

# Overview of proposed changes

- 1. Encouraging gender considerations in EITI (Requirements 1.4, 6.3 and 7.1)**
- 2. Improving systematic disclosures related to state participation and SOEs (Requirements 2.6, 4.5 and 6.2)**
- 3. Reflecting emerging practices on licensing transparency (Requirement 2.2)**
- 4. Reflecting emerging practices on contract transparency (Requirement 2.1 and 2.4)**
  - Options:*
    - a) Requiring contracts to be made public with deadline for implementation
    - b) Requiring contracts signed after a deadline to be made public
    - c) Moving towards an expectation that contracts should be made public
    - d) No change to Requirement 2.4.a ahead of the Global Conference
- 5. Encouraging more granular production and export data (Requirements 3.2 and 3.3)**
- 6. Moving towards systematic disclosures and improved data assurances (Requirements 4.1 and 4.9)**
- 7. Reflecting progress on commodity trading transparency (Requirement 4.2)**
- 8. Clarifying the EITI's approach to project-level reporting (Requirement 4.7)**
- 9. Reflecting emerging practices on local level reporting (Requirement 5.2)**
- 10. Environmental reporting (Requirement 6.1, new requirements)**
  - Options:*
    - a) Revising Requirement 6.1 to cover environmental expenditures
    - b) Encouraging disclosures of contextual information related to environmental monitoring
    - c) Encouraging links to existing disclosures on climate risks
    - d) No changes to the EITI Requirements, scaling up of guidance and support
- 11. Encouraging open data efforts (Requirements 7.1 and 7.2)**
- 12. Strengthening the review of outcomes and impact from EITI implementation (Requirements 7.3 and 7.4)**
- 13. Clarifying requirements related to compliance and deadlines for implementing countries (Requirement 8.3.c.i)**
