# Reports crafted for local consumption

# Our efforts are yielding results

“I think the outreach to the schools was an excellent idea, simply because students are generally unaware of how to access information like what you presented. They do not look at the news, so any information they receive would have to come out of conversations in their homes. Interacting with them during the Tour through spoken word poetry was a creative way to bring out the information. Also, planning a tour for them of the Estate and presenting to them on job and educational opportunities in oil and gas, will help to expand their ideas of what is available to them. **They will not get this information otherwise.**”

Mrs. Tardieu – Teacher, Bon Air Secondary School

## EITI Beneficial Ownership Declaration Form

This information is required for Trinidad and Tobago to meet the 2016 EITI Standard which calls for reporting companies to disclose the beneficial owners of all corporate entities that apply for or hold a participating interest in an exploration or production oil, gas or mining license or contract. Please use a desktop computer for the best experience.

# TTEITI BO and PEP Register

Beneficial Ownership  
**Beneficial Ownership Register**

Welcome to the TTEITI's beneficial ownership register. This is a free, public repository of key information on oil, gas and mining companies operating in Trinidad and Tobago which voluntarily report to the TTEITI. It includes information about the beneficial owners of extractive companies including the names of natural persons and company data such as registered address and official Board of Inland Revenue number. While the information contained in this register has been supplied by reporting companies, the TTEITI cannot vouch for the accuracy, completeness or current validity of the information provided.
