing the Government amount since the Government has included license fee for License No.13281X of "Tavan tolgoi trans" LLC at the amount of 301USD.

6. Reimbursement of deposit, exploration of which is carried by the budget fund

The Company has not reported any amount in its initial reporting, however, the adjustment was based on provided detailed information during our reconciliation from the Company.

7. Customs tax

The Government has included charges from the subcontractors in its initial reporting.

8. Donations to Governmental organizations

Monetary donation from business entity to aimag:

The Company has reported donations given to local organizations under this category. Therefore, we have adjusted the amount.

Monetary donation from business entity to soum:

The difference was resolved by making the adjustment based on information provided from the Governor's Office of Tsogt-Ovoo and Tsogttsetsii soums of Umnugovi aimag. Also, we have adjusted the amounts of both the Company and the Government since both sides have reported their amounts under incorrect donation categories.

Monetary donation and supporting from business entity to local governments:

The difference was resolved based on information provided from Police department, Transport department, hospital and school of Tsogttsetsii soum and Social welfare service department of Umnugovi aimag.

Funds disbursed by company in sustainable development and community relations:

The difference was resolved by making the adjustment based on information provided from the Governor's Office of Tsogttsetsii soum of Umnugovi aimag.

9. Costs disbursed for protection of the environment

The Company has not reported any amount in its initial reporting, however, the adjustment was based on provided detailed information during our reconciliation from the Company.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 17 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

There is no unresolved difference since all the amounts are confirmed from the both sides respectively through their provided information.

B-71. "Tethys mining" LLC

Brief introduction

"Tethys mining" LLC is Mongolia-Brazil joint company that is established according to Mongolian legislation, and operates in gold exploration. And the Company belongs to tax authority of the Capital.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated the amount of 3,254 thousand tugrug that was paid on 20 April 2009, initially, however, the amount was confirmed by the detailed information provided during our reconciliation.

2. Customs tax

The Company understated the amount, initially, however, the amount was confirmed by the detailed information provided during our reconciliation.

3. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments and resolved the difference. Also, the Government understated the amount, while the Company overstated the amount. The Company overstatement was due to the foreign currency difference.

4. Fee for water use

The Company has reported the amount incorrectly in its initial reporting, and there was no amount showing in the detailed information, therefore, we have resolved the difference by deducting the amount.

5. Fee for recruiting foreign experts and workers

The Government understated the received amount of 2,592 thousand tugrug, and it was confirmed in the Government detailed information, therefore, we have adjusted the amount.

6. In kind contribution at rate of 50% to environmental special account

The initial difference was since the Government does not summarize the restoration expense relating to "X" license. The Company reported initially and also showed in its detailed information contribution centralized at each Environment fund of the locals such as Dalanjargalan, Delgerekh, Erdene soums of Dornogovi aimag, Bulgan aimag, Bugat soum of Govi-Altai, Kherlen soum of Khentii aimag, Must and Uench soums of Khovd aimag and Bayanjargalan soum of Dundgovi aimag.

During the reconciliation, we have received replies from the Governor's Office of Bayankhairkhan soum of Zavkhan aimag and Altai soum of Khovd aimag informing that there is no centralized contribution. Therefore, difference of 200 thousand tugrug has remained. In order to resolve the difference, we have enquired again from the Company and got the supporting documents. However, the difference remain unresolved since the locals are located in far distance /and one time centralized amount is only 100 thousand tugrug/.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 6-14 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

There is remained unresolved difference relating to cost disbursed for protection o environment because, the Government could not confirm the amount disbursed by the Company.

B-72. "Tunsini" LLC

Brief introduction

"Tunsini" LLC is a private owned company that operates in natural resource extraction activity in Darkhan soum of Khentii aimag. And the Company is registered to tax authority of Khan-Uul district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated initially, and the over amount is related to deduction of the VAT overpayment.

2. Customs tax

The Company understated this tax, however, we have found from the Company detailed information it is related to inclusion of the VAT.

3. Real estate tax

The Government has not reported an amount under this category. We have received information confirming receipt of 16,918 thousand tugrug from tax authority of Khentii aimag, and the occurred difference of 6,892 thousand tugrug was related to fee for water use, therefore, we have resolved the difference by making the respective adjustment.

4. Tax on automobiles and self moving vehicles

The Government has included tax for car which is not under name of the Company rather owned privately by the director of the Company, therefore, we have resolved the difference by making the respective adjustment.

5. Fee for exploitation of mineral resources ("royalty fee")

The Government has not reported an amount that was paid to local budget of Khentii aimag, we have resolved and made the adjusted based on information provided from the authority of Khentii aimag during our reconciliation.

6. Reimbursement of deposit, exploration of which is carried by the budget fund

The Government detailed information confirmed that the Government has overstated the amount initially. The difference occurred at the Company side was due to foreign currency exchange difference.

7. Land rent

The Government has not reported an amount that was paid to local budget of Khentii aimag, we have resolved and made the adjusted based on information provided from the authority of Khentii aimag during our reconciliation

8. Fee for water use

The Government has not reported an amount that was paid to local budget of Khentii aimag, we have resolved and made the adjusted based on information provided from the authority of Khentii aimag during our reconciliation

9. Fee for recruiting foreign experts and workers

The Government understated receipt of 2,592 thousand tugrug in its initial reporting, however, it was correctly shown in the detailed information which provided during our reconciliation by the Government. On the other hand, the Company has doubled the amount including fee for year 2008, therefore, we adjusted the amount also.

10. Customs service charge

The Company has included the customs tax and VAT amount initially.

11. Donations to Governmental organizations

Monetary donation from business entity to aimag:

The Company incorrectly classified the donation initially.

Monetary donation from business entity to soum:

We have made the adjustment based on information provided from the Governor's Offices of Bor-Undur and Darkhan soums of Khentii aimag. Actually, the Company has reported donation given to Bor-Undur soum as 3,600 thousand tugrug, while the Governor's Offices of Bor-Undur informed this donation under by 600 thousand tugrug. Therefore, the difference remains unresolved.

Monetary donation and supporting from business entity to local governments:

We have resolved the difference based on information provided from a school of Bor-Undur and Professional Inspection Agency of Khentii aimag. Actually, the Company has reported donation given to school of Bor-Undur soum as 500 thousand tugrug, while the school informed this donation under by 250 thousand tugrug. Therefore, the difference of 250 thousand tugrug remains unresolved.

Funds disbursed by company in sustainable development and community relations:

We have resolved the difference based on information provided from Governor's Office of Bor-Undur of Khentii aimag confirming donation of 10,000 thousand tugrug.

12. In kind contribution at rate of 50% to environmental special account

The Company has not reported any amount in its initial reporting, however, the adjustment was based on provided detailed information during our reconciliation from the Company.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 1 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 6 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local' tax authorities.

Summary:

For this Company, donation amounting to 850 thousand tugrug remains unresolved since the Governor's Office and the school of Boor-Under soum of Khentii aimag informed the amounts lower.

B-74. “Uuls noyon” LLC

Brief introduction

This Company extracts gold and silver at Khongor soum of Darkhan-Uul aimag. And the Company is registered to tax authority of Darkhan-Uul aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has included under this category payments paid for interest and penalty imposed through tax inspection, and the amounts were confirmed by the detailed information.

2. Windfall tax

The Company overstated the amount, initially, however, the amount was confirmed by the detailed information provided during our reconciliation.

3. Licence fee for exploitation and exploration of mineral resources

The Company understated the amount, initially therefore, the amount was adjusted. The government has included fee for License No.8664A which was transferred to “Monzul” LLC. We have resolved the difference by deducting the amount from the Government amount.

4. Land rent

The Government has not reported received amounts at Khongor soum of Darkhan-Uul aimag. We have sent an official letter to the Governor’s Office of Khongor soum. However, the reply confirmed 3,712 thousand tugrug, therefore, we have resolved the difference by adjusting the amount.

5. Fee for water use

The Government has not reported received amounts at Khongor soum of Darkhan-Uul aimag. We have sent an official letter to the Governor’s Office of Khongor soum. However, the reply confirmed 1,000 thousand tugrug, therefore, we have resolved the difference by adjusting the amount.

6. Charges and service charges

The Company understated the amount, initially. We have adjusted the amount based on reply from the Water Regulatory Agency with amount of 1,200 thousand tugrug. Finally, the difference was resolved after getting reply from the MRAM with confirmed amount of 150 thousand tugrug.

7. Donations to Governmental organizations

Monetary donation from business entity to soum:

We have sent an official letter to the Governor’s Office of Khongor soum of Darkhan-Uul aimag based on the detailed information provided from the Company. Finally, the difference was resolved after getting the reply from the Governor’s Office respectively.

8. In kind contribution at rate of 50% to environmental special account

The Company has reported including the last year centralized amount.

9. Costs disbursed for protection of the environment

The Company understated the amount, initially, however, the amount was confirmed by the detailed information provided during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 21 February 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local’ tax authorities.

Summary:

For this Company all the differences are resolved.

B-75. “Uurt gold” LLC

Brief introduction

“Uurt gold” LLC operates in gold extraction at territory of Uvgunt of Sergelen soum of Tuv aimag. And the Company is registered to tax authority of Songinokhairkhan district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources (“royalty fee”)

The Company understated the amount initially.

2. Licence fee for exploitation and exploration of mineral resources

We have made the adjustment on the Company amount that caused the difference due to the foreign currency difference.

3. Land rent

The Government has not reported any fees those were paid to the capital and the locals. We have resolved the difference after receiving replies from land department of Sukhbaatar district and Tuv aimag since the Company submitted its detailed information showing fees paid to these locals.

4. Fee for water use

Initially, the Company has reported including the service charge which was paid to water department.

5. Service charge

Initially, the Company has reported including the customs tax under this category.

6. Costs disbursed for protection of the environment

The Company overstated the amount initially, and the submitted detailed information did not show any amount, therefore we have adjusted by deducting the amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 17 February 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local’ tax authorities.

Summary:

For this Company all the differences are resolved.

B-77. "Flink Mongolia" LLC

Brief introduction

"Flink Mongolia" LLC operates in gold extraction in Selenge aimag. And the Company is registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources ("royalty fee")

The Company has included in its initial reporting 30% amount which should be transferred back to local.

2. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information. We have made the respective adjustments after confirming with the detailed information from the both sides.

3. Land rent

The Government has not reported fee that was paid to Selenge aimag. We have resolved the difference based on the received reply from the Governor's Office of Selenge aimag. Zaamar soum.

4. Fee for forestry use and firewood

The Government has not reported fee that was paid to Selenge aimag. We have resolved the difference based on the received reply from the Governor's Office of Selenge aimag. Zaamar soum.

5. Fee for recruiting foreign experts and workers

The Government has not reported fee that was paid to Selenge aimag. We have resolved the difference based on the received reply from the Governor's Office of Selenge aimag.

6. Donations to Governmental organizations

Monetary donation from business entity to aimag:

We have resolved the difference based on the received reply from the Governor's Office of Selenge aimag.

Monetary donation from business entity to soum:

We have resolved the difference based on the received reply from the Governor's Office of Orkhontuul soum of Selenge aimag. We have resolved the difference by deducting the amount of 100 thousand tugrug which the soum understated; and since the amount was non-material in accordance of resolution issued on 24 June 2010 from the National Council Meeting for MEITI determining that the minimum amount to state the material amount for donation would be more than the monthly minimum labor amount.

7. In kind contribution at rate of 50% to environmental special account

The Government has not reported 50% of restoration cost of license that is centralized in the local. We have resolved the difference based on the received reply from the Governor's Office of Selenge aimag.

8. Costs disbursed for protection of the environment

The Government has not stated the amount, initially, however, the amount was confirmed by the detailed information provided during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 24 March 2011. We have lost certain time for looking for the Company's contact details for communicating with the management. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

There is no remained unresolved difference since we adjusted the amount of 100 thousand tugrug which the soum understated; and since the amount was non-material in accordance of resolution issued on 24 June 2010 from the National Council Meeting for MEITI determining that the minimum amount to state the material amount for donation would be more than the monthly minimum labor amount.

B-78. “Khan Shijir” LLC

Brief introduction

“Khan Shijir” LLC operates gold & silver mining in Bumbugur soum, Bayankhongor aimag and is registered with the Tax Authority of Bayangol district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company overstated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during reconciliation from the Company.

2. Customs tax

The Company understated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during our reconciliation from the Company.

3. Tax on automobiles and self moving vehicles

The Company has reported including tax for car which is not owned by the Company rather by its director, however, the payment was made at once. We have resolved the difference by decreasing the amount.

4. Fee for exploitation of mineral resources (“royalty fee”)

The Government overstated the amount in its initial reporting, however, the difference was resolved based on provided detailed information during our reconciliation from the Government.

5. Land rent

The Government has not reported fee received at Bayankhongor aimag. We have resolved the difference and made the adjustment based on reply provided to us during our reconciliation from the Governor’s Office of Bayankhongor aimag.

6. Fee for water use

Initially, the Company has included service charge paid to water regulatory agency under this category. On the other hand, the Government has not reported fee those were paid to Darkhan-Uul and Bayankhongor aimags. We have resolved the difference and made the adjustment based on replies provided to us during our reconciliation from the Governor’s Offices of Darkhan-Uul and Bayankhongor aimags.

7. Costs disbursed for protection of the environment

The Company has reported initially including service charge which is paid to other private company.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 24 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local’ tax authorities.

Summary:

There was no occurrence of unresolved difference for this Company.

B-79. “Khangad exploration” LLC

Brief introduction

“Khangad exploration” LLC extracts gold and silver in Umnugovi aimag. And the Company is registered to tax authority of Sukhbaatar district of the capital city.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated the amount in its initial reporting, however, the detailed information provided during the reconciliation shows the amount paid to the tax authority of Chingeltei district. We have resolved the difference after receiving a reply from this tax authority.

шийдвэрлэсэн.

2. Tax on automobiles and self moving vehicles

The Company understated the amount, which was paid to tax authority of Sukhbaatar district, in its initial reporting, while the Government even has not reported any amount. We have resolved the difference after receiving a reply from this tax authority.

3. Licence fee for exploitation and exploration of mineral resources

The Government has not reported any amount initially, however, its detailed information showed the amount.

4. Fee for water use

The Company overstated the amount initially, and the detailed information provided during our reconciliation does not show any amount, therefore, we have resolved the difference by deducting the amount.

5. Fee for recruiting foreign experts and workers

The Government has not reported any amount initially, however, its detailed information showed the amount.

6. Donations to Governmental organizations

Monetary donation and supporting from business entity to local governments:

The difference can not be resolved since there was no reply from the Governor’s Office of Khankhongor soum of Umnugovi aimag. We have sent an official letter to this Governor’s Office to confirm the donation amount, which the Company reported as given to the hospital of the soum in is detailed information that was provided during our reconciliation.

7. In kind contribution at rate of 50% to environmental special account

The Company has reported contribution which is centralized at the Governor’ Office of Khankhongor soum of Umnugovi aimag. We have sent an official letter to this Governor’s Office to confirm the amount, but only amount of 1,200 thousand tugrug was confirmed and the remaining amount of 2,775 thousand tugrug remains unresolved.

8. Costs disbursed for protection of the environment

We have resolved the difference by adjusting the Government amount based on the supporting documents provided from the Company and report issued to Geology and Research department of the MRAM.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 24 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local’ tax authorities.

Summary:

The differences occurred relating to in-kind contribution at rate of 50% to environmental special account and donations given to state organizations remain unresolved since the amounts could not be confirmed from the Government side. Amount for costs disbursed for protection of the environment is resolved based on supporting documents provided from the Company and information of the reports submitted to the state organizations.

B-80. "KHOTU" LLC

Brief introduction

"KHOTU" LLC is engaged in gold extraction in Zaamar soum of Tuv aimag. And the Company is registered to tax authority of Chingeltei district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company overstated in its initial reporting, however, the detailed information provided from during the reconciliation does not show the amount.

2. Windfall tax

The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

3. Tax on automobiles and self moving vehicles

The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

4. Fee for exploitation of mineral resources ("royalty fee")

The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

5. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information.

6. Land rent

The Government has not reported the amount which was received in Zaamar soum of Tuv aimag. However, we have resolved the difference by adjusting the amount in accordance of reply received from the Governor's Office of the soum.

7. Fee for water use

The Company overstated in its initial reporting, however, the detailed information provided from during the reconciliation does not show the amount.

8. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies

The Company has reported the donation amount which was given to National Center of Science of Mother and Child. We have resolved the difference by sending official letter to this organization and receiving the reply.

Monetary donation from business entity to soum

The Company has understated the amount which was given to Zaamar soum of Tuv aimag. We have resolved the difference by adjusting the amount in accordance of reply received from the Governor's Office of the soum.

9. In kind contribution at rate of 50% to environmental special account

The Company has included centralized amounts of the previous years.

10. Costs disbursed for protection of the environment

The Company has reported the amount which was disbursed for purchase of wood seed from an individual in its initial reporting. We have resolved by deducting the amount since the disbursed amount was not yet used in the restoration work.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

There was no occurrence of unresolved difference for this Company.

B-81. “Khurai” LLC

Brief introduction

“Khurai” LLC operates in gold extraction in Orkhontuul soum of Selenge aimag. And the Company is registered to the tax authority of Khan-Uul district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not reported 5 thousand tugrug which is estimated by transferring from the overpayment of the PIT in its initial reporting.

2. Customs tax

The Company has included the VAT in its initial reporting.

3. Windfall tax

The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

4. Real estate tax

The Government has not reported the amount which was received in Selenge aimag. However, we have resolved the difference by adjusting the amount in accordance of reply received from the Governor’s Office of the aimag.

5. Licence fee for exploitation and exploration of mineral resources

Both the Government and the Company understated the amounts initially, however, their detailed information showed the amounts, so, we have resolved the difference.

6. Land rent

The Government has not reported the amount which was paid to in Selenge aimag and the Land department of the Capital city. However, we have resolved the difference by adjusting the amount in accordance of replies received from the Governor’s Office of the aimag and the Land department of the Capital city.

7. Fee for water use

The Government has not reported the amount which was received in Selenge aimag. However, we have resolved the difference by adjusting the amount in accordance of reply received from the Governor’s Office of the aimag. Also, the Company has included service charge paid to the Water regulatory agency, therefore, we have deducted from the amount.

8. Donations to Governmental organizations

Monetary donation from business entity to ministries and agencies

The Company has reported the donation amount which was given to Children Palace of Mongolia. We have resolved the difference by receiving the reply to our official letter which is sent during our reconciliation.

Monetary donation from business entity to aimag

We have resolved the difference by adjusting the amount in accordance of reply received from the Governor’s Office of Selenge aimag.

Monetary donation from business entity to soum

The Company has showed in its detailed information the donation amount which was given for improvement of children playing area of Orkhontuul soum of Selenge aimag. We have resolved the difference by adjusting the amount after receiving the reply from the Governor’s Office of the soum.

Monetary donation and supporting from business entity to local governments:

We have adjusted by deducting the amount since the Company reported the amount that was donated to non-government organization.

Funds disbursed by company in sustainable development and community relations:

The Company has reported its monetary donation to soums under this category, therefore, we have adjusted the amount respectively.

9. Costs disbursed for protection of the environment

The Company has not reported any amount as cost disbursed for protection of the environment in its initial reporting. However, the Company’s detailed information showed the amount, so, we have added the amount after our confirmation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local’ tax authorities.

Summary:

There is no unresolved difference since all the amounts are confirmed from the both sides respectively through their provided information.

B-83. “Tsogt Onon” LLC

Brief introduction

“Tsogt noon” LLC is 100% owned Mongolian company, and operates in gold and silver extraction. And the Company is registered to tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not expressed its paid taxes amounts in thousand tugrugs in the reporting.

2. Windfall tax

The Company has understated the amount initially, however, it was shown correctly in the provided detailed information.

3. Tax on automobiles and self moving vehicles

The Company has understated the amount initially, however, it was shown correctly in the detailed information provided during our reconciliation.

4. Fee for exploitation of mineral resources (“royalty fee”)

The Government has reported this fee mistakenly with other company’s amount. We have resolved and adjusted the amount based on gold estimation which is placed at the Bank of Mongolia.

5. Licence fee for exploitation and exploration of mineral resources

The Company has understated the amount initially, however, it was shown correctly in the provided detailed information.

6. Land rent

The Government has not reported the amount which was received in Tuv aimag. However, we have resolved the difference by adjusting the amount in accordance of reply received from the Governor’s Office of the aimag.

7. Charges and service charges

We have resolved the difference by adjusting the amount based on information provided from the Water Regulatory Agency.

8. In kind contribution at rate of 50% to environmental special account

The Company has reported contribution of the previous years.

9. Costs disbursed for protection of the environment

The Company has understated the amount initially, however, it was shown correctly in the provided detailed information.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 11 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 14 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local’ tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-86. "Chin Hua MAK nariin sukhait" LLC

Brief introduction

"Chinkhua MAK nariin sukhait" LLC is a China joint venture, 50% held by Chin Hua Group of China and another 50% by Mongolian Gold MAK LLC.

The Company exploits coal from Gurvan Tes soum of Umngobi aimag and exported to China. And the Company is registered with the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not included estimated amount of overpayment of the PIT in its initial reporting.

2. Customs tax

The Company has included service charge amount for customs and related VAT amount under this category.

3. Tax on automobiles and self moving vehicles

The Government has reported including tax paid for car owned by the Company director privately.

4. Fee for exploitation of mineral resources ("royalty fee")

The difference has occurred since the Government has reported in its initial reporting the 30% of payment which is paid to the local as doubled reporting. We have adjusted the amount based on the detailed information provided from the Company and as well as from the Government during our reconciliation.

5. Fee for water use

The Company has reported including fee for use of mineral resources of widespread deposit under this category. We have confirmed the amount through the detailed information provided from the Company.

6. Fee for recruiting foreign experts and workers

The Government has understated the received amount initially, we have resolved the difference by adjusting the amount in accordance of the detailed information provided from the Company during our reconciliation.

7. Fee for use of mineral resources of widespread deposit

The Company has reported this amount initially under fee for water use. However, the amount was correctly classified in the detailed information provided from the Company during our reconciliation.

8. Charge and service charges

We have made the respective adjustments based on information provided from the state organizations such as LWSA, Professional Inspection Agency, Foreign Citizenship

9. Customs service chare

The Company has included this amount initially under the customs tax category.

10. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

We have made the adjustment based on information provided from Foreign Citizenship Agency, MMRE and other state organizations. Plus, we have resolved the difference finally after receiving reply from the customs office, after several times of phone callings, for donation amount given to 15 the Anniversary of Customs Committee of Umnugovi aimag.

Monetary donation from business entity to aimag:

In order to confirm the Company's reported amount, we have sent an official letter to the Governor's Office of Umnugovi aimag. The reply was received immediately, however, there was no any donation made to the Governor's Office. On the other hand, the Company has provided with the supporting documents, however, it was not satisfactory since it had unclear information like who was the receiver and who was the transfer, and the stamp and distinguished.

Monetary donation from business entity to soums:

The Company initially has over reported the amount, and plus, the Company has reported including supporting to individual. We have made the adjustment deducting these amounts. Plus, we have made adjustment also after receiving reply from the Governor' Office of Gurvantes soum of Umnugovi aimag confirming the donation.

Monetary donation and supporting from business entity to local governments:

The difference remains unresolved since there was no reply from the Professional Inspection Agency.

Funds disbursed by company in sustainable development and community relations:

The Company reported in its initial reporting and as well as in its detailed information donation amount of 60,728 thousand tugrug given to sustainable development and community relations of Umnugovi aimag. We have sent an official letter to the

Governor's Office of the aimag to confirm the amount. The reply was received explaining that the amount was used for road construction that was built in between Gurvantes soum and Border's port of Shivee Khuren soum.

11. In-kind contribution at rate of 50% to environmental special account

The Company has overstated the amount, initially, however, the amount has not shown in the detailed information provided during our reconciliation. Therefore, we have resolved the difference by deducting the amount.

12. Costs disbursed for protection of the environment

Both the Company and the Government have understated their amounts initially, however, the amounts are shown correctly in their detailed information provided during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local' tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-87. "Shanlun" LLC

Brief introduction

"Shan lun" LLC, China invested company, operates in Choibalsan soum of Dornod aimag by extracting tin and zinc concentrate. The Company is registered to Bayangol ditric tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company has understated the amount, initially, however, the amount has shown correctly in the detailed information provided during our reconciliation.

2. Tax on automobiles and self moving vehicles

The Company has understated the amount, initially, however, the amount has shown correctly in the detailed information provided during our reconciliation.

3. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information.

4. Reimbursement of deposit, exploration of which is carried by the budget fund

The Company has understated the amount, initially, however, the amount has shown correctly in the detailed information provided during our reconciliation. The difference amounting to 155 thousand tugrug which is occurred in the amount of the Government was due to foreign exchange difference.

5. Fee for recruiting foreign experts and workers

The Company has reported including return of 21,456 thousand tugrug in its initial reporting. Also, the Company understated 1,296 thousand tugrug that was paid on 16 January, we have resolved the difference by making the related adjustment.

6. Charges and service charges

Both the Government and the Company have doubled the amounts under this category.

7. In kind contribution at rate of 50% to environmental special account

The Government has not reported in-kind contribution at rate of 50% of restoration of the environment relation to license exploration. We have adjusted the amount based on information provided from the Governor's Office of Choibalsan soum of Dornod aimag.

8. Costs disbursed for protection of the environment

The Company has not reported the amount, initially, however, the amount has shown correctly in the detailed information provided during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 22 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 14 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-88. "Shariin Gol" JSC

Brief introduction

"Shariin Gol" JSC operates coal mining in Shariin gol soum, Darkhan-Uul aimag. And the Company is registered with the Tax Authority of Darkhan-Uul aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

2. Customs tax

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

3. Fee for exploitation of mineral resources ("royalty fee")

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

4. Licence fee for exploitation and exploration of mineral resources

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

5. Reimbursement of deposit, exploration of which is carried by the budget fund

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

6. Charges and service charges

Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

7. Donations to Governmental organisations

Monetary donation from business entity to soum

We have sent an official letter to the Governor's Office of Shariin Gol soum of Darkhan-Uul aimag in order to confirm the amount reported in the Company reporting. And resolved the difference by making the adjustment based on the reply received from the Governor's Office of the respective soum.

8. Costs disbursed for protection of the environment

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 22 March 2011; and received the detailed information after several times of requirements. Plus, the Company has not submitted its EITI Report for year 2009, all these show that the accountant of the Company really does not give significance to the reporting of the initiative.

After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-89. "Shivee Ovoo" LLC

Brief introduction

"Shivee Ovoo" LLC, 100% Mongolian company, operates coal mining in Shivee ovoo soum, Govisumber aimag and is registered with Tax office of Govisumber aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Government has not reported the amount that was paid on 30 December 2009. This amount should not be included in year 2009 since it was received into the state budget from year to year. Therefore, we have adjusted the Company amount by deducting the amount.

2. Customs tax

The Company understated the amount in its initial reporting. The Company has explained in its detailed information provided during our reconciliation that "the amount was paid through after-settlement account".

3. Real estate tax

The Government has not reported the amount of 27 thousand tugrug that was paid on 29 December 2009. This amount should not be included in year 2009 since it was received into the state budget from year to year and should be included in reconciliation of year 2010. Therefore, we have adjusted the Company amount by deducting the amount.

4. Fee for exploitation of mineral resources ("royalty fee")

The difference has occurred since the Government has not reported in its initial reporting the 30% of payment which is paid to the local as doubled reporting. We have adjusted the amount based on the detailed information provided from the Company and as well as from the Government during our reconciliation.

5. Licence fee for exploitation and exploration of mineral resources

The Company has not expressed the amount in thousand tugrug. However, the detailed information provided during our reconciliation has shown in correct expression.

6. Fee for water use

The Government understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

7. Charges and service charges

The Company has reported including the customs service charge under this category.

8. Costs disbursed for protection of the environment

The initial difference was occurred due to misreporting of the amount by the Company, because, the Company has not reported the amount even a geologist of the Company has submitted the yearly report already to the Department for Natural Resources of the MMRE. We have resolved the difference based on the yearly report prepared and submitted by the Company geologist and as well as on the detailed information provided during our reconciliation.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 18 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this Company, all the amounts are adjusted and resolved based on the detailed information provided from both sides. We have resolved the difference occurred relating to costs disbursed for protection of the environment based on report issued by the Company geologist and supporting document provided from the Company.

B-90. "Shijir alt" LLC

Brief introduction

"Shijir alt" LLC is a Mongolian company and operates its activities and exploits gold from Zaamar soum of Tuv aimag and Buregkhangai soum of Bulgan aimag. And the Company is registered with tax authority of Bayansurkh district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
The Company understated the amount initially.
2. **Customs tax**
The Company has reported the amount together with the related VAT. We have resolved the difference by deducting the amount.
3. **Windfall tax**
The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.
4. **Real estate tax**
The Company initially reported including real estate insurance fee paid to "Tushig Daatgal" LLC. We have confirmed the amount from the Company detailed information.
5. **Tax on automobile and self moving vehicles**
Both the Company and the Government have overstated the amount in its initial reportings. However, the detailed information provided from the sides during our reconciliation shows the correct amounts and we confirmed the amounts respectively.
6. **Fee for exploitation of mineral resources ("royalty fee")**
The Government has overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount, therefore, we have resolved the difference by making the adjustment.
7. **Licence fee for exploitation and exploration of mineral resources**
The Company has not reported the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the amount, therefore, we have resolved the difference by making the adjustment.
8. **Land rent**
The Company has reported the amounts and showed in its detailed information that the amounts were paid to land departments of Tuv and Bulgan aimags. We have resolved the difference by making the adjustment based on reply received from the Governor's Office of the respective aimags.
9. **Fee for water use**
Company has reported the amounts and showed in its detailed information that the amounts were paid to land departments of Tuv and Bulgan aimags. We have resolved the difference by making the adjustment based on reply received from the Governor's Office of the respective aimags.
10. **Fee for recruiting foreign experts and workers**
The Company has overstated the amount initially. After enquiry from the Company accountant, we have resolved by making the adjustment since the accountant has accepted the overstatement explaining that the information given to the accountant from the Zaamar mine of the Company was incorrect initially.
11. **Customs tax**
We have made an adjustment adding 90 thousand tugrug into the Company amount based on the provided detailed information from the Company.
12. **Dividends on state property**
We have resolved the difference by deducting from the Company amount, since the Company has reported its dividend given to "Mongolrustsvetmet" LLC under category of dividends on state property.
13. **Dividends on local property**
We have resolved the difference by decreasing the Company amount, since the Company has reported its dividends given to "MIKO Holding" LLC "Zarubejtsvetmet" LLC under category of dividends on local property.
14. **Donations to Governmental organisations**
We have resolved the difference by deducting from the Company amount, since the Company has reported its donation of 14,800 thousand tugrug as donations given to ministries, soum and local while the donations were given to non-government organizations because we have confirmed the amounts from the detailed information of the Company.
15. **Costs disbursed for protection of the environment**
We have resolved the difference by making the adjustment based on photocopies of the supporting documents related to transfer of the money to Agricultural University since it has won in the tender selection for biological restoration work that was announced from the Company.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 17 February 2011 and received reply on 15 March 2011 after several times of phone callings. However, the detailed information of the Company still was different from the initial reporting. And we have worked at the Company premises since the Company has not replied to our several times of requirements.

Summary:

There was no occurrence of unresolved difference for this Company.

B-91. "Shijir talst" LLC

Brief introduction

"Shijir Talst" LLC is a Mongolian company and operates its activities and exploits gold and silver from Bayangol soum of Selenge aimag. And the Company is registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Fee for exploitation of mineral resources ("royalty fee")

The Company has doubled in its initial reporting 30% amount which should be transferred back to local. We have resolved and adjusted the amount based on the detailed information provided during our reconciliation shows the correct amount.

2. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information.

3. Fee for water use

The Government overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount explaining that the amount was related to service charge paid to the Water Regulatory Agency.

4. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

The Company has reported including donation given to Industry and Geologist's Association NGO, we have adjusted the amount since the donation is not given to the state organization.

Monetary donation from business entity to aimag:

We have made the adjustment based on information provided from the Governor' Office of Selenge aimag.

Monetary donation from business entity to soum:

We have made the adjustment based on information provided from the Governor' Office of Bayangol soum of Selegne aimag.

Funds disbursed by company in sustainable development and community relations:

The Company overstated the amount initially.

5. Costs disbursed for protection of the environment

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 30 March 2011; and received the detailed information after several times of requirements towards the Company.

We have worked by receiving related information from the state organizations.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-92. "Shin Shin" LLC

Brief introduction

"Shin Shin" LLC is 100% China owned company. The Company is under preparation to extract zinc from polymetal ore and will build factory capable to produce 3,000 ton ore per day. The company operates in Dashbalbar soum of Dornod aimag and registered to tax authority of Dornod aimag.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

2. Customs tax

The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount that matched with the amount of the Government.

3. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information; and we have made the respective adjustment.

4. Reimbursement of deposit, exploration of which is carried by the budget fund

The Company overstated the amount in its does not show any amount; therefore e has resolved the difference by deducting the amount.

5. Land rent

The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount that matched with the amount of the Government. Therefore, we resolved the difference by deducting the amount.

6. Fee for water use

The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount that matched with the amount of the Government.

7. Fee for recruiting foreign experts and workers

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

8. Fee for use of mineral resources of widespread deposit

The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount that matched with the amount of the Government. Therefore, we resolved the difference by deducting the amount.

9. Charges and service charges

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

10. Customs tax

The Company has reported including VAT and customs tax amount initially. WE have adjusted the amount based on the information provided from the General Customs Office.

11. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

We have resolved the difference based on replies from MMRE, Foreign Citizenship Affair Agency, MRAM and FRC answered to our official confirmation, letter sent from us, to confirm the donation amount reported by the Company initially.

Monetary donation from business entity to aimag:

We have made the adjustment based on information provided from the Governor's Office of Dornod aimag.

Monetary donation from business entity to soum:

We have made the adjustment based on information provided from the Governor's Office of Choibalsan, Dashbalbar soums of Dornod aimag.

Monetary donation and supporting from business entity to local governments:

We have made the adjustment based on information provided from the Transport Regulation department, LWSA department and school of Sergelen soum of Dornod aimag.

Funds disbursed by company in sustainable development and community relations:

The difference remained unresolved since the Governor's Office of Dashbalbar soum of Dornod aimag has replied to our official confirmation, letter sent from us to confirm the amount shown in the Company detailed information, informing that there was no donation from the Company.

12. In kind contribution at rate of 50% to environmental special account

The initial difference was due to the Company's reporting of the previous year amount, while the Government has not reported any amount. During our reconciliation we have sent our official confirmation to confirm the amount, shown in the Company detailed information, to the Governor's Office of Dashbalbar soum of Dornod aimag; and received reply that informing that there was no donation from the Company. Therefore, we have made the adjustment based on information provided.

13. Costs disbursed for protection of the environment

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 8 March 2011.

After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 14 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

The difference relating to donation given to Dornod aimag from the Company remains unresolved since the Governor's Office of Dashbalbar soum of Dornod aimag has replied that the donation was not received by the Office.

B-93. "MGH" LLC

Brief introduction

"MGH" is 100% Mongolian company. And operates in gold extraction in Zaamar soum of Tuv aimag. And the Company is registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Customs tax

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation. And the submitted information has included the VAT.

2. Real estate tax

The Government has reported wrong amount in its initial reporting. Even the detailed information does not show any amount, therefore, we have adjusted by deducting the amount.

3. Tax on automobiles and self moving vehicles

The Government has reported wrong amount in its initial reporting. Even the detailed information does not show any amount, therefore, we have adjusted by deducting the amount.

4. Fee for exploitation of mineral resources ("royalty fee")

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation. The Government has doubled the amount received by the local, therefore, we have adjusted by deducting the amount.

5. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information; and we have made the respective adjustment.

6. Land rent

The Government overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount; therefore, we resolved the difference by deducting the amount.

7. Fee for water use

The Government overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount; therefore, we resolved the difference by deducting the amount.

8. Fee for use of mineral resources of widespread deposit

The Government has reported incorrect amount in its initial reporting. Plus, the detailed information provided during our reconciliation does not show any amount; therefore, we resolved the difference by deducting the amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 24 March 2011; and received the detailed information after several times of requirements towards the Company.

The Company was a subsidiary company of "Mongol gazar" LLC, however, it is liquidated in year 2010. We have worked by receiving related information from the state organizations.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-95. "Energy Resource" LLC

Brief introduction

"Energy Resource" is a 100% Mongolia owned company. The Company has started to use coal ore of Ukhaa Khudag mine located at Tsogttsetsii soum of Umnugovi aimag, within its "Ukhaa Khudag" project. The reserve of this mine covers license area of 2692 hectare that is certified by Special License No.11952A for mining which owned by "Energy Resource" LLC. And the Company is registered to the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company overstated the tax amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount that matched with the amount of the Government. Therefore, we resolved the difference by deducting the amount.

2. Customs tax

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

3. Tax on automobiles and self moving vehicles

The Government understated the amount by the amount that was paid to the tax authority of Umnugovi aimag in its initial reporting, while the Company overstated. We have made the adjustment based on information provided from the tax authority of Umnugovi aimag.

4. Fee for exploitation of mineral resources ("royalty fee")

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

5. Land rent

The Government understated the amount by the amount that was paid to the tax authority of Umnugovi aimag in its initial reporting, while the Company overstated. We have made the adjustment based on information provided from the tax authority of Umnugovi aimag.

6. Fee for water use

The Government understated the amount by the amount that was paid to the tax authority of Umnugovi aimag in its initial reporting. We have made the adjustment based on information provided from the tax authority of Umnugovi aimag.

7. Fee for recruiting foreign experts and workers

The Government understated the amount of 2,592 thousand tugrug in its initial reporting, while the Company has not reported any amount. Plus, the Company detailed information has not included the amount of 5,400 thousand tugrug. We have resolved the difference after receiving additional information from the Company.

8. Fee for use of mineral resources of widespread deposit

The Company has not stated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows the correct amount.

9. Customs tax

The Company has included the customs tax and VAT in its initial reporting.

10. Donations to Governmental organisations

Monetary donation from business entity to aimag:

In accordance of the Company detailed information we have sent official letters to state organizations like Police department and hospital of Umnugovi aimag. And resolved the difference by making the adjustment based on the received replies.

Monetary donation from business entity to soum:

The Company has reported, in its detailed information, the donation given to soum development fund of soums like Khanbogd, Mandal-Ovoo, Bayan-Ovoo, Tsogttsetsii of Umnugovi aimag. We have resolved the difference based on received replies.

Monetary donation and supporting from business entity to local governments:

We have made the adjustment based on information provided from hospitals of Nomgon and Mandal-Ovoo soums, and also school of Tsogttsetsii soum of Umnugovi aimag.

Funds disbursed by company in sustainable development and community relations:

The Company has reported, in its detailed information, the donation given to construction of airport of Tsogttsetsii soum and coal donation to Heat and Electricity Station of Umnugovi aimag. We have resolved the difference based on received replies.

11. Costs disbursed for protection of the environment

The government has doubly reported the amount initially.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 21 March 2011; and received the detailed information after several times of requirements towards the Company accountant.

After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local' tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-96. “Erven khuder” LLC

Brief introduction

“Erven khuder” is a 100% private and Mongolian national company. It is currently operating in iron ore exploration at Sukhbaatar aimag. And the Company is registered to tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has reported incorrect amount in its initial reporting. Plus, the detailed information provided during our reconciliation does not show any amount; therefore, we resolved the difference by deducting the amount.

2. Tax on automobiles and self moving vehicles

The Company has reported including service charges for other services /road charge/ in its initial reporting.

3. Fee for exploitation of mineral resources (“royalty fee”)

The Company has reported including act fine, penalty amounting to 6,864 thousand tugrug imposed by the tax inspection examination due to matured payment.

4. Licence fee for exploitation and exploration of mineral resources

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation showed the correct amount.

5. Donations to Governmental organisations

Monetary donation from business entity to soum:

The Company has reported that it has given donation to the Governor’s Office of Sukhbaatar soum of Sukhbaatar aimag. We have resolved the difference after receiving reply from this Governor’s Office.

6. In kind contribution at rate of 50% to environmental special account

The Company overstated the amount in its initial reporting.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 17 March 2011; and received the detailed information after several times of requirements towards the Company accountant.

After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 11 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

Unresolved differences

B-97. “Erdene Mongol” LLC

Brief introduction

“Erdene Mongol” is a 100% private and Mongolian national company. It is currently operating in brown coal exploration at the ores at Bayankhongor and Govi-Altai aimags. And the Company is registered to tax authority of Sukhbaatar district.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

2. Customs tax

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

3. Tax on automobiles and self moving vehicles

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

4. License fee for exploitation and exploration of mineral resources

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

5. Fee for recruiting foreign experts and workers

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation.

6. Charges and service charges

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation. Based on the Company submitted detailed information we have sent our confirmation letter to the Governor’s Office of Erdene and Tsogt soums of Govi-Altai aimag, Bayankhongor aimag and Sukhbaatar aimag, the Governor’s Offices have replied that the donations were received by the aimags; therefore, we have resolved the difference by making the adjustment.

7. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

The Company has reported that there were donations given to the MRAM. In order to confirm the amount, we have sent an official letter to the MRAM, however, there was no reply.

Monetary donation from business entity to aimag:

The Company has reported through its detailed information that there were donations given to Bayankhongor and Govi-Altai aimags. In order to confirm the amounts, we have sent official letters to the Governor’s Offices of the respective aimags and received the replies and resolved the differences.

8. In kind contribution at rate of 50% to environmental special account

The Company has not submitted its year 2009 report to the MEITI, however, submitted during our reconciliation. The Government has not reported the amount centralized at the Environment Departments of Sukhbaatar and Bayankhongor aimags. We have resolved the difference based on information provided from the Governor’s Offices of Sukhbaatar aimag and Shinejinst, Bayantsagaan and Bayan-Undur soums of Bayankhongor aimag.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 20 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 6-15 April 2011. We have used phone callings, enquires from the tax authorities where the differences occur, and work together with the local tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-98. “Erdenet Mining Corporation” LLC

Brief introduction

Mongolia-Russia joint venture “Erdenet Mining Corporation” LLC /EMC/ was established in 1971, and started its operation in 1978. It locates in Orkhon aimag. The Company’s main activities are mining of copper and ore and producing and exporting of copper and molybdenum concentrate, and also produces heat, steam, water, acid and acetylene for Erdenet city settlers and other organisations.

The EMC is registered with the MTA.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not reported the deduction amount for overpayment of the VAT.

2. Customs tax

The Company has included the VAT that was paid to the General Customs Office.

3. Windfall tax

The Company has not reported the deduction amount for overpayment of the VAT.

4. Real estate tax

The Government has not reported the amount that was paid to the tax authority of Orkhon aimag. We have resolved the difference by making the adjustment based on information provided during our reconciliation.

5. Excise tax on imported fuel and lubricants

The Company has reported including tax on petrol and diesel fuel under this category.

6. Tax on petrol and diesel fuel

The Company has reported including this tax under excise tax on imported fuel and lubricants. However, the provided information during the reconciliation was reported correctly.

7. Tax on automobiles and self moving vehicles

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation showed the correct amount.

8. Fee for exploitation of mineral resources (“royalty fee”)

The Company overstated the amount in its initial reporting. However, the detailed information provided during our reconciliation shows double recording of 30% which is paid to the locals.

9. Licence fee for exploitation and exploration of mineral resources

The Company understated the amount in its initial reporting. However, the detailed information provided during our reconciliation showed the correct amount.

10. Land rent

The Government has not reported amount paid to local. The difference was resolved since we have received disclosure from Orkhon aimag. Out of the total amount, 8,170,000 thousand tugrug was made through transfer /cash/ and 2,012,763 thousand tugrug was made as deduction for Heating and Electricity station.

11. Fee for water use

The Government has not reported the amount initially. We have resolved the difference by making the adjustment based on reply from Bulgan aimag.

12. Customs tax

Initially, the Company has reported including charge paid to private company.

13. Dividends on state property

The Government has not reported the amount initially. We have made the adjustment in accordance of reply from State Fund of MOF. The difference occurs every year, since the MTA does not summarize the amounts, and on other hand, companies prepare their reporting along with formats of the initiative even if the work description of the FRC has renewed was according to Ordinance No.80 of year 2007 of the Government.

14. Donations to Governmental organisations

Monetary donation from business entity to ministries and agencies:

As per the detailed information the Company has reported donations given to state organizations such as Mongolian Embassy in Russian Federation, in China, MMRE, NSO, Foreign Citizenship Affair Agency and Border's Army Camp No. 0218. We have resolved the difference in accordance of replies received from these organizations after sending our official confirmation letters in order to confirm the amount. Plus, we have adjusted deducting the donation amount given to Russian Embassy in Mongolia considering that the embassy is not a state organization which is financed from the state budget.

Monetary donation from business entity to aimag:

The Company reported in its detailed information the donation given to the Governor's Office of Orkhon aimag for religious ritual activity called "Improving the Buddha". We have resolved the difference based on the reply received from the Governor' Office.

Monetary donation from business entity to soum:

The difference was resolved since there was reply the Governor's Office of Dadal soum of Khentii aimag confirming that donation of 5 million tugrug was donated from the Company to the soum development fund of Dadal soum of Khentii aimag.

Monetary donation and supporting from business entity to local governments:

The Company has reported through its detailed information that there were donations given to Bayankhongor and Govi-Altai aimags. In order to confirm the amounts, we have sent official letters to the Governor's Offices of the respective aimags and received the replies and resolved the differences.

Funds disbursed by company in sustainable development and community relations:

Company has reported through its detailed information that there were donations given to the Governor's Office of Orkhon aimag for renewal times. In order to confirm the amounts, we have sent official letters to the Governor's Offices of the Orkhon aimag.

15. In kind contribution at rate of 50% to environmental special account

The Company overstated amount in its reporting/ However, we have adjusted the amount since there was no amount shown in the Company detailed information.

16. Costs disbursed for protection of the environment

Government has not reported the amount initially. However, we have adjusted the amount by adding the amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 1 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 11-12 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

B-99. "Erdes Holding" LLC

Brief introduction

"Erdes Holding" LLC operates its extraction activity in Khuder soum of Selenge aimag. The company is registered to Sukhbaatar tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. Economic Business Entity Income Tax /CIT/

The Company has not reported any amount initially, however, the detailed information provided from during the reconciliation shows the amount.

2. Customs tax

The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

3. Windfall tax

The Company has not reported any amount initially, and even the detailed information provided from during the reconciliation does not show the amount too. have enquired again from the Company and received information and resolved the difference.

4. Tax on automobiles and self moving vehicles

The Company has not reported any amount initially, however, the detailed information provided from during the reconciliation shows the amount.

5. Licence fee for exploitation and exploration of mineral resources

The Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information; and we have made the respective adjustment.

6. Reimbursement of deposit, exploration of which is carried by the budget fund

The Government has not reported any amount initially, however, the detailed information provided from during the reconciliation shows the amount.

7. Land rent

The Government has not reported any amount in its initial reporting. We have sent official letters to the Capital City Land department and Land department of Selenge aimag. And we have resolved the difference based on the received replies.

8. Fee for water use

The Government has not reported the amount that was paid to the local, initially. We have sent official letters to the Selenge aimag and Nalaikh district. And we have resolved the difference based on the received replies.

9. Fee for forestry use and firewood

The Government has not reported the amount that was paid to the local, initially. We have resolved the difference based on the information provided from the tax authority of Selenge aimag.

10. Fee for recruiting foreign experts and workers

The Company has reported the service charge under this category. And the Government has not reported the received amount of 864 thousand tugrug.

11. Charges and service charges

The Company overstated the amount, while the Government has not reported the charges and service charges that are paid to the tax authority of Sukhbaatar district. During the reconciliation we have sent official letters to the tax authority of Sukhbaatar district and MRAM. The tax authority of Sukhbaatar has replied informing that only the amount of 5,200 thousand tugrug, which is lower by 17 thousand tugrug, was received from the Company.

The MRAM has confirmed amount of 2,740 thousand tugrug, and explained that amount of 600 thousand tugrug of service charge was not clear in the MRAM data. We have resolved the difference by enquiring again from the MRAM and received the information again, and also enquired from the Company and photocopied the supporting documents.

12. Donations to Governmental organisations

Monetary donation from business entity to aimag:

The Company reported that it made donations to the Governor's Office of Selenge aimag. We have resolved the difference based on the reply received from the Governor' Office. Also, the Company has included donation given to an individual, therefore, we have resolved the difference by deducting the amount.

13. In kind contribution at rate of 50% to environmental special account

The Government has not reported the contribution amount centralized at the Governor's Office of Bayan-Uul soum of Dornod aimag. However, we could resolve the difference based on information provided during our reconciliation the Governor's Office of Bayan-Uul soum of Dornod aimag

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 21 March 2011. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies respectively in between 14-15 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides except charges and service charges amounting to 17 thousand tugrug.

B-100. "Erel" LLC

Brief introduction

"Erel" LLC is 100% private company and operates gold mining in Darkhan-Uul aimag. The company is registered with the Capital tax authority.

Discrepancies between Government Receipts and Company Payments

The discrepancies between government receipts and company payments reported initially on templates, and made adjustments during the reconciliation are shown below. The detailed explanations regarding discrepancies and their respective adjustments are mentioned as follows:

1. **Economic Business Entity Income Tax /CIT/**
The Company understated the amount in its initial reporting as well as in its detailed information. We have enquired again from the Company and found out that the Company has understated the amount of 83,371 thousand tugrug that was paid on 30 June.
2. **Customs tax**
The Company understated the amount in its initial reporting as well as in its detailed information. We have resolved the difference after enquired again from the Company.
3. **Real estate tax**
The Government has understated that amount initially. We have sent an official letter to the tax authority of Darkhan-Uul aimag. The reply was received confirming only amount of 3,022 thousand tugrug, therefore, we have resolved the difference by making the adjustment.
4. **Tax on automobiles and self moving vehicles**
The Government has understated that amount initially. We have sent an official letter to the tax authority of Darkhan-Uul aimag during our reconciliation. The reply was received confirming only amount of 1,874 thousand tugrug, therefore, we have resolved the difference by making the adjustment.
5. **Fee for exploitation of mineral resources ("royalty fee")**
The Government reported initially not including 30% of payment which is payable to the local. We have resolved the difference by making the respective adjustment based on information provided from the City Land Department and tax authorities of Dornogovi and Darkhan-Uul aimag.
6. **Licence fee for exploitation and exploration of mineral resources**
Company reported in MNT that paid in USD by conversion, however, the Government reported in USD, and these were confirmed by their detailed information; and we have made the respective adjustment. Plus, the Government understated the amount initially, however, we have resolved the difference by making the adjustment since the Government has showed correctly in its detailed information.
7. **Reimbursement of deposit, exploration of which is carried by the budget fund**
The Government overstated the amount while the Company understated the amount. Both sides' amounts were confirmed in their respective detailed information.
8. **Land rent**
The Government understated the amount paid to the local budget. The difference is not resolved even if we have received replies to our official letters which are sent to the state organizations like tax authority of Darkhan-Uul aimag and Capital city Land department during our reconciliation.
The unresolved difference is related to replies from Saikhandulaan soum of Dornogovi aimag and the tax authorities of Nalaikh district informing that there was no any donation from the Company. We have enquired again from the Company and noticed that amount of 1,261 thousand tugrug was reported mistakenly in the Company detailed information. The amount of 88 thousand tugrug, which was paid to tax authorities of Nalaikh district, was confirmed with the supporting document provided from the Company.
9. **Fee for recruiting foreign experts and workers**
The Government has not reported amount of 33,303 thousand tugrug in its initial reporting. On the other, the Company has reported including the service charge.
10. **Charges and service charges**
We have sent an official letter to the tax authority of Khan-Uul district since the company has reported that is has paid stamp fee to this authority. The reply was received immediately informing that there was no any service charge and/or fee received from the Company, therefore, the difference remained unresolved. However, we have enquired again from the MTA and gathered the supporting documents from the Company, and resolved the difference.
11. **Customs tax**
The Company reported including the VAT paid to the General Customs Office.
12. **Donations to Governmental organisations**
Monetary donation from business entity to soums:
As per detailed information submitted from the Company during our reconciliation, the Company has made donations to the Governor's Office of Khongor soum of Darkhan-Uul aimag. We have sent an official letter and received a reply therefore, we have resolved the difference. \
13. **In kind contribution at rate of 50% to environmental special account**
The Company reported including the amount for costs disbursed for protection of the environment under this category. Also, the Company has included the previous year' amounts, therefore, we have resolved the difference by making the adjustment.
14. **Costs disbursed for protection of the environment**
The Company understated in its initial reporting, however, the detailed information provided from during the reconciliation shows the amount.

Disclosure:

We sent a confirmation letter to the Company requesting detailed information regarding the initially reported amounts, on 15 February 2011 and received reply on 21 March 2011; and received the detailed information after several times of requirements towards the Company accountant. After received, we have sent official letters to related state organizations on 29 March 2011 to confirm the amounts and received replies on 13 April 2011. We have used phone callings, enquires from the tax authorizes where the differences occur, and work together with the local' tax authorities. The reply form the Capital land department was received on 3 May 2011.

Summary:

For this company, all the amounts are adjusted and resolved based on the detailed information provided from both sides.

МОҮИТБС 2009 оны нэгтгэл тайлангийн тухай

Хүндэт Ноён/Хатагтай танаа

МОҮИТБС-ын 2009 оны нэгтгэл тайлангийн гэрээт ажлын даалгаварт заасны дагуу бид МОҮИТБС-ын Нэгтгэлд хамрагдсан компаниудын СТОУС-ын хэрэглээ болон тухайн компанийн талаарх тодорхой мэдээллүүдийг тайлагнах үүрэгтэй юм.

Иймээс дараах хавсаргасан судалгаа маягтыг бөглөж, холбогдох санхүүгийн удирдлагаар баталгаажуулуулан ubaudit_corp@mongol.net; erdenetsog@ulaanbaatar-audit.mn; delgermaa@ulaanbaatar-audit.mn гэсэн хаягууд руу явуулна уу.

Бид уг судалгааны үр дүнг өөрийн тайландаа нэр, хаяг дурьдалгүйгээр МОҮИТБС-ын албанд тайлагнах болно. Мөн уг судалгаанд хариу ирүүлсэн болон ирүүлээгүй компаниудын талаар тайландаа тусгана.

Хавсаргасан маягтыг 2011 оны 4 дүгээр сарын 14-ний өдрөөс өмнө бөглөж, ирүүлнэ үү.

Хүндэтгэсэн,

Шарын Цолмон

Монголын ОУИТБС-ын ажлын албаны
зохицуулагч

Бөөхүүгийн Осоргарав

“Улаанбаатар аудит корпораци”

ПРОТОКОЛ

2011 оны 5 дугаар сарын 27 өдөр

Улаанбаатар хот

Монголын олборлох үйлдвэрлэлийн ил тод байдлын санаачлагын дөрөвдүгээр буюу 2009 оны аудитын тайлан нэгтгэлийн ажлыг 2011 оны 2 дугаар сарын 14-ний өдрөөс эхлэн явуулж, анхлан үүссэн зөрүүг дор дурьдсаны дагуу шийдвэрлэсэн болно. Үүнд:

1. Анхлан үүссэн 1.3 тэрбум төгрөгийн зөрүүг БОАЖЯ-ны Хүрээлэн буй орчин, байгалийн нөөцийн газар болон бусад талуудаас холбогдох тайлбар авч, тодруулга тайлбарыг хийсний дүнд 1.2 тэрбум төгрөгөөр бууруулж 59.3 сая төгрөг болсон. /Хавсралт 1/
2. Компаниас нь төлсөн гэж мэдүүлсэн боловч Хүрээлэн буй орчин, байгалийн нөөцийн газрын хүлээж аваагүй (31,368) сая төгрөгийн байгаль орчныг хамгаалах зардлын 50 хувийн төвлөрүүлэлт, байгаль орчныг хамгаалах арга хэмжээнд зарцуулсан зардал (48,171) сая төгрөг нийт (82,514) сая төгрөгийг шийдвэрлэх боломжгүй болоод байна. /Хавсралт-2/

Цаашид байгаль орчныг хамгаалах арга хэмжээнд зарцуулсан зардлын тайлан гаргаж буй тухайн жилийн мэдээг авахдаа аж ахуйн нэгж байгууллагын эзэмшиж буй тусгай зөвшөөрөлтэй талбай бүрээр гаргаж байх, байгаль орчныг хамгаалах арга хэмжээг хэрэгжүүлэхийн баталгаа болгож байршуулсан мөнгөн хөрөнгийг ашиглалтын болон хайгуулын тусгай зөвшөөрлөөр ялгаж байх нь зүйтэй гэж үзэв.

Хөдөлмөр эрхлэлтийг дэмжих санд нэр бүхий 5 аж ахуйн нэгжээс төлбөр төлбөрийн дүнг дахин баталж байна.

ХЭД санд байгууллагууд ажлын байрны төлбөрийг хувь хүний нэр дээр, эсвэл нэр тодорхойгүй байдлаар шилжүүлсэн бөгөөд Төрийн санд тэр байдлаар нь шивж бүртгэдгээс төлбөрийн зөрүүтэй гарсан байж болох юм.

Иймд ажлын байрны төлбөр төлж буй аж ахуйн нэгжүүд улсын бүртгэлд бүртгэснээр нэрээ тодорхой бичиж ирүүлэх шаардлагатай байгааг манай газраас байнга анхааруулж ажиллаж байна.

ПРОТОКОЛ

2011 оны 5 дугаар сарын 24 өдөр

Улаанбаатар хот

Монголын олборлох үйлдвэрлэлийн ил тод байдлын санаачлагын дөрөвдүгээр буюу 2009 оны аудитын тайлан нэгтгэлийн ажлыг 2011 оны 2 дугаар сарын 14-ний өдрөөс эхлэн явуулж, анхлан үүссэн зөрүүг дор дурьдсаны дагуу шийдвэрлэсэн болно. Үүнд:

1. Анхлан үүссэн (757.2) сая төгрөгийн зөрүүг Хөдөлмөр, халамж үйлчилгээний газар болон бусад талуудаас холбогдох тайлбар авч, тодруулга тайлбарыг хийсний дүнд (755.1) сая төгрөгөөр бууруулж (2.1) сая төгрөг болсон. /Хавсралт 1/
2. Компаниас нь төлсөн гэдгээ баталгаажуулсан боловч Хөдөлмөр, халамж үйлчилгээний газрын хүлээж аваагүй (4.2) сая төгрөг, компаниас төлөөгүй, Хөдөлмөр, халамж үйлчилгээний газрын хүлээж авсан гэх 2.1 сая төгрөгийн гадаадын мэргэжилтэн, ажилчны ажлын байрны төлбөрийн зөрүүтэй байдлыг шийдвэрлэх боломжгүй болоод байна. /Хавсралт-2/

Иймд үүссэн нөхцөл байдалд дүгнэлт хийж, дараахь арга хэмжээг авах нь зүйтэй гэж үзэв.

1. Аудиторын зүгээс мухардалд орсон тул тайлбарлах боломжгүй байгаа зөрүүг Хөдөлмөр, халамж үйлчилгээний газар өөрийн архив, дотоод сүлжээгээр хянаж үзэх, үр дүнг Ажлын хэсэгт танилцуулах.
2. Аудиторын зүгээс Хөдөлмөр, халамж үйлчилгээний газарт арга зүйн зөвлөгөө өгөх, дэмжлэг үзүүлэх.
