Re: Provision of information on social investment and spending by companies operating hydrocarbons lots

Dear Sir

We are writing to you in order to provide the information required for the "Social and Environmental Management Investment and Expenditure Report (RIGSA) issued by companies operating hydrocarbons lots that are carrying out exploration and/or operation activities. Said report makes it possible to obtain and record general information on social management investment and contributions by companies, but this information is not verified, for which reason it is confidential.

Accordingly, please find below the annual combined investment and expenditure on social management for 2015 to 2017 by companies operating hydrocarbons lots.
